compressed air solutions

**8 YEAR PERFORMANCE<sup>+</sup>**  
PEACE OF MIND WARRANTY

 **MADE IN  
BRITAIN**

We're a dedicated team of compressed air specialists, passionate about good design, energy efficiency and reliability.

Our philosophy is to focus on exceptional customer care as a foundation for long term relationships with our customers.

**Avelair**  
compressed air solutions

**8 YEAR PERFORMANCE<sup>+</sup>**  

---

**PEACE OF MIND WARRANTY**

Our confidence in our compressor airends is reflected in our 8 year warranty, ensuring long term peace of mind.

Best of all, we design and manufacture the compressors here in the UK, which means quality workmanship and total technical backup whenever you need it.

**8 YEAR PERFORMANCE<sup>+</sup>**  
PEACE OF MIND WARRANTY

# Fixed speed

Ideal for compressed air users who have a fairly constant demand or who require a base load compressor to work alongside a variable speed compressor.

High performance air ends ensure high air output from energy input ensuring cost effective production of air.

Premium IE3 efficiency motors ensure optimum running efficiency and longer service life.

Tried and tested components ensure long term reliability.

The Avelair fixed speed compressors are efficient for constant air demand users. When air demand reduces, the compressor will run offload making it less efficient to run than a variable speed compressor.

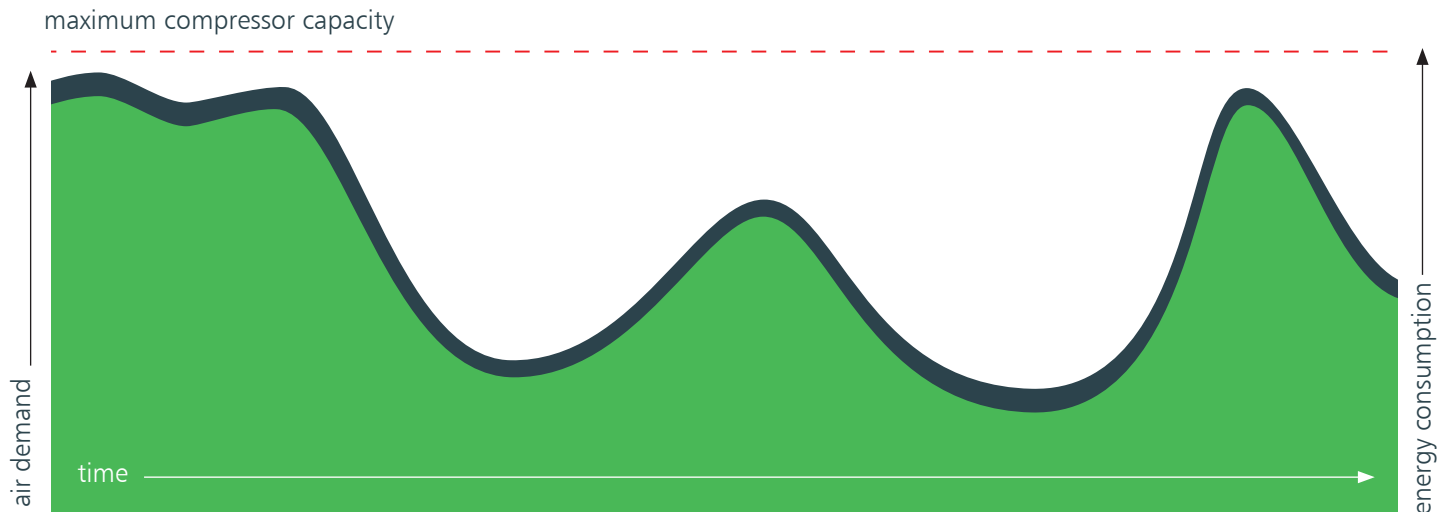

# Variable speed

## The perfect choice for users who have a variable compressed air demand.

The compressors use a high performance inverter to smoothly alter the motor speed in response to demand for air, ensuring optimum energy efficiency.

