## ABOUT US

### Let's create a cleaner, greener future

Sustainability is no longer a 'welcomed addition' to company practices but is now an expectation in the eyes of customers, governing bodies, and stakeholders. Climate change is an urgent issue, and it's up to us as individuals and as a business to take responsibility and act now to reduce our carbon footprint.

When it comes to investing in sustainable business practices, the simplest way to make changes is to source sustainable suppliers and products. Which is exactly what we aim to do at Purozo !

### We drive sustainable change in SME's and large-scale organisations

1. Removing plastic waste from the supply chain and waste for facilities – make your business more sustainable than ever !.
2. Highly effective product range – whilst we continue to improve the sustainability of our products, they are still mightily effective at completing your cleaning requirements
3. Save money in your cleaning budget – with more sustainable, but cost-effective products.

# tersano

## REVOLUTIONISING THE WAY, YOU CAN CLEAN WITH TERSANO LOTUS PRO

### Simple. Safe. Sustainable.

Tersano Lotus pro provides a simple, safe, and sustainable alternative to traditional cleaning chemicals.

- Cost saving
- Sanitising effect
- No mixing chemicals
- Minimal COSHH training
- Replaces multiple cleaning and sanitising products in your facility.

### What it can be used to clean

- Floors
- Windows
- Mirrors
- Ceramic
- Glass
- Carpet
- Upholstery
- Granite
- Marble
- Wood
- Stainless steel

#### STEP 1 - TREATING THE WATER

Tap water is put into a stabilisation cartridge, where impurities and minerals are removed. Treating the water in this way enhances its cleaning qualities.

#### STEP 2 - INFUSION

Once injected with volts of electricity, the oxygen molecules within the water are split from O<sub>2</sub> (oxygen) into O<sub>3</sub> (ozone)

#### STEP 3 - CLEAN AND SANITISE

In its stabilised state the solution acts as a powerful cleaner and sanitiser against a variety of pathogens

*simple, sustainable, revolutionary*

### Your eco-friendly dissolvable cleaning pods!

Dissolvable cleaning pods allow traditional cleaning products to be more sustainable and easier than ever to use, using its clever packaging and soluble capsule design. Enabling you to clean more sustainably, it is easy to implement for both your staff and your facility.

Covering nearly all areas of cleaning products, they will give you the balance to have a more sustainable product whilst still being cost effective.

### Simple but more sustainable

- Free from single use plastics
- Recyclable and compostable packaging
- Biodegradable formulation
- Reduced transport and storage costs

\*everything from packaging to the sachet itself is manufactured in the UK which reduces transport costs and therefore your carbon footprint!

#### STEP 1

Insert soluble capsule into designated spray bottle or bucket with warm water

#### STEP 2

After the coating dissolves in water and the powder is released, stir or shake to mix the solution together

#### STEP 3

You're ready to clean

### What Products We Offer

#### General Cleaning and Disinfectants:

- Multi-purpose cleaner
- Degreaser
- Cleaner sanitiser
- Detergent disinfectant
- Toilet cleaner
- Air freshener
- Glass and stainless steel cleaner
- Bathroom cleaner

#### Floor Cleaning:

- Degreaser detergent
- Aqua multi-purpose

#### Laundry:

- Non-biological laundry
- 2-in-1laundry

**ZOONO®**

*The future of antimicrobial protection is here*

**ZOONO**

**Perfect for common touch points and high-risk areas, Zoono's antimicrobial shield technology creates a germ destroying protective layer, enabling dramatic improvements in efficiency.**

Killing harmful bacteria and viruses on contact and at a microscopic level. Once on the surface, it will continue to breakdown different microorganisms for extended time periods for up to \*30 days using a product made from 99 % water.

Zoono enables for a more structured cleaning and sanitising policy , reducing the need to be wiping down surfaces at all times.

\*Zoono must be used in conjunction with regular surface cleaning procedures and not as a replacement.

1. Zoono bonds to the surface to create a protective layer

2. This extra protective layer of tiny pins attracts pathogens

3. The pathogen bursts like a balloon on contact

4. And you're protected

**DELPHIS\***

\*eco PROFESSIONAL CLEANING

**FOAMING DESCALER**

*Loved by professionals,  
approved by the planet*

With a bottle made from 100% recycled plastic, this foaming descaler is professional strength using eco-safe formulations.

