YANCHENG®

Generic Products in UK & EU

PHITRITE®

Prothioconazole 250g/L EC
MAPP 21012 PCS 07241

A broad-spectrum systemic fungicide for the control of stem base, foliar and ear diseases such as Fusarium head blight, leaf scald, Sclerotinia stem rot and Septoria leaf blotch in cereals and winter oilseed rape.

URANUS®

Folpet 500g/L SC
MAPP 21480

A multi-site protective fungicide that provides valuable additional protection against key diseases in wheat and barley including Net blotch, Ramularia leaf spot, leaf scald, and Septoria.

ANEMOI

Fluazinam 500g/L SC
MAPP 20592®

A multi-site, protectant fungicide to protect potato from Potato late blight (Phytophthera infestans) and tuber blight in growing season, and would be authorized for controlling powdery scab soon.

EUTERPE®

Diflufenican 100g/L+ Flufenacet 400g/L SC
MAPP 20618

A contact and residual herbicide for pre- and post-emergence application to control a range of annual grasses and broad-leaved weeds in winter wheat and winter barley.

PEDILE®

Diflufenican 500g/L SC
PCS 07497

A contact and residual herbicide for pre- and post-emergence application to control broad-leaved weeds in clover-based Pasture, barley and Oilseed Poppy, rye.

TERPSICH®

Prosulfocarb 800g/L EC
MAPP

A selective herbicide used mainly for pre-emergence and early post-emergence control of a wide range of annual grasses and some broad-leaved weeds in cereal crops and potatoes.

YANCHENG®

Generic Products in UK & EU

ASTRAIOS®

Clopyralid+Picloram 267g/L+67g/L SL
MAPP 21557

A selectice systemic herbicide for post-emergence application to control tough broadleaf weeds, including thistles, cleavers, and mayweeds in cereals, pastures, and non-crop areas.

PONYTAIL®

Trinexapac-ethyl 250g/L EC
MAPP 20216

A turf growth regulator used to reduce leaf and stem growth of grass species, producing stronger plants with thicker stem walls, helping optimise mowing frequency and improve turf quality in turf management, including winter grass management.

THALIA®

Fluroxypyr 200g/L EC
MAPP 19922 PCS06781

A synthetic auxin herbicide used to control annual and perennial broadleaf weeds in cereals, maize, and grassland crops.

PETRICHOR®

Metribuzin 700g/kg WG
MAPP 19844 PCS06794

A selective contact and residual herbicide to control a wide range of annual broad-leaved and some grass weeds in potato. Apply on carrot and passnip as well.
