INTRODUCTION

Protecting people and assets from fire is our business. That's why plant operators across the UK trust our automatic systems to keep their valuable equipment safe and sites running in the event of a fire.

Our customers rely on our systems to keep watch over their plant 24/7, so that any loss of business due to equipment fire is mitigated. With site safety a priority, our A+ rated systems are recognised by plant insurance companies as the leading automatic fire protection solution.

All our team are passionate about fire protection. From customer service through to our installation and service engineers, you will be supported by a team who are dedicated to keeping your people and assets safe.

Protecting People & Assets 24/7

WORLD LEADING FIRE PROTECTION SYSTEMS

Tested to the most rigorous standards, our systems provide outstanding performance and exceptional quality. Backed by our full 3 year parts and labour warranty, you can count on our automatic fire suppression systems to protect your assets first time, every time.

WHY FIREWARD SYSTEMS?

- 24/7, 365 fire protection
- A+ rated, as certified by RI:SE
- SPCR 199 accredited
- ActivFire AS5062:2016
- 10 year lifespan
- 3 year full parts and labour warranty
- No power required

SINGLE AGENT

NO POWER
REQUIRED

FASTER, SMALLER
AND APPROVED

Full hazard protection including motors, engines, hydraulic

Single Agent systems use a Dry Powder extinguishing agent to suppress a fire

- Instant knock down and blanket for fire
- Superior coverage tackles hidden fires
- Suitable for Class A, B, C and electrical fires
- 5 times more effective than liquid agents

ulics, batteries, exhaust manifolds and turbo chargers.

Dual Agent systems use a Dry Powder and Wet Chemical extinguishing agent

- Fast fire knock down and rapid cooling
- Provides protection from reignition
- A+ Rated, P-Mark accredited
- Smaller than Wet Chemical only system

OPTIONAL EXTRAS

1 MANUAL ACTUATOR

- Enables user to manually activate system from outside cab
- Easy to operate
- Multi-actuator install option

2 ENGINE SHUTDOWN

- Fast engine shut down on detection of fire
- Preserves engine
- Stops fuel or oil intensifying fire

BATTERY ISOLATOR WITH MANUAL OVERRIDE 3

- Quickly isolates battery
- Removes electrical charge in event of a fire related electrical fault
- Terminates electrical current to prevent further damage

IN-CAB MONITOR 4

- Gives a visual system check in the cab
- Traffic light colour indicates safety level
- Audible alarm with isolation
- Enables user to manually discharge system

Choose your level of protection, Single Agent or Dual Agent, add on your optional extras and call our customer service team.
