

# SIMOL. OUR IDEAS, YOUR SOLUTIONS.

From the 60's our job is to create quality support systems; if today we are the European leader in the design and manufacturing of parking jacks, jockey wheels, stabilizers and landing legs, it is because **we believe that you are never simply customers, and we work to never be simply suppliers.**

SIMOL supports work every day in more than **50** countries worldwide

our ideas, your solutions

## SUPPORTING JACKS FOR THE AGRICULTURAL MACHINERY

*stability in every field*

# MAXIMUM QUALITY IN ANY FIELD AND IN ALL CONDITIONS.

## SIMOL-Q

The first range of supporting jacks in the world that combines the functional, safety and reliability standards established by ISO 12140.

Patented

## SIMOL-W

An innovative **gear shift system with a single horizontal shaft** that allows us to slim down the size of the gearbox.

## GREATER STABILITY TO PREVENT YIELDING OR FALLS

Clearance and vibrations are reduced thanks to the **tubes re-profiling** while the flexural strength is guaranteed by their **greater overlap**. A **uniform travel limit** system prevents the drawbar from dropping.

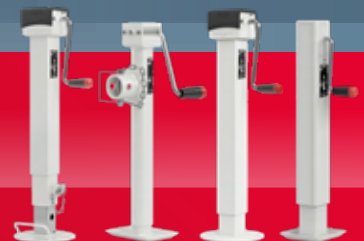

## GRAPHITE GREASE ON MOVING PARTS

Ordinary maintenance is reduced thanks to the treatment with **graphite grease**, particularly suitable for use at extreme ambient temperatures.

## GUARANTEED SAFETY SYSTEMS

To prevent accidental dropping during transfer we have implemented a **safety system on the third section**, especially in consideration of use on hard and rough terrain.

ADD VALUE TO YOUR PRODUCT CHOOSING **SIMOL-Q**  
THE FIRST JACK RANGE COMPLIANT WITH ISO-12140

# WHEEL JACKS

with high resistance to vibration, quick and easy deployment. SIMOL wheel jacks have travelled all over the world for over 60 years.

➤ WITH SEMIAUTOMATED  
TURNOVER AND  
SPRING LOCKING, WITH  
HORIZONTAL HANDLE

Mod. M232 E/FL1

➤ JOCKEY WHEEL WITH  
HORIZONTAL HANDLE

➤ JOCKEY WHEEL WITH  
SIDE HANDLE

# PARKING JACKS

resistant to aggressive operating conditions and minimum maintenance requirements: these are just two of the reasons that make SIMOL jacks the real standard in safety and stability.

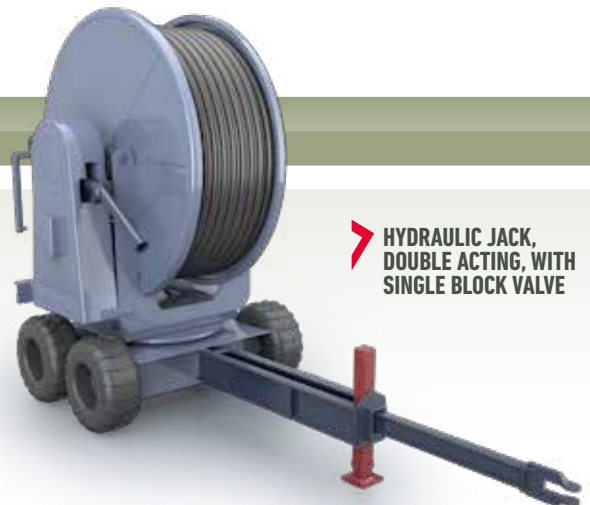

Mod. DG706Z/3SF

WITH SIDE HANDLE  
AND REDUCTION  
GEARS, 2-SPEEDS,  
THREE STAGES

WITH HORIZONTAL  
HANDLE

HYDRAULIC JACK,  
DOUBLE ACTING, WITH  
SINGLE BLOCK VALVE

# LANDING GEARS

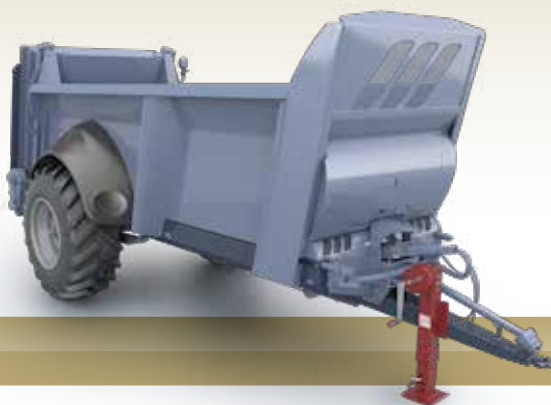

for heavy machines operating on **rough terrain**, where **high load capacity** is required and **maintenance isn't needed frequently**.

**7** FOR TANDEM TRAILERS,  
WITH GEAR BOX,  
DOUBLE SPEED

Mod. KRA 1200 FL/1

**7** THREE STAGES LANDING  
GEARS, 2-SPEEDS
