

Property Management Services

Supporting smarter property management for holiday parks

A unified platform that enhances the value of every smart device installed across your park.

Holiday Parks face unique operational challenges, from managing seasonal occupancy to maintaining comfort and protecting assets across multiple cabins and facilities. Resideo Property Management Services help property and facility managers streamline operations by integrating thermostats, leak detectors, and other connected sensors into a single, easy-to-use dashboard.

Benefits for Holiday Park Operators

Thermostat Management

- Automatically adjusts heating based on cabin occupancy status
- Integrates with booking systems to reduce manual updates
- Provides alerts when heating or cooling systems are not performing as expected

Water Leak Detection

- Identifies leaks early to help prevent damage and disruption
- Supports automated shut-off where appropriate

Multi-Site Oversight

- Offers remote visibility across all cabins and devices from one platform
- Useful for maintenance and energy teams managing multiple locations

Operational Efficiency

- Reduces the need for manual checks
- Enables quicker response to issues through timely dashboard and app alerts

System Integration

- Connects with leading Property Management Systems via API
- Ensures alerts and updates appear within existing staff workflows

Scalable Approach

- Begins with proven thermostat technology
- Future developments can be tailored collaboratively to meet specific site needs
