

BPW Agricultural Solutions

Sustainable trailed technology.

BPW, experts in your field.

Leaders in trailed technology.

Agricultural axle and suspension systems built specifically for trailers and trailed machines. This ultra-heavy-duty equipment is a robust high performer with low maintenance features.

BPW products range from axle stubs to single axles, up to complete tridem running gear with frames, including suspension and fitted brake systems for a unit load of over 30 tonnes.

AXLE TYPE	
	120 mm for GS 11000
	110 mm for GS 9000
	90 mm for GS 7000
	80 mm for GS 5000 & GS 7000
	70 mm for GS 4000 & GS 5000
	60 mm for GS 4000
	50 mm for GS 2500

HOLLOW

SOLID

AGRO TURN

With a 28 degree maximum, positive steering angle for improved manoeuvrability, AGRO Turn is already fitted to agricultural vehicles in the UK, and many more in Europe (i.e., sprayers and high-capacity tipping trailers).

- Speeds of up to 40 km/h for self-steering.
- Integrated steering angle sensors.
- Forged and tempered steel track rods and steering-fork.

CUSTOM product

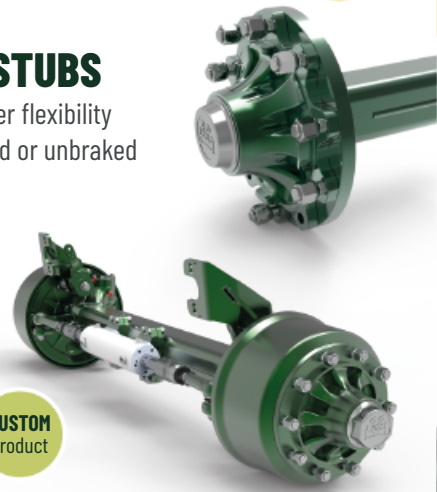

SINGLE AXLES

- Unbraked options
- Braked options

CORE products

AXLE STUBS

- Greater flexibility
- Braked or unbraked

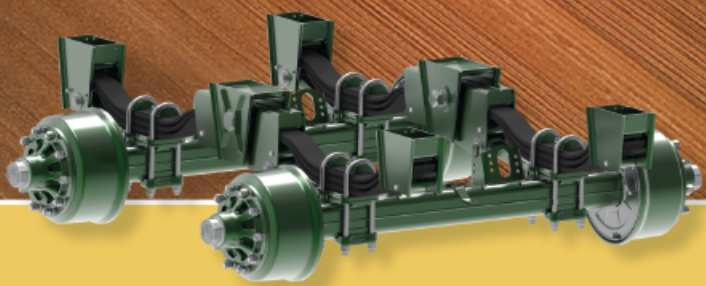

CUSTOM product

AGRO DRIVE

BPW hydraulic drive axles keep traction when others give up.

- 2-speed hydraulic drive.
- Compatible with common hydraulic setups for a smooth integration.

BPW, experts in your field.

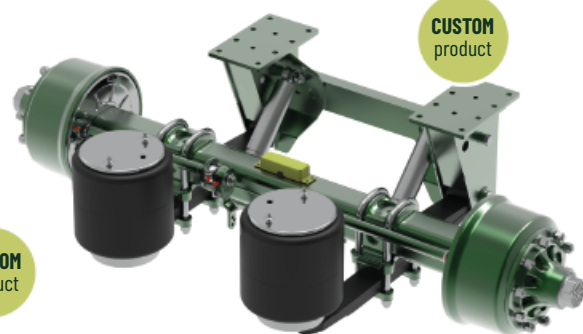

CORE product

MECHANICAL SUSPENSION

- Max stability without stabilisers, the con rod gives precise alignment of axle.
- Ease of maintenance bushes for a longer service life.
- Modular system to suit wheel base and axle load.
- Parabolic or multi-leaf spring.

AIR SUSPENSION

- Reduced ground impact.
- Even load distribution across all wheels.
- Welded construction for a long service life.
- Less wear due to the rubber steel bushes.

CUSTOM product

CUSTOM product

HP SUSPENSION

- Large equalisation (approx 270 mm) between the axles, with equal load distribution and ground pressure.
- Suitable for high speed, high centre of gravity operations.
- Maximum width spring centres.
- Ultimate in roll stability performance.

HM LIFT

BPW Limited acts as the exclusive distributor in the UK and Ireland for HM LIFT, a Turkey-based specialist in hydraulic tipping solutions and hydraulic components.

HM LIFT provides robust hydraulic tipping solutions, primarily telescopic cylinders and complete hydraulic kits (cylinders, pumps, valves, tanks) for heavy-duty applications like agriculture, construction, and logistics.
