

# Chalet & Mobile Home Parks

## Are Utilities a Drain on Your Business?

Delivering utilities to each pitch is a fundamental requirement for modern Parks and every Operator is only too aware of the cost burdens this puts on their business; substantial infrastructure investment, ongoing costs for maintenance and administration, supply and service charges from utility companies. Ever exacerbated by rising costs and increasing usage.

**SMART Meter MACS** is the optimum system that enables facility operators to cost-effectively control, manage and recharge usage and service costs, whilst improving the service provided to their customers.

### Improve Operational Efficiency:

SMART Metering - Intelligent, Accurate, Automated  
Manage & Control utilities securely from any office  
Restrict usage to authorised customers  
Turn a supply on or off from the office  
Instantly see - Supplies not allocated - Supplies assigned and to whom

Obtain Real Time Status Information and Alarms  
e.g. Power Fail, RCD Trip  
Extensive financial and management information, reports and analysis  
Solution options for static and roaming customers

### Recover Costs, Improve Cash Management:

Accurately reconcile all usage to users  
Options for pre-pay and account billing  
Better manage peak demand with variable tariffs, e.g. off-peak

Timed usage for visitors / auto turn-off  
Easily and quickly pass on tariff changes  
Instant Meter and Customer Balance Reports

### Improve Customer Service:

Ensure each customer only pays for their usage  
24/7 on-line account, status & usage information  
24/7 on-line payment facility

Automatic email notifications e.g. Unplugged, Top-up needed / Account Balance...
