Canary Seed

Earn more with your spring break crops whilst conquering weeds

Canary Seed's sky-high profit margins are born from its dirt-cheap inputs and immense market value. We provide contracts from seed to sale to reflect this and offer a full agronomy package to guide you through the season. Late drilled and extremely competitive, the crop provides ample opportunity for holistic weed control.

High Output v. Low Input = HIGH GROSS MARGIN			
Output	Yield (t/ha)		2.5
	Price (£/t)		550
Gross Output (£/ha)			1375
Variable Costs (£/ha)	Seed		120
	Fertiliser	P & K (50kg/ha of each)	167
		N (50kg/ha)	98
	Spray	Broad Leaf Weeds	55
		Others	30
Total Variable Costs (£/ha)			470
GROSS MARGIN (£/ha)			905

The majority of farmers that grow Canary Seed keep growing year after year.

As Britain seeks to reduce its reliance on foreign imports, join the community of growers feeding our birds.
