

ELECTRIC BIKES

2024

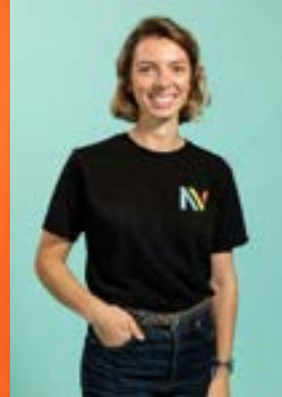

juicybike by
NEOMOUV

Living e-bike since 2003

UK: www.juicybike.com

FR: www.neomouv.com

After a year of celebrating our 20th anniversary with various events and experiencing a range of emotions, including acquiring our own painting and assembly facility, we are excited to welcome 2024.

As pioneers of e-mobility, we firmly believe in the importance of e-bikes as an alternative mode of transport. We are proud to present our full range of e-bikes, which come in a variety of vibrant colours and are accessible to all.

Read on to discover our latest models within this brochure. Our products feature industry-leading technologies such as integrated batteries, polished welds, integrated cables, integrated wheel locks, and Bluetooth connectivity. We always aim to combine quality, reliability, simplicity, and power, all at a competitive price!

Join us on this colourful adventure, and let's redefine the way we travel in 2024.

The only tricky part is choosing the colour!

Philippe VAXELAIRE
President

OUR PURPOSE

To promote the widespread use of electric bicycles and encourage people to adopt greener habits in the form of electrically-propelled bicycles.

OUR VALUES

Knowledge and innovation

Unique technologies across five patents only found on NEOMOUV bicycles.

Distinctive Pop

Our bicycles are colourful and recognizable yet suited to all personalities.

Bikes for everyone

A range for all uses, accessible to the widest audience possible.

Quality and safety

Meeting and surpassing the EN15194 standard using accredited laboratories. Ecological painting methods and materials are also used.

Environment and CSR

In partnership with COREPILE and ECOSYSTEM, we focus on recycling, reconditioning, repairing existing bikes and using less packaging.

21 YEARS OF FRENCH EXPERTISE AND INNOVATION !

We offer a range of colourful and innovative bikes, including urban, mountain, hybrid, and folding bikes, to cater to a variety of tastes and needs. Our facilities are located in the heart of Sarthe, in La Flèche, spanning across an 8-hectare site that houses our head office, workshops, warehouses, and a design office dedicated to researching and developing your future electric bike. We distribute our bikes directly in France, the UK, Spain, and Portugal, and plan to continue expanding into new countries.

PAINTED AND ASSEMBLED IN PORTUGAL IN AN ULTRA-MODERN MANUFACTURING FACILITY

Our bicycles are painted and assembled by UNIBIKE, which we acquired in May 2023. Located in the heart of Bike Valley, UNIBIKE is an expert in the field of cycling with a new factory commissioned in 2021, which is one of the most modern in Europe.

The factory meets the highest industry standards and is equipped with automated lines for our painting processes, including powder, liquid, and carbon paint. The operators are highly skilled in applying water-based stickers under lacquer. Their expertise is recognized by the biggest international brands, making them a trusted partner in the cycling industry. The factory meets high environmental requirements and is capable of assembling up to 250,000 electric bicycles per year.

OUR NEOASSIST 2 CENTRAL MOTOR, QUIET, POWERFUL AND EFFICIENT

Our motor offers a natural feeling of pedalling due to its smooth assistance and has an excellent motor torque of 80 Nm, an undeniable advantage in cycling comfort. Despite having higher torque than most bikes on the market, it operates almost silently.

NEOMOUV now has two test benches for our engines. Allowing us to replicate real-world and extreme usage to ensure long term reliability.

