WiFi

Transform your park and guest connectivity experience with our Managed Park WiFi, offering secure, separate networks for business and guests, backed by UK-based support available 7 days a week. Our service is friendly, approved for safe browsing and provides professional installation options. Enhance guest satisfaction with complimentary access or opt for paid access to aid in cost recovery.

FEATURES OF INTEGRATING IN PARK WiFi

Enhanced Connectivity Across Leisure Locations
Our high-speed networks and WiFi solutions are designed to transform holiday parks, touring parks, holiday homes, resorts, marinas, and waterways into fully connected environments.

Guaranteed Coverage
We guarantee exceptional coverage before site work begins using the latest modelling software.

Time-limited Free Access
Free, limited-time access gives users the confidence to purchase longer-length packages.

Advanced Roaming Features
All guests can move through the sites and venues while remaining connected.

Managed and Supported
Our UK-based team offers 7-day-a-week support.

Secure and Separate
Distinct networks for business and guest use, ensuring security.

Peace of Mind
We only use the best enterprise-grade equipment, all with a 3-year warranty.

Legislatively Compliant
Fully compliant systems for peace of mind.

Child-Friendly WiFi
Safe browsing with filters to block unsuitable content.

SMART Door Locks

Unlock the potential of seamless guest experiences with Camping Connect's SMART Door Locks, part of our comprehensive SMART Park range.

Designed for the modern holiday park, our SMART Park solutions offer unparalleled convenience, security, and integration, ensuring guests enjoy their stay without the usual hassles associated with traditional access methods.

FEATURES OF SMART DOOR LOCKS

Flexible Access
Choose between RFID or PIN systems to offer guests various secure entry options.

Universal Application
Compatible with all types of doors, ensuring a fit for every accommodation need.

Easy Installation
Easily replace existing door handles with our SMART Door Locks without requiring extensive modifications.

Automated Guest Management
Access codes are automatically sent to guests via SMS or email, streamlining the check-in process and reducing wait times.

Secure Sensitive Park Areas
SMART Door Locks provide tailored access, enhancing safety and streamlining management — for peace of mind and operational efficiency.

Reprogrammable Cards and Child Wristbands
The perfect blend of convenience and security. Provide child-friendly wristbands for secure, key-free access, while staff benefit from reprogrammable master cards that eliminate the need for traditional keys.

SMART Door Locks

BENEFITS OF INTEGRATING SMART DOOR LOCKS

Enhanced Guest Satisfaction
Provide a smooth, keyless entry experience that modern travellers expect, directly contributing to improved guest reviews and repeat bookings.

Ensure accountability and Resolve Disputes
Smart Door Locks track entry and exit, providing clear, verifiable records of who accessed your premises and when.

Schedule Access
Allow cleaners, maintenance & guests access, ensuring your park operates smoothly & securely around the clock.
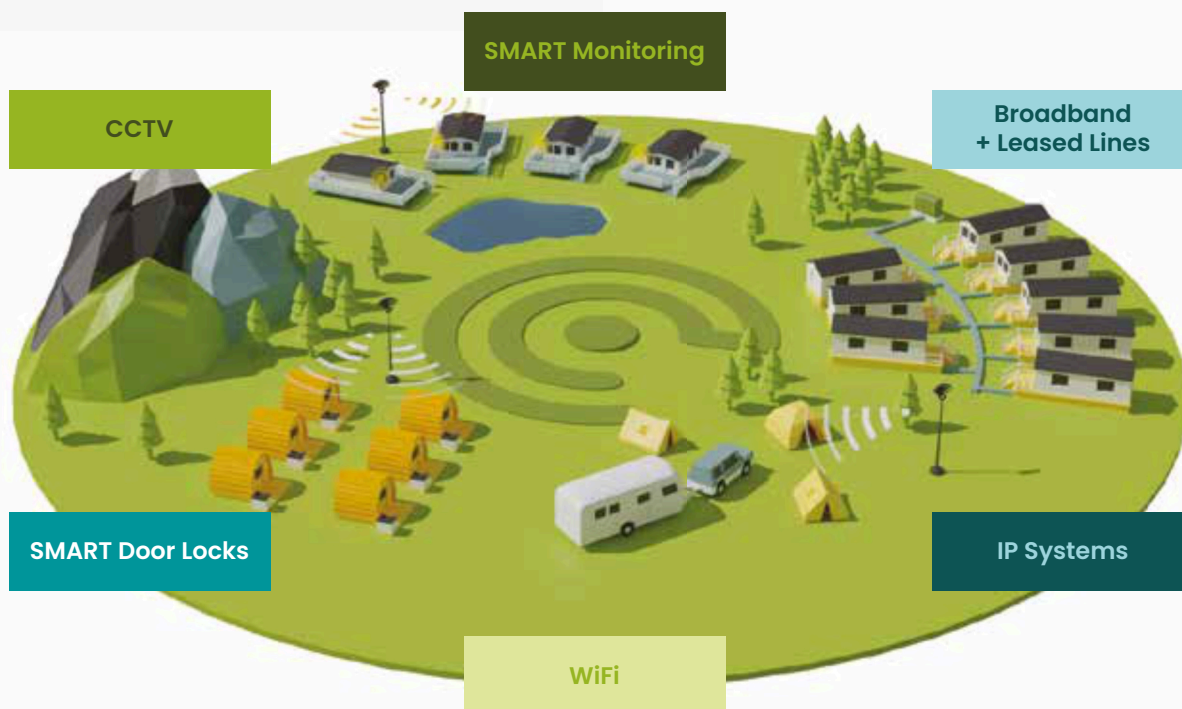

Hassle-Free
Say goodbye to the inconvenience, costs and security issues of misplaced keys and the worries of keys not being returned. Enjoy peace of mind and a more efficient, secure welcome for guests.

Increased Security
Advanced encryption & secure networks ensure that only authorised guests can access their accommodations, enhancing overall park security.

Cost Savings
Our SMART Door Locks are easy to install and offer a long-term, cost-effective solution for access management, with minimal maintenance required.

SMART Monitoring

Unlock the efficiency of our SMART Monitoring Water + Electricity Management, a key component of our all-encompassing SMART Park series. This cloud-based platform brings the power of remote accessibility to the forefront, transforming how you manage resources. With our system, you'll streamline operations and enjoy the financial benefits of advanced technology.

FEATURES OF SMART MONITORING WATER + ELECTRICITY MANAGEMENT

Cutting-edge Automation
Harnesses sophisticated technology to automate, learn, and adapt, making intricate operations straightforward.

Seamless Integration
Easily incorporates your current infrastructure, enabling effortless updates or fresh installations.

Constant Monitoring
Provides around-the-clock monitoring of electricity and water to ensure continuous supervision.

Leak and Wastage Alerts
Features intelligent sensors to identify leaks and wastage, promptly sending alerts to avert resource loss.

Remote Access and Control
Facilitates real-time observation and management of water and power, including consumption reviews and remote power regulation.

Cloud-based Platform
Flexible and convenient cloud-based platform that allows for real-time monitoring ensuring you stay connected to your management system, wherever you are.