In many cases this can reduce energy costs by 35% or more, with paybacks from around 6 - 18 months.

The inverter further saves energy by accurately maintaining the system pressure within a 0.2 bar margin, and by soft starting which reduces start up current peaks and wear on the motor and drive system.

The Avelair variable speed compressors mirror the demand for air by altering the motor speed ensuring you only pay for the air you use.

# Fixed speed

model	motor	capacity 8 bar		capacity 10 bar		receiver size optional	built on dryer / filters optional
EVO 2.2	2.2kW	15 cfm	26 m <sup>3</sup> /hr	n/a	n/a	250L	yes

# Typical compressed air system

- 1 A multiple compressor set up offers efficiency and complete compressed air back up
- 2 For single / multiple systems, the Avelair compressor management controller ensures reduced energy consumption whilst enhancing the control of the compressed air equipment
- 3 The Avelair cyclonic water separators use centrifugal motion to force bulk liquid water out of compressed air allowing dryers to work more efficiently
- 4 The air receiver offers a storage vessel for compressed air, it allows the compressor to function efficiently and further removes some condensate from the system
- 5 Oil and hydrocarbons from the ambient air and the compression process are carried across into the compressed air. The Avelair in line filters remove this contaminant from the system preventing damage to equipment and product spoilage
- 6 When compressed air cools after compression, water is precipitated in the form of an oily condensate. This can travel downstream in the pipe work where it can damage equipment and cause product spoilage. The Avelair refrigerant dryer will remove this moisture down to 3°C dewpoint
- 7 The Avelair condensate management system collects oil contaminated condensate and purifies to the legal discharge limits for a foul sewer drain
- 8 The Avelair desiccant dryer will remove moisture down to -20°C, -40°C or even -70°C dewpoint

**MADE IN  
BRITAIN**

**UK design and manufacture**

Giving you quality workmanship and total technical backup

## Advantages

- ✓ **Long term peace of mind**  
With an 8-year air end and a 5-year compressor warranty
- ✓ **Reduced running costs**  
Our premium efficiency IE3 motors provide longer service life
- ✓ **User friendly**  
Electronic controls provide information at the touch of a button
- ✓ **Easy maintenance**  
Spin on/off separators and oil filters mean reduced service costs
- ✓ **Low noise**  
Due to our acoustic foam and robust steel enclosure
- ✓ **Clean internal environment**  
Thanks to our pre intake filter panel

## evo 2.2 to 7.5 and VSD 7.5

**motor:** 2.2 - 7.5 kW

**type:** fixed and variable speed

**capacity:** 10 - 41 cfm

**pressure:** 6 - 15 bar

### Options available

Receiver mounted – 250L  
Integral refrigerant or desiccant dryer  
Integral filtration autodrain and condensate management system

### Dimensions (mm)

Without Receiver  
L 1200 | D 610 | H 710

With Receiver  
L 1600 | D 610 | H 1220

## 8 YEAR PERFORMANCE<sup>+</sup>

PEACE OF MIND WARRANTY

**MADE IN  
BRITAIN**

**Long term peace of mind**

With an 8-year air end and a 5-year compressor warranty

## Advantages

### ✓ Designed and manufactured in the UK

Quality workmanship and total technical backup

### ✓ Reduced running costs

Our premium efficiency IE3 motors provide longer service life

### ✓ User friendly

Electronic controls provide information at the touch of a button

### ✓ Easy maintenance

Spin on/off separators and oil filters mean reduced service costs

### ✓ Low noise

Due to our acoustic foam and robust steel enclosure

### ✓ Clean internal environment

Thanks to our pre intake filter panel

## Options available

- Receiver mounted – 300L
- Integral refrigerant or desiccant dryer
- Integral filtration autodrain and condensate management system
- Fixed speed or variable speed drives
