Hose Grip Hard Anodized Aluminium Flow Handle**

Bespoke Engraving & Colour Coding Make your systems easy to understand, change and fix at a glance with instant identification and unlimited colour options. We offer engraving options for application, machine, or you can add directional symbols.

One Piece Construction The K-Grip is a one-piece construction consisting of one Hard Anodized Aluminium tube. This means the K-Grip has fewer leak points than any other hydraulic grip.

The Perfect Grip The K-Grip fits seamlessly into your hand which, in combination with machine grooves, provides a strong, slip-free grip when inserting into machinery.
