

## Embrace digital. The all-in-one attraction management software and mobile app for **holiday parks**.

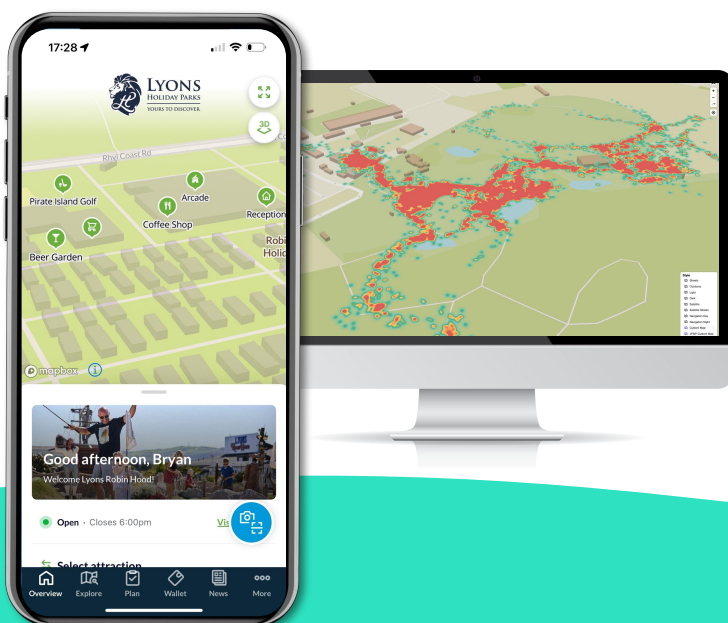

Request A Demo

Technology and innovation is changing how we experience the world around us from visitor attractions to entertainment, sports, hospitality and retail.

### We help you embrace digital.

- Pay monthly, digital solution
- No technical skills required
- Quick to deploy with minimal resources
- Increased revenue potential
- Single app - multi site capability
- Feature rich, highly customisable mobile app
- Integrates with booking and ticketing software
- Inbuilt marketing and guest insights

### Helping you to enhance the guest experience, gain valuable insights & drive revenues.

#### Just some of the benefits:

- **Enhance the experience**  
Enhance your holiday park experience with more interactive content. Create trails, bookable activities and fun experiences.
- **Gain valuable insights**  
Gain valuable insights into guest behaviour as you monitor dwell time and interactions across your site. Use this data to improve operations and deliver a more personalised and interactive holiday park experience.
- **Drive revenues**  
Use insights to deliver highly targeted messaging and notifications to help drive revenues. From guest and membership offers to seasonal events, activities, experiences and discounts, communicate with your guests live as they move around on-site.
- **Go paperless and become more sustainable**  
Embrace digital with your maps, guides and on-site signage whilst improving your guest experience.

# The all-in-one, attraction management software & highly customisable mobile app for **holiday parks.**

## Just some of our key features:

### Activities, Ticketing & Memberships

Reduce entry congestion with tickets & memberships displayed in-app.

### Interactive Maps, Trails & Wayfinding

Help guests find their way, by navigating to places of interest or facilities.

### Multi-site Capability

Single app, multi-site capability to include more than one park on the app.

### Trigger Activations

Use the powerful trigger system combined with beacons and QR codes.

### Activity Planning with Reminders

Activity times with bookings, reminders, navigation & feedback tools.

### Interactive Content

Create interactive & engaging content using text imagery, audio and video.

### Messaging & Notifications

Segment guests to send personalised messages, offers & notifications.

### Guest Bookings

Give guests digital in-app access to their booking details and information.

### Guest Insights

Gain valuable insights into guest behaviour, to help plan operations.

### Capture Their Day

Create fun interactions using customisable photo frames to share on social.

### Order & Pay Functionality

Use our order and pay integrations to place food orders through the app.

### Promote Sustainability

Using a mobile app helps improve sustainability, and reduce paper.

## Stevie Sheppard, Park Director

"What attracted us to the n-gage.io solution was the highly customisable nature of the base app, and the feature rich operator platform behind the scenes that powers it. While the app itself has so many engaging features, it's also what we can do with the platform to understand more about our guests' on-site behaviour that's been truly eye opening."

For more information about how n-gage.io can help your holiday park transform the guest experience, request a free demo of the all-in-one attraction management software & mobile app at <https://www.n-gage.io/request-a-demo>