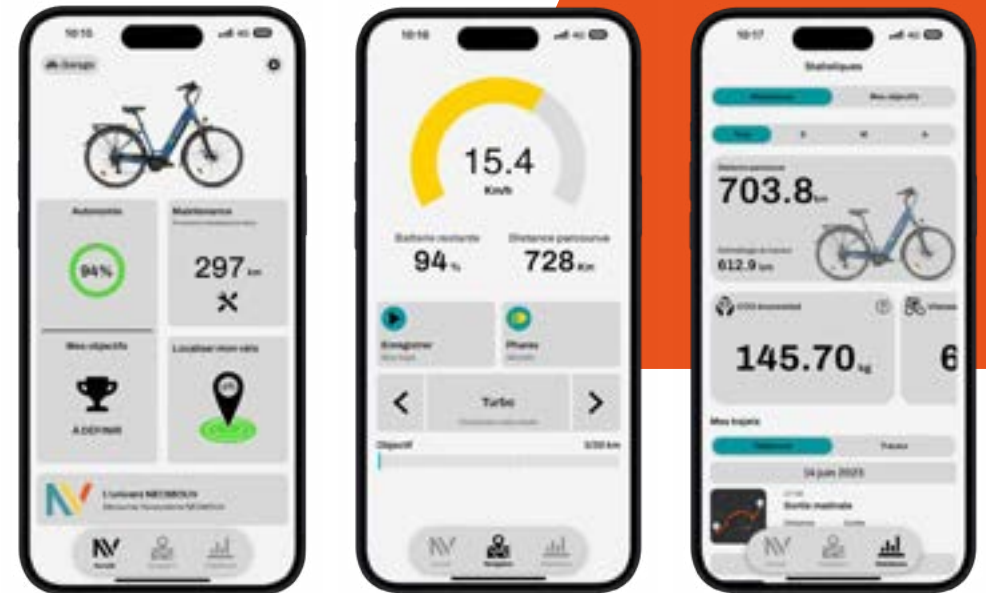

The development team ensure that our bicycles are reliable and repairable, whilst providing excellent service to our customers.

MYNEOMOUV APPLICATION

NEOMOUV has launched the myNEOMOUV app with a host of features, including a maintenance log to ensure your bike stays in excellent condition.

- Maintenance logbook
- Light activation
- Battery capacity
- Creation of cycling goals and objectives

Available on Apple and Android

All models in the range (except ultra-light) can be fitted with a tracker, offering an even more advanced customer experience with geolocation and trip history. The addition of a tracker can reduce insurance costs.

NEOMOUV AT YOUR SERVICE

RELIABLE E-BIKES AND EFFICIENT AFTERSALES

Our network of approved distributors provides maintenance and after-sales service for your bike and, above all, is your best advisor when it comes to looking after your NEOMOUV bicycle.

Our after-sales team is available through a BtoB platform with real-time stock information, after-sales service monitoring, tutorials, and documents to support our network.

We offer a 5-year guarantee for bicycle frames, 2 years for electronic parts, and 30 months for NEOASSIST2 motors and batteries when registered on our website.

We partner with renowned suppliers and are careful to use materials that are respectful of your health. It is important to us to create and repair bicycles that last. We have a large stock of both new and reconditioned bicycle parts available from our UK warehouse.

CHOOSING THE SIZE OF YOUR BIKE

It is important to have a comfortable and stable ride on your bike, which is why we offer multiple sizes depending on our models.

Wheel size is measured in inches, ranging from 16" to 29", depending on the model. The frame size, which is the distance between the bottom bracket axle and the top of the seat tube, can range from 28cm to 51 cm, depending on the model. When trying out a bike for size, it's ideal to sit on the saddle and have the tips of your toes touch the ground.

Here is a table to help you choose the correct size using your height and the desired bike model. We always advise our customers to try the bikes to ensure they feel comfortable.

OUR ACCESSORIES

COLLAPSIBLE FOLDING HELMET (URBAN USE)

REF. 9107 - 9106

- Folding (-50% in 1 second!)
- Elegant, comfortable and adjustable
- 2 sizes : M (55-58 cm) and L (58-61 cm)
- Colour : graphite/red
- Weight : 340g (M) and 370g (L)
- EN1078 and CPSC-compliant

**PHONE MOUNT**

REF. 7784

- Adjustable and retractable
- The bracket attaches to all handlebars
- Compatibility : Universal
- Black colour

**REARVIEW BIKE MIRROR**

REF. 7481

- 360 degree adjustable viewing angle
- Automotive quality glass
- Adaptable clamp suitable for 21 mm - 26 mm handlebars
- Black colour

