

— Luxury Lodges —

Manufacturing excellence for over 60 years

Omar Group is the UK's leading manufacturer of residential park homes and lodges, offering an extensive choice of styles to suit a range of tastes and budgets.

We offer a wide range of floor plans and décor styles so you can choose the perfect look and layout. We also offer built-to-order bespoke options to suit your individual requirements – such as catering for additional needs.

As no two parks are the same, all our lodges are available in a choice of exterior colours and finishings. A variety of window colours, soffits and rainwater goods are also available.

All our lodges are built to residential standard BS 3632, meaning they are suitable for use throughout the year and are built to last at least 50 years.

A Guide to Buying

Tempted by the idea of owning your very own luxury lodge - a beautiful retreat away from the hustle and bustle of everyday life? Deciding to buy, although exciting, can be daunting... where do you start, how does it work? Omar can provide all the help and guidance along the way to help make your dream a reality.

Buying a new luxury lodge is a two-stage process which includes:

1

Finding a park

2

Choosing and specifying your lodge

When buying a new luxury lodge, you purchase it through the park, but you would specify the home with us (unless you're buying a show home already on the park).

Finding a park

The first step is to find a park. We supply parks across the UK and can help you with this. Either call us on 01842 810 673 or email info@omar.co.uk and let us know what you're looking for, or visit the Park Finder on our website.

It's a good idea to visit parks you're interested in so you can get a feel for the park and area and see if it's right for you.

Scan the QR code to visit our Park Finder

Choosing and specifying your home

Buying a luxury lodge offers a huge amount of flexibility - we will help you to choose and specify your lodge and tailor it to your needs.

We have a wide range of styles, sizes and layouts and all our lodges can be adapted to your individual taste and needs, both inside and out. You may want a utility room, walk-in-wardrobe or study, or you may have particular style preferences, all these things can be included.

When you have specified your lodge, the park will then be able to give you a turnkey price based on your choices.

Scan the QR code to find out what homes are on our showgrounds and to book an appointment.

Resources

Omar is a member of the NCC and the BH&HPA, both of which have excellent information and resources if you're looking to buy on a park. bhHPA.org.uk thencC.org.uk

Accessible Living Solutions

At Omar it's our mission to provide you with your perfect home, whatever your needs. On this basis, if you have accessible living needs, we are ready and able to bespoke design any model in our range to suit your individual living requirements. Please speak to a member of our team to find out more.

Support and Guidance

Buying a new home is a big decision – we will be there to support and guide you throughout your journey to make the process as stress-free as possible.

Buying Top Tips

- Work out your budget
- Have an idea of what you're looking for and write it down
- Look at a number of parks and arrange viewings
- Speak to other owners on any parks you're interested in
- Find out about the local area of the park
- Check the park's Site License and the licence period for the home
- Ask about site fees - are fees capped or reviewed?
- Find out who owns the park and how it is managed
- Ask to see the park's Park Rules
- Ask if rentals or sub-letting are allowed
- Ask how sales are handled and what fees apply if you decide to sell
- Ask if the home can be gifted or passed on to a family member
- Make sure you read the small print
- Get independent legal advice

Remember – you can only live in a home full time if the park has a full residential license.

Luxury Lodge decking

If you're looking to make the most of your outdoor space, or want to extend your living space outside in the warmer months, decking by UK Sundecks (part of Omar Group), might be the perfect solution.

UK SUNDECKS

UK Sundecks are experts in providing decking solutions to complement Omar's range of luxury lodges, from decking and skirting, access solutions, picket and balustrade fencing, lighting and more, they've got your outside space requirements covered - the perfect finishing touch to any home!

