✓ CARE

Our Focus on Sustainability

Gailarde is committed to all elements of sustainability and corporate social responsibility. We know this is of key importance to our customers and this year we will launch our updated sustainability programme: 'For Future Generations'.

This programme will accelerate the significant progress we have already made on our environmental and social impact journey.

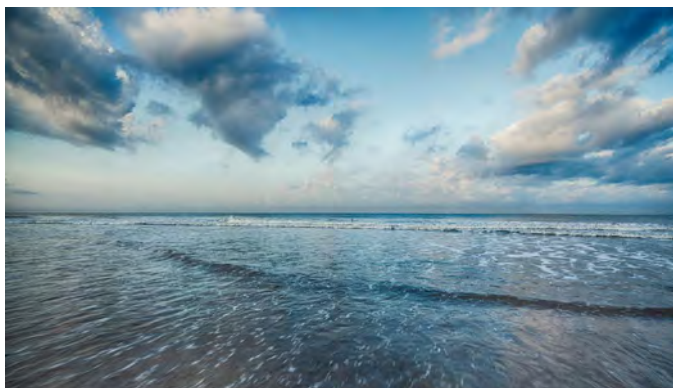

We are proud to have been awarded Gold by EcoVadis, the world's largest and most trusted provider of business environmental ratings. This put us in the top 5% of businesses for our sustainability practices and efforts.

Our Green Achievements

- ✓ Awarded gold standard rating by EcoVadis for sustainability practices for the third year running.
- ✓ Reduced the usage of plastic packaging by 80% since 2019.
- ✓ Sustainable packaging options such as recyclable card and wrapping paper.
- ✓ Expanding our "Made with Conscious Care" collection - our eco friendly selection of bedding & towelling.
- ✓ On track to eliminate all single use non-recyclable plastic on our core product lines by the end of 2025.
- ✓ Swapping our fleet cars from petrol to hybrid/electric and switching to a paperless office.
- ✓ Reducing our carbon emissions by consolidating our UK warehousing from 5 sites to 1 central location.

Our Environment and Social Responsibility

Corporate Social Responsibility

Gailarde is a family business to the core, we're passionate about objectives including taking extra measures to minimise environmental externalities. We are proud to say we not only meet, but aim to exceed any relevant legislation, and if legislation does not exist in a particular area, we make sure that we carry out best practices anyway. We are committed to ensuring that everything we do in business is carried out as ethically as possible.

Our Sustainable Products and Supply Chain

We are pleased to offer a range of sustainable products, "Made with Conscious Care" (marked with our green care icon in this brochure). This range includes the best-selling Eco Duvet and Pillows filled with 100% recycled plastic bottles. Our high-end cotton products are completely traceable. We encourage better farming practices, developing environmental awareness whilst helping to cultivate better cotton yields. All of our organic cotton products

are GOTS (The Global Organic Textile Standard) certified. We ensure our suppliers' factories are accredited to internationally recognised standards with a senior Gailarde representative visiting and auditing the site.

Packaging, Handling & Deliveries

Gailarde has worked incredibly hard to reduce our usage of single-use plastic by 80% since 2019. Our products are packaged with sustainability at the forefront of every decision, this will not only help reduce emissions of gases into our atmosphere, but it also means we won't keep adding unnecessary waste to landfill. We ensure main distributors align with our environmental values and demonstrate the ability to efficiently deliver our goods using innovative collection systems and efficient vehicles.

