Rural Use Cases

Rhanbarth Arloesi Di-wifr Uwch

DIF North Harper Adams University

- Biodiversity Net Gain Birdsong and Insect detectors
- "Digital Nose" Airbourne Spore Monitors
- Soil Sensors Carbon Capture

Rural Roadshow

- Mobile Connectivity Unit
- Engaging Demonstration of new technology
- Followed up with
- Digital Health Checks and
- Invites to demonstration days

DIF South Hartpury University

- Security and Protection
- **Environmental Monitoring**
- Electric Metering and Voltage Monitoring
- Livestock Tracking
- Drone-based Crop Monitoring

Ammonia Monitoring

Monitoring and Benchmarking

The River Severn Partnership has been funded by Government as part of the "5G Innovation Regions" initiative

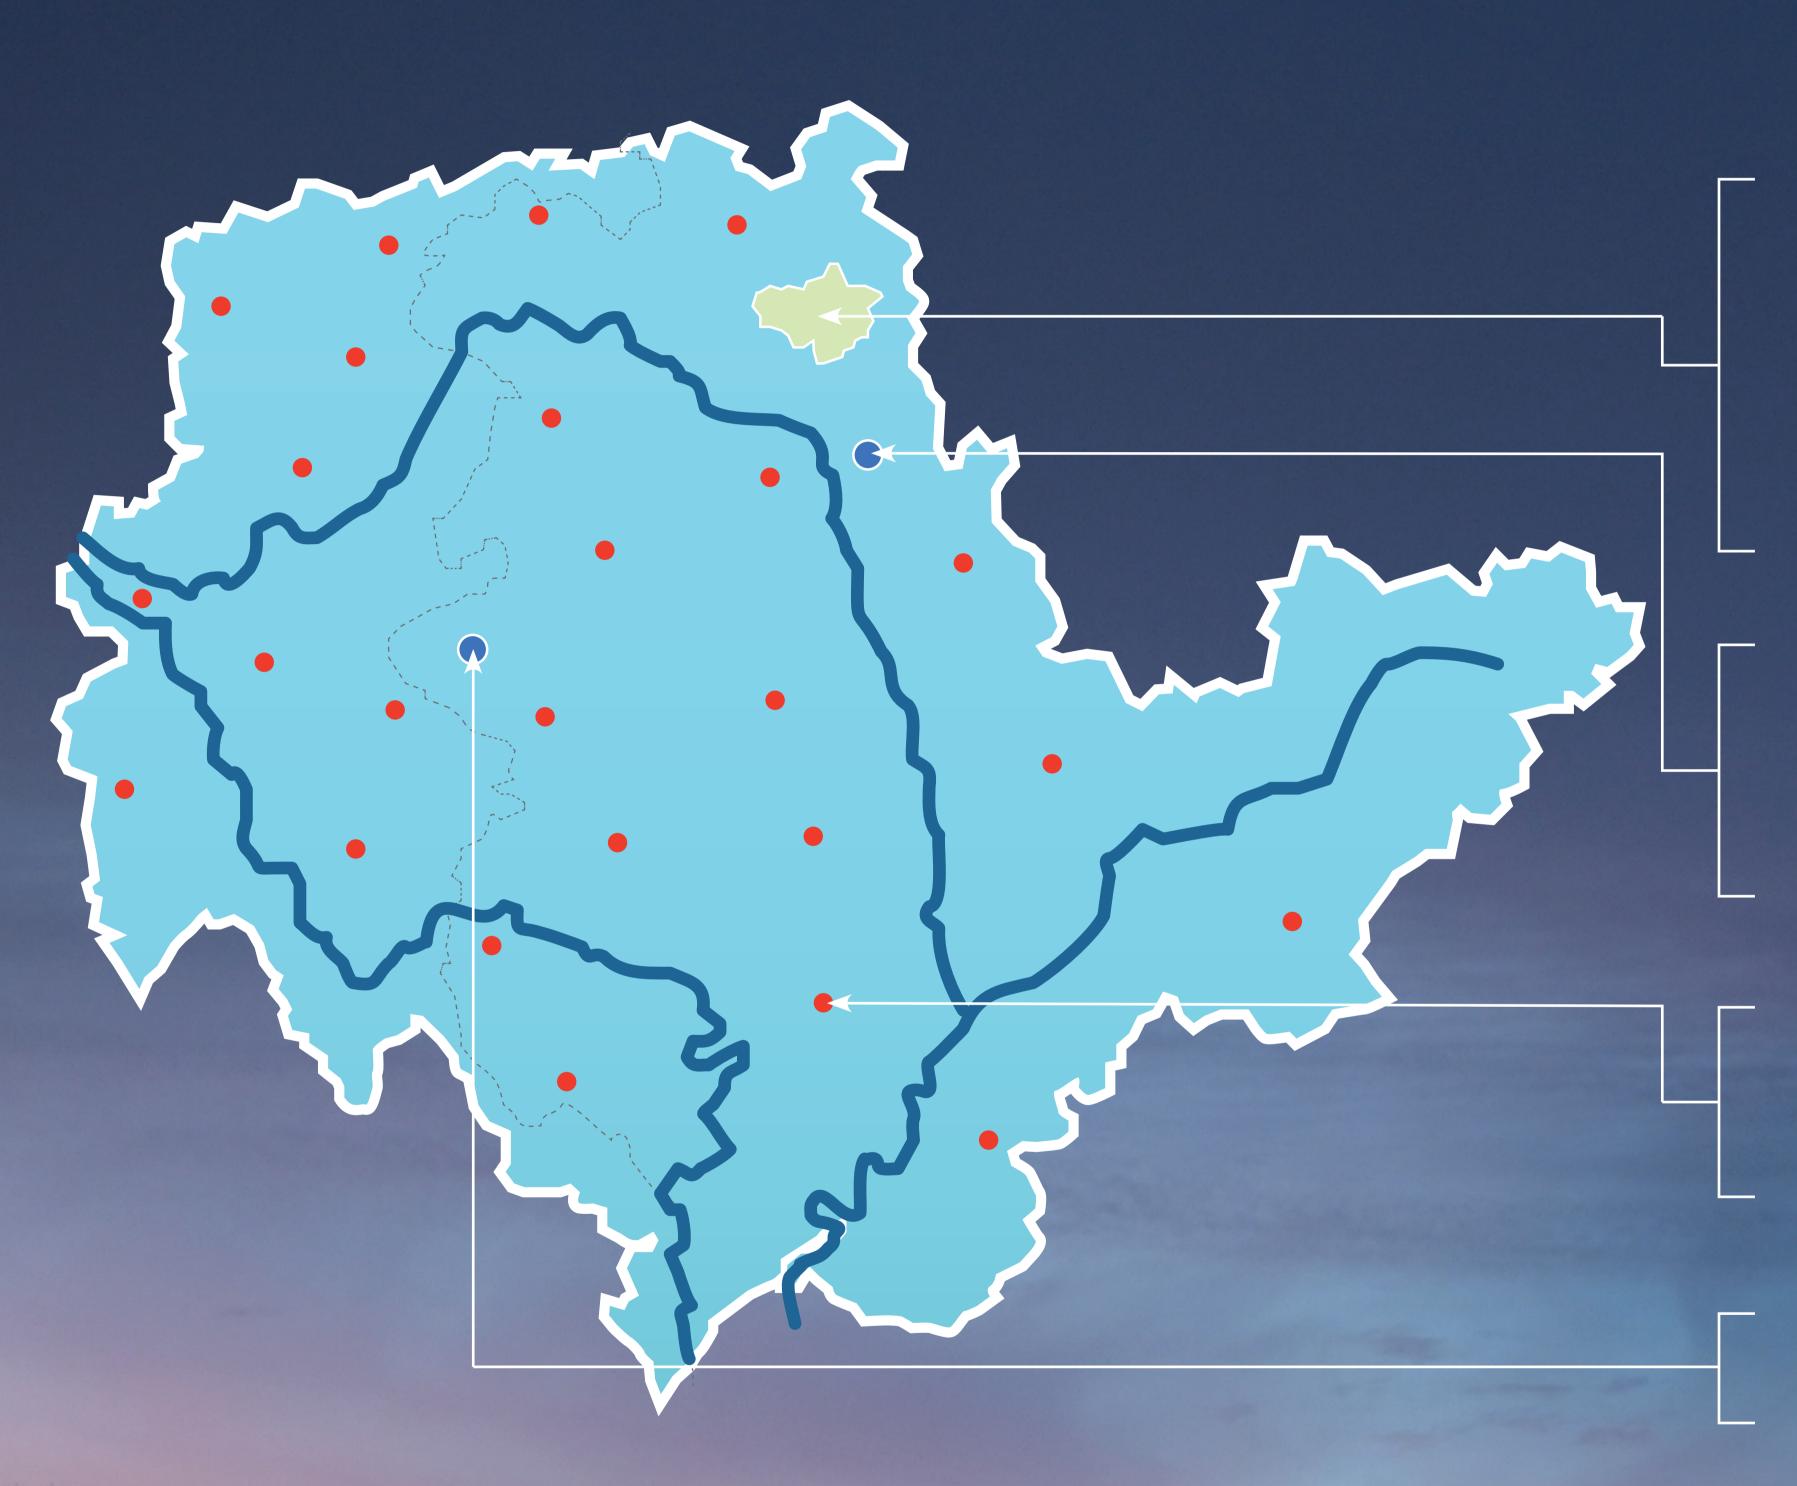

Water Use Cases

Rhanbarth Arloesi Di-wifr Uwch

Sub Catchment Smart Abstraction

- Strine IDB
- Cranfield University
- 10 local landowners
- Wireless sensors providing real time guidance of when to "scalp" & when to "spill"
- Significant potential for Water Resource & Flood Management

Precision Irrigation

- PDM produce
- Cranfield University
- Real-time irrigation using soil moisture sensors
- Aiming to boost yield by 10%

Network as a Sensor

- Low Atmosphere Virtual Rain Gauges
- 170 Locations
- Adding to radar and surface rainfall data

Clun Water Quality

Longitudinal remote monitoring of phosphate & silt levels
