

Outdoor Living.

Outdoor Living.

For over 25 years, Outdoor Living has been the trusted expert in transforming gardens and commercial spaces into exceptional environments for relaxation, wellness, and entertainment. This depth of experience means we understand precisely what makes an outdoor product exceptional—not just in its aesthetic, but in its durability, functionality, and long-term value. It's why our collection is not just vast, it's meticulously curated. We have sourced and vetted a premium selection of products, from industry-leading hot tubs and swim spas to custom-built saunas, elegant pergolas, and durable outdoor furniture.

Our approach is built around you. We recognise that every project is unique, whether you are enhancing your family home or undertaking a large-scale commercial development. Our in-house team of designers, technical advisors, and installation specialists are here to provide guidance on which you can depend. For homeowners, this means personal, practical advice to find the perfect addition to your garden.

Our goal is not simply to make a sale, but to create a solution that suits your space, lifestyle, and budget. This impartial guidance ensures you make a confident and informed decision.

For our commercial partners, we offer a complete turnkey solution that manages every detail from concept to completion. This comprehensive service includes initial consultation and site assessment, detailed planning and design, professional installation and final commissioning. We have a proven track record of delivering complex projects for holiday parks, hotels, and wellness centres, ensuring every installation meets rigorous commercial standards for safety, performance, and reliability.

As a proud member of the Buy It Direct Group, alongside respected brands like Appliances Direct and Better Bathrooms, we combine our specialist knowledge with the value and reliability of a leading retail network. This partnership gives us significant buying power, allowing us to offer premium products at the best possible prices. It also means you benefit from a robust delivery network and the financial stability of a major retail group, giving you complete peace of mind in your investment. This stability ensures that your warranties are secure and that we will be here to support you for the lifetime of your product.

Our commitment to you does not end at the point of purchase. We believe in building lasting relationships, which is why our dedicated support team is always on hand to offer aftercare advice and warranty assistance. At Outdoor Living, we don't just sell products, we help you invest in a lifestyle, creating outdoor spaces that deliver value and enjoyment for years to come.