Our Carbon Footprint and Disposal of Goods

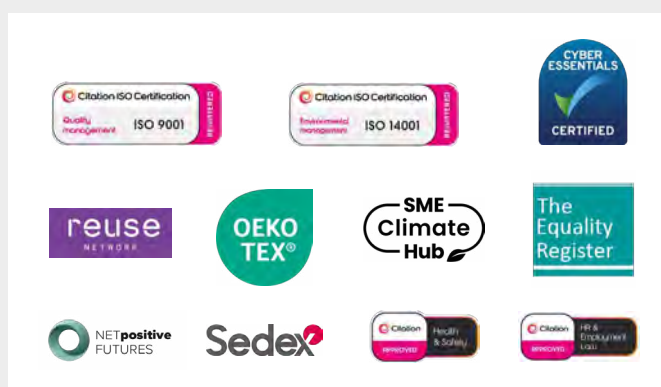

Our responsibility for the environment doesn't stop once we've delivered the goods. Disposing of our products at the end of their life in a way that limits the impact on the environment can be a great challenge to our clients and we are proud to offer a fully managed sustainable collection service that ensures there is no landfill and no carbon footprint. We use over 600 recycling locations across the country meaning reduced mileage and compliance documents are supplied for traceability.

For more information on any of our sustainability or corporate social responsibility policies, please contact us or visit the Social Responsibility Page on our website.

Accreditations and Partnerships

Gailarde is accredited and partnered with some of the most innovative sustainability experts in the industry.

We fully endorse The Sustainable Development Goals (SDGs) established by the UN to guide our principles and actions to achieve a better and more sustainable future for all. As a member of the SME Climate Hub, we have made a public commitment to reduce our carbon emissions in line with the UN Race to Zero Campaign.

✓ Did you know?

Gailarde can help you upgrade your beds; we supply king size pillows and we can even brand your pillow care labels. Contact our expert team for more details on our bespoke offering.

Pillows

One thing we've learned from being in the textiles business for over 40 years is that you should never underestimate the importance of a good pillow.

Our pillows leave such a lasting impression; guests of many hotels, regularly track us down to order pillows which have given them "the best night's sleep."

Here's our guide to choosing the best options for your guests, whatever your budget or level of accommodation.

Natural or Synthetic

Firstly, consider the two types of fillings to choose from: natural or synthetic.

Natural pillows consist of down and feather, cleansed and purified during the manufacturing process. The percentage increase of feather will give the pillow more stability whilst the down will add luxury and softness to the pillow.

Our range of synthetic pillows offer a multitude of options when it comes to fill, cover and weight. Fillings include conjugate, cluster, micro and ball fibre. Pillow cover options range from cost-effective polycotton through to 100% cotton luxury 233 thread count.

Investment Considerations

Aesthetics - It's important that a pillow retains its loft when plumped and looks inviting when your beds are made up.

Longevity - When buying for your establishment, you want your pillows to last. Investing in a quality product will prevent you from purchasing new pillows sooner than required.

Comfort - According to recent studies, guests value a comfortable room most highly with service being the next most important factor. It appears that guests who write reviews are most focused on their immediate surroundings during their stay and on the service they experience. So, if you're going to invest in any part of your establishment, comfort should be your number one priority. Bear in mind, pillows are a personal preference and a perfect solution would be to offer your guests soft and firm pillow alternatives.

Mattresses

Using traditional techniques, Gailarde, partnered with our master craftsmen, have produced a quality range of mattresses using natural fabrics. Our bed products are manufactured to comply with the British Standard BS7177 (2008) to ignition Source 5. We can provide a wide range of qualities, from pocket spring and open coil to memory foams and fibres.

Mattress Recycling

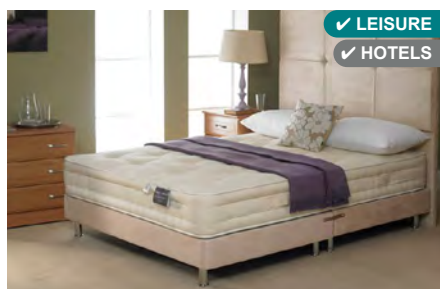

Gailarde can offer a mattress removal service if required (for an additional fee). These are recycled and not sent to landfill. Mattresses are stripped and sorted into components and all materials are recycled and re-used by bed manufacturers and other industries wherever possible.
