TIMELESS GAMES BECOME NEXT-LEVEL EXPERIENCES.

WHAT ARE LASER CLAYS?

Laser Clays recreate the excitement of traditional clay pigeon shooting using safe, infrared laser technology. Players fire authentic, deactivated shotguns that register hits with light and sound effects, creating a realistic and fully interactive experience.

HOW IT WORKS

Up to five players compete at once
Each gun fires an invisible laser beam toward reusable clay targets
A digital scoreboard instantly tracks every shot and displays scores in real time
Authentic shotgun sound effects simulate a live shoot

WHY IT WORKS ANYWHERE

100% safe, no cartridges or debris
Operates in both daylight and low light conditions
The full kit can be loaded into an estate car or small van (155x7 x75cm flight case plus clay trap (approx. 60x60x30 cm)
Eco-friendly and completely reusable, ideal for sustainable events

OUR REACH

SLR Games supplies and delivers Laser Clay systems across the UK and worldwide

Our kits are used by event companies, corporate entertainment teams, and private venues from Europe to the Middle East and beyond

We design, build, and support every system in-house, ensuring consistent quality and reliability wherever you operate

WHY CHOOSE SLR GAMES

We have over 20 years' of event management enabling us to transfer our skills into manufacturing user-friendly systems for the hire market.

FLEXIBLE, SCALABLE, AND EASY TO USE

OUR LASER CLAY SYSTEMS ARE QUICK TO SET UP AND FIT SEAMLESSLY INTO ANY EVENT FORMAT, SCALE, OR LOCATION.

Hotels & Hospitality
