

Standard Octanorm Shell Scheme

The Standard Octanorm Shell Scheme by Creative Live provides a fabulous finish, clean lines and the opportunity to upgrade your stand in cost effective ways.

Our Standard Shell Scheme is a modular stand system, constructed using poles and panels and can be built to any size and configuration. The shell scheme will include walls, fascia, nameboard, slate grey carpet, one 500w 13amp socket and one lighting track with 3x led track spotlights on

Additional services can be ordered through the optional forms with Creative Live.

Please be aware that the system **has a minimal ceiling grid**. We will place limited ceiling beams on stands which lighting can be attached to in the normal way but advise that you contact us with exact requirements if placement is imperative to your display.

The specification of the shell scheme is as shown

Fascia measures 300mm deep

All posts measure 40mm x 40mm

If you wish to attach materials to your shell scheme such as posters, graphics and / or material we suggest the use of double-sided Velcro or double-sided sticky pads. These options do not damage the panels of the stand. Please do not stick anything to the metal work. **Any damage incurred will be charged for.**

If you are unsure of weight limits or have any other questions regarding the Shell Scheme or any of our other services please do not hesitate to get in touch.
