Who is Lantra Awards?

Here at Lantra Awards we develop and certify specialist training and qualifications for land-based and environmental industries. We're what's known as an awarding organisation.

We specialise in a wide range of areas including forestry, horticulture, agriculture, animals, machinery, highways and much more besides.

Our nationally recognised courses and first-class training materials are developed by industry experts who know their subject inside out. So, whatever training you choose, you can be sure you'll be prepared for the real life work you do.

We're regulated by Ofqual, SQA and Qualification Wales and are nationally recognised by industry.

Our courses include 'training only' and 'training with assessment' options and are packed with practical skills and technical content to help you develop and succeed in your career. We also offer e-learning to complement our face-to-face training options.

All qualifications are fully regulated and have equivalent status to those offered by other awarding bodies such as City & Guilds.

We're in fact the only awarding organisation that can lead you from entry level training right through to expert user qualification – so you can think of Lantra as your One-Stop-Shop.

More than 110,000 people choose to grow their skills with Lantra every year – Why not join them?

Managing Pests

Roads & Construction

Streetworks, traffic management, fencing, highways-electrical, bridges

Leadership & Business Management

Finances, marketing, developing, leading & managing staff

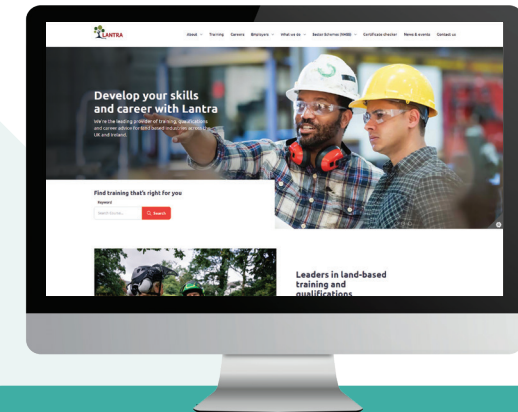

How we work

We work with a nationwide network of approved training Providers to deliver our training, so there'll always be one near to you. To book a course, you simply need to contact one of our Providers who'll make arrangements for you. It couldn't be more straightforward.

One of our approved Instructors, who has been accredited under the Lantra quality assurance standard, will run the course. They're the best in the business and highly skilled at ensuring you get the most out of your training.

Check out our website www.lantra.co.uk to see a full overview of our great value courses and qualifications and, details of the training Providers who can book them for you.

Whether you're embarking on a new career path or just looking to boost your existing skills, Lantra has got it covered.

Check out all our courses, qualifications and career guidance at www.lantra.co.uk
