

AGRICULTURAL MACHINERY FIRE SUPPRESSION

INTRODUCTION

Protecting people and equipment from fire is our priority.

That's why machinery owners across the UK trust our automatic systems to keep their machinery safe and operations running, even in the event of a fire.

SEE OUR WORK

Our customers rely on our systems to keep constant watch over their machinery.

This helps reduce fire-related downtime and protect day-to-day operations.

From customer service to our engineers, our team is dedicated to keeping operations protected.

Protecting People & Assets 24/7

WORLD LEADING FIRE PROTECTION SYSTEMS

Tested to the most rigorous standards, our systems provide outstanding performance and exceptional quality.

Backed by our full 3 year parts and labour warranty, you can count on our automatic fire suppression systems to protect your assets first time, every time.

WHY FIREWARD SYSTEMS?

- 24/7 fire protection
- 10 year cylinder lifespan
- 3 year full parts and labour warranty
- No external power required
- SPCR 199 accredited
- A+ rated, as certified by RI:SE
- ActivFire AS5062:2016

SINGLE AGENT

DRY POWDER

**NO POWER
REQUIRED**

**SYSTEM
ACTIVE 24/7**

FIRE RISKS

Dust &

Fluid

Exhaust m

Turboc

DI

Be

Bat

Elec

BENEFITS

- Rapid knock down of fire
- Superior coverage tackles hidden fires
- Suitable for Class A, B, C and electrical fires
- 5 times more effective than wet agent only

WORK AREAS

debris
leaks
manifolds
charger
OP
lts
tery
trics

DUAL AGENT

DRY POWDER & WET AGENT

**NO POWER
REQUIRED**

**SYSTEM
ACTIVE 24/7**

BENEFITS

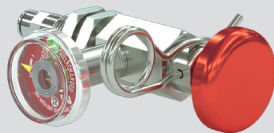

- Rapid fire knock down and prolonged cooling
- Wet agent provides protection from reignition
- A+ Rated, P-Mark accredited
- Smaller than Wet Chemical only system

OPTIONAL EXTRAS

1

MANUAL ACTUATOR

- Allows the operator to manually activate the system
- Gauge displays system pressure
- Can be installed with multiple actuators

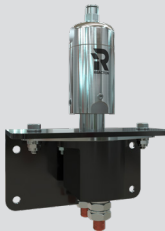

2

ENGINE SHUTDOWN

- Rapid engine shutdown upon fire detection
- Protects the engine from damage
- Cuts fuel and oil supply to prevent fire escalation

BATTERY ISOLATOR

3

- Quickly isolates the battery
- Cuts electrical supply in the event of a fire-related fault
- Terminates current to prevent further damage

IN-CAB MONITOR

4

- Provides a visual system status check within the operators cab
- Traffic light indicator shows system status
- Audible alarm with isolation function
- Allows the operator to manually discharge the system
