GAME BOXES:

Hyper SHOCK

A PERFECT OPPORTUNITY FOR PLAYERS TO GET THEIR OWN BACK ON THE PARENTS IN THE GAME COMPLETELY HYGIENIC - EACH PLAYER GETS THEIR OWN SHOCK PAD

Hyper Shock, the shockingly exciting & totally immersive new game-play accessory.

Hyper Shock is the perfect way to take your laser tag venue to the next level, adding that missing element of fear into every player's mission.

Every participating player is supplied with their own, reusable, hygienic electric shock pads, which are simply plugged into the head sensor. The reusable electric shock pads are fixed to the player's back, ready for action.

Each direct hit to the player results in an electric shock direct to the player's body, which although safe, is pretty 'shocking'!!!

As with all Combat Laser equipment, Hyper Shock is simply a plug in a play option. There's no set up required, no down time - just a great new upsell and revenue creator.

Whether it's team building, stag and hen parties, or just kids who want to get their own back on their parents... Hyper Shock is the ultimate way to get adults involved and enjoying laser tag.

Zero contamination!

Hyper Shock Pads are supplied in pairs to each player, which they own and can then use next time they play - ensuring the safest and most hygienic environment.

BREACH

UNLOCK A WORLD OF POSSIBILITIES

SHOOT THE LOCK OFF TO OPEN THE DOOR

WHATEVER YOU HAVE INSIDE IS COMPLETELY UP TO YOUR IMAGINATION!

BATTLE STATZ

THE COMPETITION DOESN'T STOP WHEN THE GAME IS OVER.

Players can now take home their stats and game rankings. Membership plans are unnecessary when your players are raring to return and work their way up from Private to Major.