Ideal for descaling taps, sinks and showers, and removing dust and stains where germs and bacteria breed.

## TECCARE

*The revolutionary cleaning and disinfectant range without compromise.*

**TECCare products produce the safest and cleanest environment a business could ever ask for, even in the most sensitive and high-risk areas.**

Producing exceptional results without the need for high levels of harsh chemicals.  
Just 1 litre of TECCare concentrate produces 250 bottles

### Where can it be used?

- Catering
- Domestic
- Education
- Health care
- Hotels/hospitality
- Laundry
- Offices
- Travel

*\*All TECCare technologies have been tested and assessed as Non-toxic, Non-irritant, Non-corrosive and food-safe anti microbials.*

TECCare changes everything, this is why we call it the product range with no compromise.

- It's safe
- Its sustainable
- Its highly effective
- It's easy to use
- Its affordable

## TECCARE CONTROL

**An all-in-one high level, broad spectrum cleaner and disinfectant.**

No matter what you need to control, from cleaning up bacteria, blood spills, clinical equipment or just regular touchpoints, control is here to do exactly that.

TECCare control only requires 4ml of concentrate to do any job, no matter what the circumstance is!

We believe it is one of the most simple, safe, sustainable, and effective products ever brought to the market, and costs as little as 15p per bottle!

## TECCARE ECO-DET

**An all-out cleaner created using a blend of herbs and vegetables, Eco-Det deals with daily and heavy-duty cleaning with ease.**

Environmentally friendly, safe, and non-toxic, degreaser/detergent for use on all surfaces in all environments.

Designed to replace the need for solvent and other classified chemical usage, Eco-Det can be used for all daily cleaning, but is also effective against oil, grease, and fuels.

It's so safe, even in its concentrated form that, there isn't even a hazard label!

## POSSIBLY THE WORLD'S MOST SUSTAINABLE COMMERCIAL HAND SOAP

Soap2O is one of the most innovative hand soaps ever created to date. Formulated to clean and moisturise your hands, these powerful soluble sachets are fully sustainable, highly cost effective and vegan friendly.

### 'Making waves in saving the planet'

- Eliminate the use of single use plastic
- Reduce shelf space by up to 92%
- Cut packaging by up to 70%
- Reduce transport cost by up to 90%
- Reduce weight by up to 99%
- Smells amazing
- No animal testing and vegan friendly

Soap2O can be combined with a dispenser or soap bottle.

#### How to use our soaps

1. Fill the bottle/dispenser with water.
2. Drop the soap sachet into the water .
3. Shake the container, wait 30 seconds
4. Ready to go

## CRYSTAL BAG-IN-BOX

### Efficient and effective

- Highly concentrated formula
- Powerful degreasing and hygienic cleaning
- Hard and soft water options

### Safe to use

- Closed system. No contact with products
- Leak proof connection
- Easy to connect

### Ecological detergents

- Biodegradable
- No chlorine or other halogen compounds
- Nordic swan ecolabel

### Sustainable packaging

- The system results in over 5 x less plastic, compared to a standard 10 litre container

*A sustainable alternative to standard dishwashing products.*

All-in-one Dishtabs contain a powerful degreaser, salt and rinse aid which produce grease-free, stain-free results time after time. Easy to use and suitable for domestic or semi-industrial dishwashers, with a soluble film wrapper and packaging made from recycled cardboards.

## WHY CLEANING MACHINES HELP YOU

Our range of cleaning machines eliminate dirt, dust, grease, and grime in a way that a person can't. Cleaning in a fraction of the time, today's machines are quiet and highly sustainable, have long-lasting batteries and eliminate the safety hazards associated with mops and brooms.

### EXCENTR 40-25

Working with an Excentr machine has never been easier; cordless, vibration-free and with 100% results.

The Excentr 40-25b is the alternative to the single-disc machine, ideal for deep cleaning, stripping and light renovation.

The 2850 rpm in combination with a pad pressure of 45kg guarantees fantastic results in very little time!

*The technique of the future*

#### Applications

- Ceramic Tiles
- Non-Slip and Safety Floors
- PVC
- Sports Floors
- Rubber Floors
- Natural Stone
- Concrete And Coated Concrete
- Wooden Floors
- Linoleum Floors
- Marmoleum Floors

**1 Reducing labour costs**

Whilst the upfront cost of buying an industrial cleaning machine is more than your average mop or broom, most commercial cleaning equipment pays for itself in the long term. For example, 90% of costs relating to floor maintenance is on labour alone.

