KEENAN Guard

Extended Warranty Plans

For added peace of mind

While KEENAN machines are known for their robust build quality; we recognise the high volume of work our diet feeders can face, particularly during the busy winter-feeding season. We also understand the inconvenience a machine being out of action can cause.

The KEENAN Guard extended warranty plans are available for new and used trailed vertical auger mixers and self-propelled machines, and are designed to give you added peace of mind after your base warranty has expired.

Plan for the unexpected

Major component failures can be costly, inconvenient and disruptive. With zero excess, our flexible warranty plans enable you to forecast and manage costs, ensure reliability and improve the resale value of your machine.

Peace of mind

Flexible options

Fixed cost of ownership

Improved resale value

KEENAN Guard extended warranty plans

Select your preferred plan and contract term (up to 5 years or 6,000 hours), to suit your machine and business requirements. A KEENAN Guard warranty plan can be easily built into most finance packages.

ZERO EXCESS

Power

Reliability made simple

Reduce fuel consumption and ensure a consistent and high-quality mix with a KEENAN service contract. Tailored to your farm's requirements and the age and model of your machine; our service contracts offer peace of mind, value for money and the ability to budget and plan maintenance and associated costs. Using only genuine KEENAN parts, one of our accredited service engineers will service your machine in accordance with an extensive mechanical and safety check protocol.

Service contracts from £150 per visit

*Terms apply. Excludes VAT, parts and mileage. Applies to trailed models only. Please ask about service contracts for self-propelled models.

General exclusions and conditions

Extended warranty coverage is dependent on a machine being maintained in accordance with manufacturer recommendations, using genuine KEENAN parts and having a full service history. Your KEENAN representative will be able to discuss policy exclusions and conditions in more detail and provide you with full policy documentation to help you select the most appropriate level of warranty cover for your business.

KEENAN Accredited Service

No one knows more about your machine than our skilled KEENAN service engineers. Providing 24-hour, nationwide back up and support 365 days a year, our highly trained service engineers will ensure that any machine downtime is minimised, reducing disruption to your farm.

24/7/365 service back-up
