

CTX Range

The Proven Modular Conveying Solution

**Conveyors and Elevators for
Grain Handling Applications**

The Modular Range

General features of the CTX Range:

Conveyors and elevators supplied in two casing sizes covering throughputs of 40, 60, 80, and 100 tph @ 750kg/m³.
Conveyor lengths up to 60m, elevators up to 25m high.
All galvanised steel casing construction as standard for indoor or outdoor applications.
Low maintenance shaft mounted gear motor drives with IP55 motors up to 7.5kW designed to meet the needs of applications in regular use throughout the year within farms and commercial grain stores.

Why choose the CTX Range?

Design Flexibility

Designed specifically for grain handling applications.
Lengths/heights can be changed in 200mm increments.
Vertical, curved & horizontal options.
Wide range of throughputs.
Designs can incorporate specific site requirements.
Complete range of ancillary equipment.

Peace of Mind

Designed to minimise specialised training requirements.
Customer driven warranty periods.
Industry competitive lead times.
Clear, instructive installation & assembly instructions.
Partially assembled to reduce installation time.
Large stock of spare parts.

Safe & Secure

Designed to minimise risk of contaminating crops.
Manufactured in compliance with international standards.
Over 48,000 machines supplied to date worldwide.
Energy efficiency & sustainability at the heart of the design.

Costs

Low whole life costs due to ease of maintenance & selection of materials used in construction.
Lowest installed cost due to partial assembly.
Local partners to support your business locally.

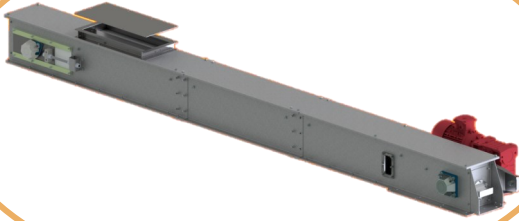

Pricing & Drawings

Prices & planning in drawings available from our local partners.
Technical specifications of the products in this publication are subject to revision without notice.

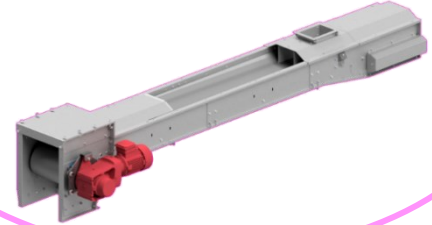

The Machines

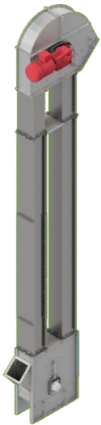

Chain Conveyor

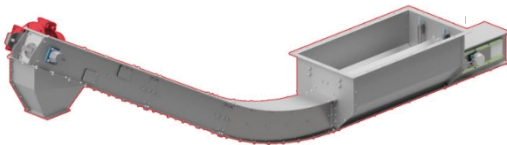

Slip Form Belt Conveyor

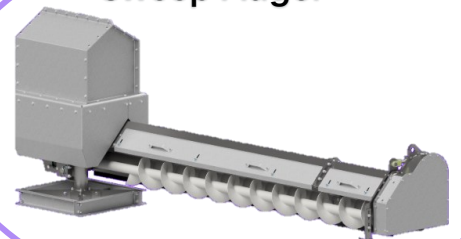

Bucket Elevator

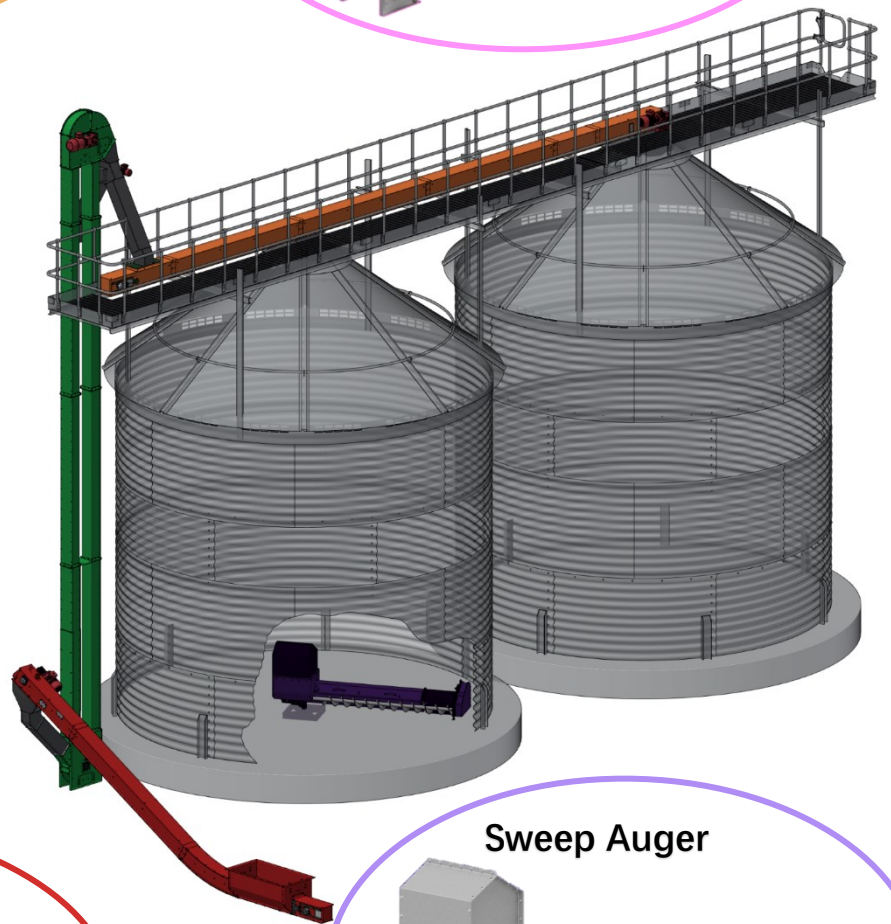

Angleveyor

Sweep Auger

Screw Auger

Bulk Material Handling Specialists

Grain Handling & Storage

Oilseed Processing Facility

Animal, Aquatic & Pet feed Industry

Brewing, Distilling & Malting

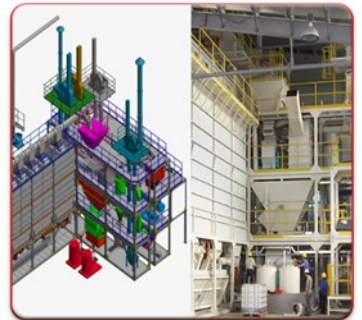

Waste, Recycling & Biomass Facility

Food Industry

High Performance Solutions for Difficult Applications