**3 Mops and brooms aren't as effective**

Cleaning machines will use 100% water due to the separation of clean and dirty tanks, whereas a standard mop will tend to smear germs from one area to another. Traditional mops and brooms simply do not clean well.

**2 Commercial machines minimise disruption**

Cleaning machines will leave behind clean floors/surfaces without the trail of a slippery and wet path, meaning people can continue their day-to-day task without the hazardous wet floors that result in taking extra caution.

**4 Machines are more eco friendly**

Compared to a mop and bucket cleaning machines use considerably less water and depending on cleaning needs may not require chemicals at all. Many applications can effectively be cleaned with water and the strength of the scrubber pads.

## I-MOP

### *The heavy-duty auto scrubber*

#### Revolutionary, Unrivalled, Flexible, Powerful

i-Mop changes the whole experience of cleaning. Its smaller and much lighter than a walk-behind auto scrubber, but the brushes rotate faster and deliver more cleaning power, allowing you to do a better cleaning job with less effort. You can clean 10 times faster than with a mop and bucket and leave the floor cleaner, with no more effort than walking.

The i-Mops advanced patent technology extracts virtually all the cleaning solution and whatever liquid happens to be on the floor, leaving floors dry and safe to walk on almost immediately.

Easy to operate, eliminating exhausting and laborious mopping due to its built-in scrubber providing faster, cleaner, and safer results than regular mops or auto scrubbers.

- 70% Faster Than Wet Mopping
- 30% Faster Than Conventional Auto Scrubbing
- Reduces Environmental Impact by Over 75%
- Lightweight and Compact

*Whatever takes you an hour to normally mop, the i-Mop can do in only 11 minutes!*

*free onsite demo*

#### Control panel

##### You can control me

The control panel on the i-mop is easy to use thanks to its intuitive design. With the main control knob, you can choose the desired settings. Want to use less water? Push the eco-mode button and instantly reduce your water usage by 40%

#### Easy does it

##### Drive Support

Drive support allows an operator to use the i-Mop with up to 2.75kg less weight on the handle for easier manoeuvring.

#### The future is green

##### i-Dose

with i-Dose we introduce pods that contain a super concentrated, eco-friendly cleaning formula for the i-mop. Every pod contains exactly enough detergent for one i-dose solution tank.

#### When you need a moment

##### Parking support

Back fatigue is a thing of the past. With parking support, you don't have to bend down for a deck lift when you want to park the i-mop for a short period of time. Parking support allows you to park the i-mop in a standing position for 10 minutes without lifting the deck.

## COBOTIC

The Cobot 1700 is an autonomous vacuum cleaner that navigates around any obstacles that may be in its path and will even clean under furniture where possible. Once complete the vacuum will return to its docking station to charge ready for the next clean.

### I'll do the work

The Cobot 1700 can be programmed to vacuum spaces as precise and efficiently as possible. With the i-Team professional app, you can divide the room into several zones! It's also possible to create virtual boundaries.

### Get the job done fast

The Cobot 1700 can keep working for up to 270 minutes!

### Cleaning and safety go hand in hand

As the Cobot 1700 works on a battery, there are no cables involved. This instantly reduces the risk of falling hazards.

### Easy does it

By combining autonomous cleaning with the trained human eye, you can get the most out of your cleaning operations. The operator and the machine make a perfect team as they can simultaneously execute repetitive and detailed cleaning jobs.

*the robotic vacuum  
you've been waiting for*

## PACVAC

*Commercial cleaning  
experiences revolutionised  
with backpack vacuuming*

With 3 different models ranging from the lightest battery powered vacuum available on the market to the powerful Superpro 700 Advanced, Pacvac provides solutions to suit all your vacuuming needs.

- Cordless backpack vacuum cleaners are proven to clean up to 4 x faster than a corded canister vacuum
- Lightweight and easy to use, giving you freedom and comfort as you clean
- Backpack vacuums allow you to experience an unparalleled level of freedom and movement during any cleaning task big or small
- revolutionise vacuuming with the fastest and lightest backpack vacuums on the market

Motor  
Scrubber

M-TOP  
SCRUBBER

## MOTORSCRUBBER JET

### Targeted Spray-Scrub Technology

*'Every building needs a motorscrubber'*

The Motorscrubber Jet3 is your ultimate, reliable, deep cleaning solution. A scrubber, degreaser, cleaner and polisher all in one, getting that next level clean couldn't be easier.

Able to tackle the toughest grease, dirt, and grime, it is suitable for use across a wide range of surfaces and great for cleaning those areas that bigger machines just cannot do.

#### 1. High powered spray function

The easy dose spray function releases fresh cleaning solution, so no more spreading around dirty water

#### 2. Lightweight and versatile

Light, compact, and able to clean hard to reach areas that other machines can't

#### 3. Solution jetpack

No more lugging around mop buckets, the jet comes with a wearable jetpack containing the solution

#### 4. Interchangeable brushes and pads

Brushes and pads can be swapped out to suit a wide range of surfaces and scrubbing strengths.

## CLEANER, FASTER, BISSELL

Whatever your industry, there's a BISSELL machine designed to help you clean more efficiently. Engineered to last and save money while delivering exceptionally clean results, these machines are ideal for retail, healthcare, education, office, hospitality and more.

### BISSELL Commercial SC100

portable carpet & upholstery washer designed to professionally clean upholstery and high traffic areas, removing even stubborn spots and stains, as well as embedded dirt. Two separate large tanks for clean and dirty water allow for quick fill and easy empty.

### BISSELL CrossWave® Commercial

This 3-in-1 multi-surface floor cleaner simultaneously vacuums, mops, and dries floors in one easy step. It is designed to clean hard floors such as sealed hardwoods, tiles, and laminates. It can also refresh area rugs. Digital touch controls allow easy adjustment to cleaning on different floor types. The on-demand trigger allows for control over the amount of water released on the unique extra-large brush roll. Easy to remove dual tank technology keeps the clean and dirty water separate.

### BISSELL Commercial DC100

The Carpet & Upholstery Washer achieves a whole new level of clean with its powerful motors and extra-large brush roll that pulls out deep down dirt.

Remove deep-down dirt from carpet with rotating DirtLifter™ PowerBrush that cleans in both the forward and backwards pass and stays comfortable throughout use, thanks to the ergonomically designed, adjustable tank handle.

## SPRENKLER MICROFIBRE MOP KIT

- Aluminium handle with integrated water reservoir that holds up to 450ml of liquid.
- Easily replaceable Velcro floor frame
- We offer 3 types of mop heads: Twist, Scrub and Diamond

## TWIST MOP

Microfibre dust mop for quick and effective dusting of hard floors. Excellent absorbency, quick and easy to change

## SCRUB MOP

Microfibre mop with scrubbing strips for damp cleaning of stone floors. For Floors that aren't prone to scratching, this mop head easily removes heavy dirt.

## DIAMOND

The hardened polyester in the Diamond Mop cleans without damaging the surface. The pleated fabric gives the mop extra body and volume and ensures that the mop will have less friction on the floor allowing uneven floors to be cleaned effortlessly.

## RE-BELLE MICROFIBRE CLOTHS™

*The first recycled and fully recyclable microfibre cloth Purozo has ever offered*

### A durable, quality microfibre that rebels against waste

- Made from 100% recycled polyester microfibre and is recyclable.
- Time savings through effective and fast cleaning.
- Can be washed at least 500 times.
- Can absorb almost 7 times its own weight
- Strong edge finish, so that the microfibre cloth does not shrink.
- Cradle to Cradle Certified - Bronze level.

*Greensspeed are leaders in sustainable microfibre solutions*

## MICROFIBRE

Microfibre cleans far more effectively than conventional systems. Instead of spreading dirt, microfibre collects dirt, grime and germs.

Microfibre can be used 100's-1000's of times compared to conventional cloths whilst being so much more effective.

*Ensuring your cleaning produces the most effective results*

### USES

- Glass
- Floors
- Sinks & Toilets
- Wood Stainless Steel
- Furniture

## TRIGGER SPRAY BOTTLES

### 750ml Recycled Spray Bottle

Made from a large percentage of recycled plastic, this is Purozo's main trigger spray bottle we supply to customers. Available in blue, green, red, or yellow.

*\*Trigger head not made from recycled plastic*

### Atomiser

This 300ml bottle produces a continuous fine spray, covering large areas quickly and evenly on all kinds of surfaces allowing for a more efficient use of product.
