

Working with You Towards an Energy Independent, Low Carbon Future

Unlocking the power of renewable energy

About Your Eco

Your Eco is a Certified B Corp™ company delivering transformative solar PV and battery storage systems for the UK's most trusted organisations. With over 30MW installed across seven countries, we combine technical excellence with military precision to create sustainable energy solutions that balance performance, aesthetics, and ethical sourcing.

OUR PROCESS

How We Manage Our Projects

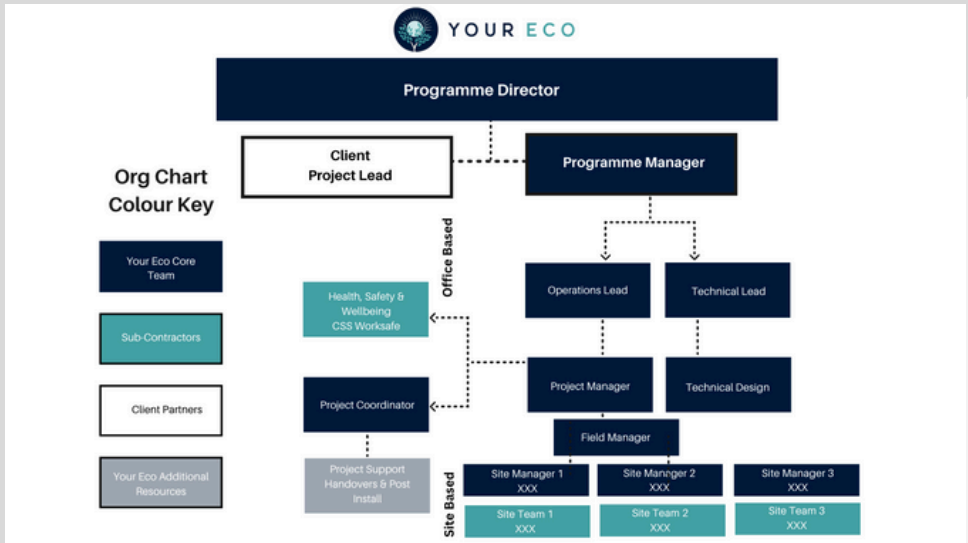

Your Eco stands at the forefront of the UK's renewable energy sector, delivering enterprise-scale solar PV and battery storage solutions for organisations committed to meaningful sustainability and strategic energy management.

YOUR ECO

Your Eco's Team

Safety

Planning

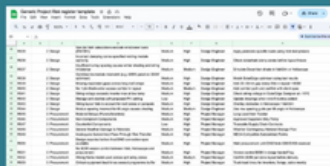

- Risk assessment
- Roof suitability
- Product choice

System Design

- Fire barriers
- Cable management
- Inverter placement
- Limit areas of failure

Installation

- Adhere to standards and regulation; MSC & RC62
- Follow instruction for correct installation of all components
- Testing and inspection; insulation resistance, voltage, physical inspection

YOUR ECO

10MW

In partnership with YTL Construction installing on 6,500 new energy-efficient homes with solar PV and battery storage including arena, pbsa and train stations.

Housing Development Brabazon Bristol

YOUR ECO

Brabazon

344kW

Retrofitting the National Trust's Heelis HQ solar system, expanding it from 60kWp to 344kWp with a sustainable, behind-the-meter design using recycled components.
