e-service Thomas 5000e

Brand new, enhanced, custom electronic PC based main processor

Fitted with the latest and highly secure banknote validators.

Never miss a transaction by fitting a contactless payment device. Options available from Nayax, Payter and others

Built using the world's most popular coin hopper, Universal™ Hopper by CPI with an extended capacity of up to 22,000 coins, plus a secure payout of up to 3 coins per second & auto-reverse to provide proactive prevention of jams with the latest CCTalk Hoppers

Flexible payout options—coins into a coin cup or directly into the paybowl

Secure cabinet fitted with a virtually pick-proof detainer disc system. Top door fitted with a 4 hook points. Plus a secure storage compartment underneath.

Cabinets can be supplied in a variety of different colours to match your venue

Larger LCD Display for a better customer experience & onscreen reporting

Upgraded with highly efficient SMD LED's to reduce power consumption and a longer lamp life

On screen audit & optional handheld printer available
