locally produced

Made in the UK

Based in County Down, Northern Ireland, we're the UK's largest organic and natural fertilisers manufacturer, with capacity to output circa 40k tonnes every year.

We're committed to bringing the best organic nutrition to growers and agronomists across the world.

Made from fresh, locally-sourced poultry manure, our range delivers slow-release nutrients, for bigger yields whilst nourishing and conditioning your soil with lasting goodness.

- 🌱 Made in the UK – fast delivery
- 🌱 Pellet form – easy application
- 🌱 100% organic – long-term soil health
