

GREEN ENERGY FINANCE AND LEASING

AngloScottish
ASSET FINANCE

ABOUT

We're an experienced finance broker, offering the broadest range of capital financing solutions for businesses of all sizes and statuses.

We have a portfolio of funder relationships that is second to none, which allows us to search the marketplace for the most suitable funding solution at the cheapest available rate.

We pride ourselves on our in-house knowledge of asset finance solutions, and our nationwide team has decades of experience helping our customers find the right finance deal to suit their needs and requirements.

IMPACT ON
WORKING CAPITAL.”***

GREEN ENERGY FINANCE AND LEASING

Many companies are now beginning to look at cleaner and more sustainable ways of doing business, and we want to help them reach their sustainable goals in an affordable way with bespoke asset finance and leasing.

THE BENEFITS OF LEASING

Leasing can be an effective hedge against technology obsolescence and decreases both technology and financial risks. Leasing will allow your company to access the most up-to-date equipment and technology and renew them with each new leasing contract without the worry of selling the asset on.

- Avoid upfront costs
- When leasing assets you will not be required to pay the full cost of the asset up front, costs are spread over the course of the agreement allowing you to retain your cash reserves.
- Steady cashflow and easy budgeting
- Rentals are fixed for the duration of the contract, allowing budgets and cash flow projections to be managed with ease.
- Hedge against obsolescence

TAX BENEFITS

The cost of renting or leasing an asset may be deductible as a business expense so this can help reduce your overall tax bill.

EXAMPLES OF RENEWABLE AND GREEN PROJECTS FINANCED:

- Biomass plants
- Solar panels
- On shore wind turbines
- Anaerobic digestion
- Electric vehicles
- EV charging points
- Energy efficient lighting
- Combined heat and power (CHP)
- Air, ground & water source heat pumps

In addition to leasing, Anglo Scottish offers great solutions for businesses to acquire equipment for renewable energy or “green”. This includes:

- Hire Purchase
- Contract Hire
- Commercial Lending

BENEFITS OF GREEN ASSET FINANCE WITH ANGLO SCOTTISH:

NATIONWIDE SUPPORT

Our team of asset finance specialist are based throughout the UK and can offer support to businesses of any size and statuses.

FIRST RATE SERVICE

We have excellent service levels and thousands of happy customers, but don't take our word for it; we're rated 5 out of 5 on Trustpilot.

COMPETITIVE RATES

Thanks to our close relationships with a number of funders, we have access to the lowest rates available.

INDIVIDUALITY

Our finance solutions aren't "one size fits all". We know that everyone's circumstances are different, and we take the time to get to know our customers so that we can tailor our solutions to their exact needs.