**WATERPROOF PHONE POUCH**

REF. 8085

- Transparent and tactile
- Dimensions : 10.2x18cm

**REFLECTIVE WARNING ARM**

REF. 4079

- Attached to the rear of the bicycle
- Retractable
- Mounted via clamping screw
- Dimensions : 330 x 105 mm
- Orange colour

**BICYCLE SUPPORT**

REF. 8721

- Stores one bike upright
- Suitable for all wheel sizes
- Black colour

**FOLDING BIKE BAG**

REF. 2720

- Folded size : 34 x 40 x 7 cm
- Unfolded size : 85 x 86 x 48 cm
- Black colour

**AXA FOLDABLE LOCK**

REF. 8371

- Steel
- Strong, light, practical and attaches easily
- Length : 85 cm
- Black colour

**MINI COMPRESSOR**

REF. 8356

- Allows you to inflate tyres to the desired pressure
- USB charge port
- Universal - Suitable for balls, bicycle, motorcycle, car
- Black colour

POLISPORT BABY CARRIER SEAT

REF. 8610

- Robust and attractive with padded cushion
- For 26" and 28" bikes, equipped with luggage racks
- Materials : Hard-wearing and easily cleaned PVC
- Mounts onto rear luggage rack
- Dimensions: W 400 x H 715 x D 500 mm
- Capacity : < 22kg
- Complies with EN14344 standard
- Black colour

THE BICYCLE'S
LUGGAGE RACK
MUST BE ABLE TO
SUPPORT 27KG

BLACK PLASTIC FRONT BASKET

REF. 6839

- Robust and attractive with built in handle
- Materials: black rigid plastic
- Mounting: Mounts to the handlebar; suitable for all sizes using supplied adapters
- Clip-on system for easy removal and installation
- Capacity : 12L
- Maximum load : 5kg

BIKE COVER

REF. 8705

- Material: 100 % polyester
- Waterproof
- Size : 198 x 69 x 112 cm
- Black colour

PANNIER BACKPACK BAG

REF. 6456

- Materials: 100 % polyester
- Waterproof
- Size : 47 x 27 x 13 cm
- Capacity : 16.5 L
- Black colour

PANNIER CARRY BAG

REF. 12551

- Materials: PU + Polyester
- Size : 52 x 30 x 13 cm
- Capacity : 20L
- Colour : black / blue

DOUBLE PANNIER BAG

REF. 12552

- Materials: PU + Polyester
- Size : 45 x 28.5 x 14cm
- Capacity : 30L
- Colour : black / blue

WHAT OUR CUSTOMERS HAVE TO SAY

Our customers are our best ambassadors!

This bike has a very good quality-to-price ratio. I ride it on a route with a 10% average incline over 250 meters of elevation gain every day. I go between 15 and 20 km/h, carrying luggage on the back. The battery lasts for three round trips, and it might be possible to make a fourth if I use the assistance wisely. It's very safe to use and stable going downhill. The front and back lights are a great addition. If you want a bike with these technical features, you could expect to pay around £4500 from other brands. I strongly recommend it.

Chloé

This bike has exceeded my expectations. It's very comfortable to use for urban journeys and has good battery life. Hills are no longer a problem as they easily change gears, and the electric assistance is smooth and consistent. I can also push it a little if I want to without worry. The colour is great too; I really enjoy riding it!

Frédéric

I have loved going out on my bike since I purchased it. We all do the "isles of Charente Maritime, and we take it everywhere on holiday. I get no aches or pains after 40 to 50 km of cycling per day. It's so good, my husband has now purchased one!

Sylvie

As someone who hadn't ridden a bike in years, I was delighted with my recent purchase. Not only is it beautiful, but it's also efficient and easy to handle. The battery is removable for easy recharging and charges quickly!

Brigitte

I had a problem yesterday when error code 15 appeared on my display and the electric assistance was inoperative. Fortunately, I was able to complete my journey on the road pedalling the bike by myself, but once I got home, I contacted Neomouv through Messenger for technical support. They provided me with ultra-precise and immediate assistance. I would like to thank the team for their kindness and knowledge.

Thomas

I have been using this bike for the past 6 months and I am extremely satisfied with it. It helps me climb steep slopes very easily due to its high torque. The equipment is top-notch and the 26" size is perfect for my size. The bike is very comfortable. I highly recommend it.

Antoine