Key features include:

- Bespoke decking design service
- Available in a wide range of colours and finishes
- New to the range, gas bottle storage covers
- Range includes steps, skirting and access ramps
- Eco-friendly – made from 86% recycled uPVC
- Low maintenance - no sanding, painting or staining required
- Mould and algae resistant
- Wood free - will not rust, rot or splinter

- Anti-slip, tested to BS 7976
- Strong and durable deck board, 35mm thick
- Fully sculptured balustrade system
- Decking load tested to 521kg/m²
- Galvanised steel sub-frame for added strength
- Galvanised steel reinforcing in the posts and handrails
- Fully enclosed steps, and pickets in the step handrails
- No visible fixings or fiddly clips
- Wear resistance tested to BS EN660-2 and BS EN 428
- Toughened safety glass manufactured to BS EN 12150
- 100% lead free

Galvanised steel sub-frame for strength

Decking by UK Sundecks is built upon a galvanised steel sub-frame for added strength. The low maintenance, anti-slip uPVC decks supplied, not only extend your living space outside, but also provide the perfect environment to sit back and relax.

Deck Designs

UK Sundecks offer a large range of decking solutions, tailor-made to suit the plot and lodge. Their experienced design team are available to discuss your requirements and advise the options available. Popular deck designs include:

Front deck

Stepped-access platform

Wrap-around decking

Sustainable home solutions

If you're looking to reduce your carbon footprint, we offer a range of sustainable lodge solutions at design stage, these include:

Smart heating controls & smart lighting and power These systems can reduce energy consumption by up to 40% by intelligently controlling your homes heating and lighting to avoid waste.

Triple glazing Triple glazing ensures that a traditional weak point keeps energy loss to a minimum. Not only does it reduce heat loss through the windows, it can also reduce noise pollution.

Car charging points

Solar photovoltaic panels & battery storage These systems collect and store energy. When installed with an ASHP, your heating system could utilise up to 100% of solar power.

Air source heat pumps (ASHP)

Various sustainable heating systems are available, including air source heat pumps (full electric systems), hybrid systems (gas combi with ASHP) and integrated heating and cooling systems.

Mechanical ventilation heat recovery systems (MVHR)

MVHR filters fresh air into the home and recovers heat that would have otherwise been lost, thereby helping to reduce the carbon footprint.

Waste water heat recovery systems (WWHRS)

WWHRS collects energy from your waste water and uses it to pre-heat water entering the hot water storage. WWHRS have an efficiency of up to 67%.

Low flow taps and shower heads

These devices limit the flow of water and can give up to 70% water savings at taps and showers.

Wood burning stoves

These Scandinavian style stoves improve the energy efficiency of your home whilst bringing extra comfort.

If you're interested in incorporating sustainable solutions, it will be necessary for us to design your lodge to suit these options and we will work in conjunction with you and/or your park operator to determine the total cost.

Build standards

All Omar lodges and park homes are built to comply with BS 3632, the residential standard for park homes. All homes built to this standard are designed to last and are energy efficient.

Warranty Our Warranty Scheme, alongside a commitment to quality, detailed quality checks and focused customer care, means we can offer peace of mind with excellent cover and protection.

Structural Our lodges come with a 2-year structural warranty and a further 8 years covered by a third-party insurance company GoldShield.*

Workmanship Our lodges come with 12-month parts and labour guarantee on component failure, workmanship and other new-build faults that may need rectifying.

Damaged & Missing Items Damaged and missing items reported within 14 days of occupation will be repaired or replaced.

uPVC Windows Our lodges come with a 10-year warranty on uPVC window frames, a 5-year warranty on blown double glazed units and a 12-month warranty on handles, hinges and letterboxes.

Roof Tiles Our roof tiles are guaranteed for 50 years.

Appliances All appliances and boilers supplied are covered by the manufacturer's warranty for up to 2 years. Appliances must be registered with the appliance manufacturer upon occupation.

When it comes to guaranteeing our lodges, our word is our bond. If your lodge is under warranty and you need us, we will be there. Should we need to carry out any work in your lodge, we will take all reasonable steps to minimise disruption and inconvenience to you.

To ensure we can offer you the best aftercare, you will need to register your lodge within 7 days of occupation.

*Please note: To enjoy the GoldShield warranty, your chosen park will need to register the lodge within 90 days of dispatch with GoldShield and there are also certain maintenance requirements placed upon the homeowner to maintain the warranty.
