

COVER CROPS

Soil Buster		
4.0	Mustard	
3.0	Fodder Radish	
3.0	SMART Radish	

A SAM2 compliant winter cover crop. Available with oats for CSAM2 scenarios. Designed to provide good weed suppression as well as enhancing soil structure and reducing nutrient leaching. Mustard brings reliable, fast, aggressive establishment. Fodder radish, also very vigorous in growth, produces deep roots and provides cover for longer into the winter. Smart radish, with its large tap root and strong lateral roots exploits soil fissures to alleviate compaction. It also produces massive top growth, providing excellent ground cover.

Brassica Break		
4.5	Akenaton	Berseem Clover
4.0	Heusers Otsaat	Crimson Clover
4.0		Linseed
8.0	Lileja	Buckwheat
1.5		Phacelia

Ideal for spring or summer sown cover crop scenarios, this diverse mix of berseem clover, crimson clover, linseed, buckwheat and phacelia provides an excellent nectar source for pollinators. In addition to excellent weed suppression, Brassica Break enhances soil structure, reduces nutrient leaching and fixes nitrogen (>50kg N/ha), building soil fertility. SOH2, SOH3, SAM2 and CSAM2 compliant.

Nematode Buster		
5.0	Anti-Nematode Mustard	
4.0	Anti-Nematode Fodder Radish	

A mix of anti-nematode mustard and anti-nematode fodder radish. Provides active nematode reduction alongside good weed suppression, enhancing soil structure and reducing nutrient leaching. SAM2 compliant. Available with oats for CSAM2 scenarios.

MegaRoot		
3.0	Smart	Fodder Radish
2.5	Apoll/Torro	Fodder Radish
2.5	Structurator/Daikon	Tillage Radish

A blend of smart radish, tillage radish and fodder radish, designed for maximum soil structure enhancement, in addition to weed suppression and reduction of leaching. SAM2 compliant. Available with oats for CSAM2 scenarios.

COVER CROPS & STEWARDSHIP MIXTURES
ARABLE GUIDE

CALL 01544 262500

A range that delivers

The Field Options ProCam Performance Seeds cover crops and environmental stewardship range is designed with optimum performance in mind.

Whether you’re needing a winter cover crop, a winter birdfood mix or a herbal ley, our mixtures are formulated using the best combinations of species and varieties to provide maximum benefit for your soils, your business and your bottom line.

While many of the Countryside Stewardship and Sustainable Farming Incentive actions involve taking ground out of production, choosing

an appropriate mixture and utilising it effectively will ensure that you see the maximum long-term benefits in the rotation to optimise your farm’s production and profitability. ProCam have a wealth of experience and expertise in this area and can offer practical advice on mixture selection, establishment and utilisation. This Arable Guide contains a selection of some of the mixtures we have available that are tailored to meet the needs of various requirements or situations.

SFI MIXES

Tussocky Bumblebee		
1.00	Heusers Otsaat	Crimson Clover
1.50	SW Ares	Red Clover
0.20		Corn Marigold
0.80	Ekola	Yellow Trefoil
0.55	Leo	Birdsfoot Trefoil
1.30	Matra	Sainfoin
1.00		Common Vetch
0.50	Lomiaia	Alsike Clover
0.10		Lady’s Bedstraw
2.50	Swaj	Tall Fescue (Forage Type)
2.00	Pardus	Meadow Fescue
1.50	Bornito	Hard Fescue
2.00	Pinafore	Slender Red Fescue
1.00	Polar King	Timothy
1.55	Maxima	Strong Creeping Red Fescue
1.50	Treposno	Cocksfoot
0.10		Knapweed
0.10		Oxeye Daisy
0.10		Wild Carrot
0.50	Hula	White Clover
0.20		Cornflower

CIPM2, IPM2 and AB8 compliant.

A flower-rich mixture with legumes and tussocky grasses to provide the ideal habitat for pollinators. This mix provides a wide flowering window thanks to its diverse mix of species. The legumes improve fertility and soil microbial activity while the grasses offer an ideal habitat for hibernating bumblebees and a food source for small seed-eating birds. The wildflowers will self-seed, sustaining their presence in the mix.

Diverse Legume Fallow		
1.00	Altaswede	Red Clover
0.50	Global	Red Clover
1.00	SW Ares	Red Clover
0.25	Ekola	Yellow Trefoil
0.25	Leo	Birdsfoot Trefoil
0.50	Aurora	Alsike Clover
2.25	Latigo	Winter Vetches
3.50	Boregine	Lupins - Blue sweet
0.75		Coated Phacelia

CNUM3, NUM3 and AB15 compliant.

A legume fallow with additional soil-enhancing benefits from phacelia and blue lupins which develop aggressive tap roots that grow deep into soil and scavenge nutrients — especially phosphorus.

An excellent nectar source for pollinators with a long flowering window, designed to do two flowering cycles with the yellow trefoil coming to flower in year two. Enhances soil structure and reduces nutrient leaching.

Lupin root nodules

Legume Fallow with grass		
1.00	SW Ares	Red Clover
1.00	Heusers Ostaat	Crimson Clover
1.00	Altaswede	Red Clover
0.25	Leo	Birdsfoot Trefoil
0.25	Ekola	Yellow Trefoil
0.50	Latigo	Winter Vetches
1.00	Treposno	Cocksfoot
0.50	Akenaton	Berseem Clover
3.00	Agaska	Int. Perennial Ryegrass
2.50	Kendal	Late Perennial Ryegrass
1.00	Polar King	Timothy
0.50	Rivendel	White Clover
0.50		Coated Phacelia

CNUM3, NUM3 and AB15 compliant.

A multi-year flowering legume fallow with the inclusion of ryegrass to reduce flowering blackgrass populations. Cocksfoot and clovers provide deep rooting once fully established and Rivendel clover forms an understory. Red clovers, crimson clover and phacelia are colourful nectar sources.

Eco-pasture		
4.00	AberGreen	Perennial Ryegrass Intermediate Diploid
3.30	Abergain	Perennial Ryegrass Intermediate Tetraploid
1.50	Laura	Meadow Fescue
1.00	Comer	Timothy
1.00	Maxima	Strong Creeping Red Fescue
0.75	Donata	Cocksfoot
0.50	Bornito	Sheeps Fescue
1.00	AberClaret	Red Clover
1.00	Avisto	Red Clover
0.55	Aurora	Alsike Clover
0.50	AberDai	White Clover Medium Leaved
0.85	Leo	Birdsfoot Trefoil
0.42	Boston / Tonic	Plantain Blend
0.30	Puna II / Endure	Chicory Blend
0.20	Virgo	Agri Black Medic / Yellow
0.05	-	Agricultural Burnet
0.05	-	Agricultural Sheeps Parsley
0.03	-	Yarrow

CSAM3, SAM3 and GS4 compliant.

A highly-productive herbal ley which is formulated with maximum forage production in mind, utilising top performing high sugar grasses, legumes and herbs. We also have CSAM3 compliant herbal versions of many of our leading Field Options grass mixtures.
