**RESCHEDULED: ESS & NEC Series from Apr to Sep 2021**

Dear Exhibitor,

**What a year.** We've all had to navigate such a challenging 2020, however the light at the end of this horrible tunnel is certainly starting to look brighter.

We remain grateful, beyond words, for your understanding and consideration, whilst we made the heart-breaking decision to previously postpone ESS and NEC Series.

This time around, rather than a sentiment of 'regretfully postponing' it feels more a one of relief, to confirm that after much consideration and consultation with stakeholders, we have taken a decision to reschedule ESS and NEC Series from April to September 2021:

**The Security Event, Fire Safety Event, H&S Event, Facilities Event to 7-9 September 2021**

*AND*

**The Emergency Services Show to 7-8 September 2021**

Good news, they will remain in the same halls and therefore no change to stand or number.

With such positive news of vaccines, plus roll out of mass testing, and a successful pilot expo last September to Chris Whitty's team demonstrating how a trade exhibition is run Covid-securely, we are very confident about September.

We feel our most reassured in doing what we do best, delivering you bang-for-buck, and as Coronavirus & Zoom proved to the world, nothing replaces human-to-human interaction. We literally cannot wait to get back to physical trade shows, generating lots of business for your company, and all playing our part, in building back the economy.

Throughout this pandemic, we've managed to keep our brilliant people, and operation at Nineteen, intact. And, we are bursting at the seams to see you again, as we roll the shutters up once more to an eager audience of customers, new & old, full of pent-up demand!

If there was ever any doubt over demand, our pre-registrations have encouragingly continued throughout this year, and with now 10 months to go, we have just past a staggering 20,000 visitors. We are in the process of calling every exhibitor to answer any questions you have, and as always, be here to support you.

Meanwhile, if you have any urgent Qs, please let us know, or contact your show lead:
