MEDICAL LIMITED

PRODUCT CATALOGUE
AND PRICE LIST **2020**

- Hose Assemblies
- Ambulance Pipeline Equipment
- Change-over valves
- Terminal Units
- Flowmeters
- Pipeline Suction
- Electric Suction
- Regulators
- Pipeline Accessories
- Medical Gas Plant
- Medical Gas Test Equipment
- Anaesthesia and Gas Scavenging Systems (AGSS)

MEC are a leading manufacturer and worldwide supplier of Medical Gas Equipment for, Hose Assemblies, Oxygen Therapy Equipment, Medical Gas Test Equipment, Anaesthetic Gas Scavenging Systems (AGSS), Suction, Flowmeters, Electric Suction, Regulators and more.

With over 40 years experience in the medical gas industry, the company has developed a strong reputation for design, manufacture, quality and excellent customer service with full technical support and advice.

Our in-house machine shop utilises the latest CNC technology allowing us to cope with most manufacturing requirements. Coupled with in house design, we can adapt to our customers needs and requirements, allowing us to have a quicker response, and offer excellent customer service.

To order by email, web, fax or post please forward your purchase order to:

MEC Medical Ltd | Unit 3, Trust Industrial Estate, Wilbury Way, Hitchin, Hertfordshire, SG4 0UZ, United Kingdom

☎ +44 (0) 1462 436 396 sales@mecmedical.com www.mecmedical.com

All major credit cards accepted.

NOTES

1. Although every effort is made to maintain the prices as listed, MEC Medical Ltd reserves the right to amend specification and/or prices without prior notification.
2. All prices are in UK Pounds Sterling, Nett, Ex-Works, exclusive of packing, delivery and VAT.
3. Please quote the catalogue reference number or part number and description on your order. If in doubt please do not hesitate to contact the MEC Medical sales office for assistance.
4. Due to a policy of continual improvement, product appearance may vary from photographs.
5. Terms and Conditions are available on request.
6. Prices effective from date of publication.
7. Quoted standards correct at time of publication.

HOSES | HOSE ASSEMBLIES

MEC supplies a complete range of Medical Gas Hoses which are fully compliant to current ISO 5359 for the manufacture of medical gas hose assemblies. All hoses are CE marked.

- 3M coloured gas specific anti-static hose
- British standard remote probe
- Phthalate free
- Anti-Microbial

HA1

Hose Assembly - 3m

BS Probe - NIST Probe + Nut

- NIST Probe + NIST Nut
- MRI compatible

GAS	PART No.	PRICE Ea.
O2	HA1	£37.75
O2/N2O	HA2	£37.75
N2O	HA3	£37.75
Air-7	HA4	£37.75
Air-4	HA5	£37.75
Vacuum	HA6	£37.75

HA5RA

Hose Assembly - 3m

BS Right Angle Probe - NIST Probe + Nut

- British standard remote probe 90°
- NIST Probe + NIST Nut
- MRI compatible

GAS	PART No.	PRICE Ea.
O2	HA1RA	£47.75
O2/N2O	HA2RA	£47.75
N2O	HA3RA	£47.75
Air-7	HA4RA	£47.75
Air-4	HA5RA	£47.75
Vacuum	HA6RA	£47.75

HA1SRV

Hose Assembly - 3m

BS Probe Slow Release Valve - NIST Probe + Nut

- Slow release valve for comfort release when disconnecting from outlet point
- MRI compatible

GAS	PART No.	PRICE Ea.
O2	HA1SRV	£79.75
O2/N2O	HA2SRV	£79.75
N2O	HA3SRV	£79.75
Air-7	HA4SRV	£79.75
Air-4	HA5SRV	£79.75
Vacuum (Excludes Valve)	HA6SRV	£79.75

HA1RAN

Hose Assembly - 3m

90° NIST Probe + Nut

- 90° NIST Probe + Nut
- MRI compatible

GAS	PART No.	PRICE Ea.
O2	HA1RAN	£47.75
O2/N2O	HA2RAN	£47.75
N2O	HA3RAN	£47.75
Air-7	HA4RAN	£47.75
Air-4	HA5RAN	£47.75
Vacuum	HA6RAN	£47.75

HA1DS

Hose Assembly - 3m

DISS Nut + Hose Tail - BS Probe

- DISS Nut and Hose Tail
- MRI compatible

GAS	PART No.	PRICE Ea.
O2	HA1DS	£39.75
O2/N2O	HA2DS	£39.75
N2O	HA3DS	£39.75
Air-7	HA4DS	£39.75
Air-4	HA5DS	£39.75
Vacuum	HA6DS	£39.75

BHA2

Boom Hose Assembly - 3m

NIST Probe + Nut - NIST Probe + Nut

- NIST Probe + Nut
- Gas specific NIST Probe
- Gas specific NIST Nut
- MRI compatible

GAS	PART No.	PRICE Ea.
O2	BHA1	£37.75
O2/N2O	BHA2	£37.75
N2O	BHA3	£37.75
Air-7	BHA4	£37.75
Air-4	BHA5	£37.75
Vacuum	BHA6	£37.75

19226HA

Schrader Hose Assembly - 3m

BS Probe - Schrader

- British standard gas specific Schrader adaptor

GAS	PART No.	PRICE Ea.
O2	19221HA	£79.00
O2/N2O	19222HA	£79.00
N2O	19223HA	£79.00
Air-7	19224HA	£79.00
Air-4	19225HA	£79.00
Vacuum	19226HA	£79.00

19221HAN

Schrader Hose Assembly - 3m

NIST Probe + Nut - Schrader

- British standard gas specific Schrader adaptor

GAS	PART No.	PRICE Ea.
O2	19221HAN	£79.00
O2/N2O	19222HAN	£79.00
N2O	19223HAN	£79.00
Air-7	19224HAN	£79.00
Air-4	19225HAN	£79.00
Vacuum	19226HAN	£79.00

HA68161

Extension Hose Assembly - 3m

BS Probe - Pendant Outlet

- British standard gas specific pendant head
- MRI compatible

GAS	PART No.	PRICE Ea.
O2	HA68161	£121.75
O2/N2O	HA68162	£121.75
N2O	HA68163	£121.75
Air-7	HA68164	£121.75
Air-4	HA68165	£121.75
Vacuum	HA68166	£121.75
AGSS	231720HEXT	£121.75

601205BT

Hose Assembly - 3m

BS Probe - Twin Schrader 50mm Block

- British Standard gas specific Twin Schrader adaptors

GAS	PART No.	PRICE Ea.
O2	601201BT	£129.50
O2/N2O	601202BT	£129.50
N2O	601203BT	£129.50
Air-7	601204BT	£129.50
Air-4	601205BT	£129.50
Vacuum	601206BT	£129.50

601205BTR

Twin Schrader Hose Assembly

Rail Clamp 50mm Bar - BS Probe 1.5m

- British Standard gas specific Twin Schrader adaptors

GAS	PART No.	PRICE Ea.
O2	601201BTR	£149.75
O2/N2O	601202BTR	£149.75
N2O	601203BTR	£149.75
Air-7	601204BTR	£149.75
Air-4	601205BTR	£149.75
Vacuum	601206BTR	£149.75

601206BTRL

Twin Schrader Hose Assembly

Rail Clamp 100mm Bar - BS Probe 1.5m

- British Standard gas specific Twin Schrader adaptors

GAS	PART No.	PRICE Ea.
O2	601201BTRL	£149.75
O2/N2O	601202BTRL	£149.75
N2O	601203BTRL	£149.75
Air-7	601204BTRL	£149.75
Air-4	601205BTRL	£149.75
Vacuum	601206BTRL	£149.75

HA3BN

Hose Assembly - 3m

3/8" BSP Bullnose Probe + 3/8" BSP Nut - BS Probe

- 3/8" BSP Nut
- Bullnose probe tail
- MRI compatible

GAS	PART No.	PRICE Ea.
O2	HA1BN	£37.75
O2/N2O	HA2BN	£37.75
N2O	HA3BN	£37.75
Air-7	HA4BN	£37.75
Air-4	HA5BN	£37.75
Vacuum	HA6BN	£37.75

BHA1008

Hose Assembly - 3m

NIST Probe + Nut - 3/8" BSP Bullnose Probe + 3/8" BSP Nut

- 3/8" BSP Nut
- Bullnose probe tail
- Gas specific NIST Probe
- Gas specific NIST Nut
- MRI compatible

GAS	PART No.	PRICE Ea.
O2	BHA1008	£37.75
O2/N2O	BHA2008	£37.75

Vacuum	008HA6	£37.75

201902HA

Twin Schrader Adaptors + Hose Assembly - 3m

BS Probe - Twin Schraders

- British standard gas specific Twin Schrader adaptors

GAS	PART No.	PRICE Ea.
O2	201901HA	£129.50
O2/N2O	201902HA	£129.50
N2O	201903HA	£129.50
Air-7	201904HA	£129.50
Air-4	201905HA	£129.50
Vacuum	201906HA	£129.50

601201SH

Schrader Hose with Rail Mount - 1m

- 1m coloured gas specific anti-static hose
- British standard gas specific Schrader adaptor on rail clamp

GAS	PART No.	PRICE Ea.
O2	601201SH	£83.75
O2/N2O	601202SH	£83.75
N2O	601203SH	£83.75
Air-7	601204SH	£83.75
Air-4	601205SH	£83.75
Vacuum	601206SH	£83.75

601201SHT

Schrader Hose with Rail Mount - 1m Twin Version

- 1m coloured gas specific anti-static hose
- British standard gas specific Twin Schrader adaptors on rail clamp

GAS	PART No.	PRICE Ea.
O2	601201SHT	£149.50
O2/N2O	601202SHT	£149.50
N2O	601203SHT	£149.50
Air-7	601204SHT	£149.50
Air-4	601205SHT	£149.50
Vacuum	601206SHT	£149.50

FPH4RA

Hose Assembly - 5m

Male NIST - Female NIST 90°

- AGSS versions available for all manufacturers outlets
- MRI compatible

GAS	PART No.	PRICE Ea.
O2	FPH1RA	£56.75
O2/N2O	FPH2RA	£56.75
N2O	FPH3RA	£56.75
Air-7	FPH4RA	£56.75
Air-4	FPH5RA	£56.75
Vacuum	FPH6RA	£56.75
AGSS		POA

BHA1FN

Hose Assembly - 3m

Male NIST - Female NIST

- AGSS versions available for all manufacturers outlets
- MRI compatible

GAS	PART No.	PRICE Ea.
O2	BHA1FN	£39.75
O2/N2O	BHA2FN	£39.75
N2O	BHA3FN	£39.75
Air-7	BHA4FN	£39.75
Air-4	BHA5FN	£39.75
Vacuum	BHA6FN	£39.75
AGSS		POA

HA5MS

Hose Assembly - 3m

NIST Probe + Nut - Mini Schrader Probe

- Gas specific Mini Schrader
- Gas specific NIST Nut
- MRI compatible

GAS	PART No.	PRICE Ea.
O2	HA1MS	£37.75
Air-4	HA5MS	£37.75

HA3BLK

Hose Assembly - 3m

BS Probe - Pin Index Adaptor

- Pin index adaptor
- MRI compatible

GAS	PART No.	PRICE Ea.
O2	HA1BLK	£67.75
N2O	HA3BLK	£67.75

HA7INS14X1

CO2 Insufflator Hose Assembly - High Pressure

1/4" BSP or 7/16" JIC - CO2 Pin Index Yoke

1/4" BSP - Pin Index Yoke

LENGTH	PART No.	PRICE Ea.
1M	HA7INS14X1	£240.00
2M	HA7INS14X2	£260.00
3M	HA7INS14	£280.00

7/16" JIC - CO2 Pin Index Yoke

LENGTH	PART No.	PRICE Ea.
1M	HA7JIC716X1	£240.00
2M	HA7JIC716X2	£260.00
3M	HA7JIC716	£280.00

- CO2 Pin index yoke
- High pressure assembly
- For direct connection to CO2 Pin index bottles

Other Connectors Available | (1M shown)

HOSES | REFURBISHMENT SERVICE

Send your existing hose assembly OR your probes only, attached to 150mm (6") of Hose to **MEC**. **MEC** will inspect the condition and tolerances of your existing connectors. We will re-work with a new Gas Hose (Manufactured to current standards) + a new traceable I.D shrink Sleeve and O ring for NIST Probe + Test. (Out of tolerance Probes or NISTs can be replaced at time of rebuild – **MEC** will contact you to advise of any defects before commencing work). We can only refurbish hoses with probes manufactured by **MEC**, other manufacturers probes we will replace at a discounted rate.

MEC has a proven history in the manufacture of medical gas products. With the reputation of our products and patient safety in mind we offer a refurbishment service for hoses and connectors.

119201R

Anti-Static Hose 30m Roll PVC

12.3mm od x 6.3mm id

- Manufactured to ISO 5359
- Exceptional performance and renowned for reliability
- Reinforced anti-static, low toxic liner
- Cadmium and silicone free
- Resistant to a wide range of chemicals
- Phthalate free
- Anti-Microbial

COLOUR	PART No.	PRICE Ea.

HOSES | CUSTOMISED ASSEMBLIES

Now you can put together a complete enquiry for any Hose Assemblies you need by simply visiting the link to our web site '**Hose Configurator**' page. Simply select a Gas type (e.g. Oxygen), the inlet fitting and outlet fitting from the image icons, using the scroll arrows to access the full range.

Then add the flexible hose length and the quantity you require. Finally press '**Build Hose**' to have the specification assemble on screen. At this stage you can press '**Build Another**' to add further assemblies. Finally fill in the short form and press '**Send**'.

This way you can put together a complex order of Hose Assemblies clearly and quickly to send directly to us at MEC via email.

We are always happy to help or provide further information: Telephone us on **+44 (0) 1462 436 396**. Email us at sales@mecmedical.com

MEC stocks a wide range of international medical gas fittings. Hose assemblies for both ISO and US standards can be manufactured to customers requirements.

MEC's medical case outlet is fully compliant to the requirements of ISO 9170-1. The terminal units feature a larger 51mm collar which is completely smooth, reducing the chance of dirt build up. The terminal unit also includes two independent springs for balance and durability. All second fix parts and boxes include a silver antimicrobial additive for inherent antimicrobial protection.

- Gas specific sockets with non-interchangeability
- First Fix supplied with a length of copper pipe
- Complete with fixing screws to secure both First Fix and Box to base plate
- First and Second Fix supplied
- Fully compliant with all current standards

TERMINAL UNITS | DOUBLE TERMINAL UNITS AND ACCESSORIES

The **MEC** Double Terminal Units are a valuable and cost effective option when an extra outlet point is required. With no installation, the unit can be rail or wall mounted and for positioning flexibility, it is connected with a one metre hose assembly. The units fully conform with ISO 9170-1.

R40201

- 1m coloured gas specific anti-static hose
- British Standard remote probe
- Cover assembly included
- For use with MEC Double Terminal Units

FLOWMETERS | BOBBIN FLOWMETERS

The **MEC** Flowmeter range fully complies with the requirements of ISO15002 Flow metering devices for the connection to terminal units of medical gas pipeline systems. **MEC's** Flowmeters are calibrated to operate from an inlet pressure of 4 Bar (approx. 60psi) and carry a 7 year function warranty.

- Anodised aluminium body
- Polycarbonate inner outer tube
- Acetal spindle
- White/black Acetal Plastic tubing nipple

FLOWMETERS | DIAL FLOWMETERS

4961271

Dial Flowmeter + Fixed Probe

- Flow selector with front facing window
- Multiple flow therapy output
1/2, 1, 2, 3, 4, 6, 8, 10 and 15 litres per minute
- Designed for use with 4 bar oxygen supply

DESCRIPTION	PART No.	PRICE Ea.
O2 0.5-15.0 Lpm	4961271	£99.00

4961272

Dual Dial Flowmeter + Fixed Probe

- Flow selector with front facing window
- Twin Multiple flow therapy output
1/2, 1, 2, 3, 4, 6, 8, 10 and 15 litres per minute
- Designed for use with 4 bar oxygen supply

DESCRIPTION	PART No.	PRICE Ea.
O2 0.5-15.0 Lpm	4961272	£166.00

4961273

4 Way Flow Selector and Frame

+ BS Schrader Input Probe on 2m Hose

- Strong aluminium frame
- Extending hooks for hanging
- 2m supply hose to connect to 4 bar oxygen source
- Folding carrying handle
- Four therapy outlets, each with selectable flows,
1/2, 1, 2, 3, 4, 6, 8, 10 and 15 litres per minute
- Plastic feet to base

DESCRIPTION	PART No.	PRICE Ea.
4 Way Flow Selector	4961273	£665.00

REGULATORS | SINGLE STAGE REGULATORS

The MEC range of Single Stage Medical Regulators are designed and manufactured to fully comply with ISO 10524-1

- 200 bar maximum inlet pressure
- 4 bar pre-set delivery pressure
- Maximum flow rate – 50 l/min
- Bullnose or Pin Index inlet connections available
- Nickel plated inlet and outlet connections
- Robust brass body construction for prolonged service life
- Serial number and replacement date, clearly marked on rear of regulator

Air-4 Bullnose	6081FHS	£113.50

REGULATORS | COMPACT REGULATORS

MEC Dial Flow Regulators are manufactured with a brass body and choice of Therapy and Schrader outlets. Manufactured to ISO 10524-1.

- Multiple flow therapy output set by a dial 1/2, 1, 2, 3, 4, 6, 8, 10, 15 and MAX 25 litres per minute if specified
- Barbed, fir-tree style connector or Schrader
- Complies with all current standards

4918552

Pin Index Regulator + Schrader - Non Therapy

DESCRIPTION	PART No.	PRICE Ea.
O2 4 bar output	4918552	£135.00
Air-4 4 bar output	4918552A	£135.00

- Oxygen regulator with Pin Index
- Single Schrader outlet

4918551BT

Bullnose Regulator + Twin Schrader - Therapy

DESCRIPTION	PART No.	PRICE Ea.
O2 0.5-15.0 Lpm	4918551BT	£210.00
Air-4 0.5-15.0 Lpm	4918551BTA	£210.00

- Oxygen regulator with Bullnose input
- Twin Schrader outlet
- Multiple flow therapy output 1/2, 1, 2, 3, 4, 6, 8, 10 and 15 litres per minute

4918551T

Pin Index Regulator + Twin Schrader - Therapy

DESCRIPTION	PART No.	PRICE Ea.
O2 0.5-15.0 Lpm	4918551T	£210.00
Air-4 0.5-15.0 Lpm	4918551TA	£210.00

- Oxygen regulator with Pin Index
- Twin Schrader outlet
- Multiple flow therapy output 1/2, 1, 2, 3, 4, 6, 8, 10 and 15 litres per minute

REGULATORS | DIAL REGULATORS MRI COMPATIBLE

MEC Dial Flow Regulators are non-magnetic and MRI compatible. Built to the same high standard as our Therapy range, the regulators comply with ISO 10524-1 and have a maximum flow capability of 25 litres per minute.

- Multiple flow therapy output set by a dial 1/2, 1, 2, 3, 4, 6, 8, 10, 15 and MAX 25 litres per minute
- Barbed, fir-tree style connector
- Complies with all current standards

4918501MRI

Pin Index Regulator + Flowmeter

- Non-magnetic oxygen regulator with Pin Index input

DESCRIPTION	PART No.	PRICE Ea.
O2 0.5-25.0 Lpm	4918501MRI	£205.00

4918501BMRI

Bullnose Regulator + Flowmeter

- Non-magnetic oxygen regulator with Bullnose input

DESCRIPTION	PART No.	PRICE Ea.
O2 0.5-25.0 Lpm	4918501BMRI	£205.00

4918501CGAMRI

USA Type Regulator + Flowmeter

- Non-magnetic oxygen regulator with CGA-540 (USA) input

DESCRIPTION	PART No.	PRICE Ea.
O2 0.5-25.0 Lpm	4918501CGAMRI	£205.00

REGULATORS | TWO STAGE REGULATORS

The **MEC** range of Multi-Stage Medical Regulators are designed and manufactured to fully comply with ISO 10524-1 for cylinder use and ISO 10524-2 for manifold use.

- 200 bar maximum inlet pressure
- 0-10 bar delivery pressure
- 4/7 bar pre-set delivery pressure
- Maximum flow rate – 42m³/hr
- Cylinder and manifold variants available
- Bullnose or Pin Index inlet connections available
- Robust brass body construction for prolonged service life
- Serial number and replacement date clearly marked on rear of regulator

- Supplied with gas specific Schrader
- British Standard gas specific Probe

SUCTION | SUCTION CONTROLLERS

High vacuum is suitable for use in operating theatres, intensive care units, trauma and casualty units, wards and any application where high vacuum is required. The suction controller enables the vacuum to be set at any level from 0 to full pipeline vacuum. The vacuum gauge is marked from 0 to -100 kPa and 0 to -760 mmHg. **Low vacuum** is suitable for paediatric applications or where a vacuum not exceeding -20kPa (-150 mmHg) is required. The vacuum gauge is marked 0 to -27 kPa and 0 to -203 mmHg. *NB: The suction control knob is yellow.* **Thoracic suction** is suitable for abdominal or pleural drainage or where a vacuum not exceeding -7kPa (-53 mmHg) is required. The vacuum gauge is marked 0 to -10 kPa and 0 to -75 mmHg. *NB: The suction control knob is blue.* **Controllers** are supplied with BS probes. Alternative probe types are available, including DIN and ULA probes. Units with remote probes are supplied with 2 metres of vacuum hose. Vacuum controllers are supplied with a gauge (marked in kPa and mmHg), disposable hydrophobic filter that acts as a safety overflow valve, an On/Off switch and vacuum adjustment knob. Manufactured to ISO 10079-3.

EPS101A

SAM e.p.s. Portable Suction Unit

With One Autoclavable Collection Jar and Spare Carrier

DESCRIPTION	PART No.	PRICE Ea.
SAM Portable Suction Unit with Autoclavable Jar	EPS101A	£798.00
SAM Portable Suction Unit with Serres Jar	EPS101S	£798.00
SAM Portable Suction Unit with VaxSax Jar	EPS101V	£798.00
SAM Portable Suction Unit with Serres Jar Neonatal	EPS101N	£1070.00

- Electric suction unit
- One Autoclavable 1000ml collection jar and gauge (marked in kPa and mmHg)
- Runs on either 12-28V DC, 100 – 240V AC
- Running Time: 120 Minutes on Full Power, Over 11 Hours on low settings
- Vacuum: 0 to 0.8 bar / 0 to 600 mmHg
- Flow Rate: Up to 32 l/min

- Rotating Bottle
- Unit can be used upright or flat
- Spare Carrier for larger, non-standard Jars
- On-board LED Lighting
- Comes with: Power Cable, Internal Charger, 1m Patient Tubing

EPS107

SAM e.p.s. Portable Suction Unit Accessories: SAM e.p.s. Portable Suction Unit Soft Case

DESCRIPTION	PART No.	PRICE Ea.
SAM Suction Unit Soft Case	EPS107	£65.50

- Allows full use of the Unit without removal
- Can be used with optional Carry Strap
- Durable and lightweight design

EPS108

SAM e.p.s. Portable Suction Unit Carry Strap

- 12V DC/240V AC + Single Jar

DESCRIPTION	PART No.	PRICE Ea.
SAM Suction Unit Carry Strap	EPS108	£19.95

- Easily clips to sides of Unit with, or without Soft Case fitted

SUCTION | PORTABLE SUCTION

EPS105

SAM e.p.s. Portable Suction Unit 12v Charging Plate

DESCRIPTION	PART No.	PRICE Ea.
SAM Portable Suction Unit Charging Plate 12/24V	EPS105	£153.75
SAM Portable Suction Unit Charging Plate 100/240V	EPS106	£153.75

- Wall Mounting Plate with 12v charging plug
- Unit easily clips onto Plate with or without Soft Case fitted

- Compact emergency foot operated suction unit
- One Autoclavable 1000ml collection jar and gauge (marked in kPa and mmHg)

FSF050-240000

Compact Emergency Foot/Hand Operated Suction Unit

With One Autoclavable Collection Jar

DESCRIPTION	PART No.	PRICE Ea.
1Ltr Foot/Hand Suction	FSF050-240000	£169.95

- High performance emergency foot operated suction unit
- One Autoclavable 1500ml collection jar, gauge (marked in kPa and mmHg) and vacuum adjustment knob

FSF100-110000

High Performance Emergency Foot/Hand Operated Suction Unit

With One Autoclavable Collection Jar

DESCRIPTION	PART No.	PRICE Ea.
1.5 Ltr Foot/Hand Suction	FSF100-110000	£259.95

AMBULANCE | MECORB® PIPELINE SYSTEMS

116192AMB

Assembled - Single

Terminal Units with Smoothflow Profiled Boxes

- Gas specific sockets with non-interchangeability
- Supplied with up to 7m of Hose and BS gas specific probe
- Complete with pipe clips and fixing screws
- First and Second Fix supplied
- Fully compliant with ISO 9170-1

AMBULANCE | LOW PRESSURE WARNING PANEL

LPWP1

LPWP Series – Low Pressure Warning Panel

A warning system for use with two cylinders or single cylinder supply system. Designed to warn users of a drop in supply line pressure, alerting users to check the supply cylinder and switch to a new supply.

- Warning panel for when pipeline pressure is low
- Flush mounted fire retardant anti-microbial case
- Loud audible warning with LED indicator
- Separate mute button
- To be used with COVP manual change over unit or LPWB Low Pressure Warning Block
- Interface with vehicle information systems

DESCRIPTION	PART No.	PRICE Ea.
O2	LPWP1	£250.00
O2/N2O	LPWP2	£250.00
Air-4	LPWP5	£250.00

LPWB - Low Pressure Warning Block

Basic Change Over Valve

- Universal change over valve without contents gauge
- 3 way lever to clearly marked positions: Cylinder 1, Cylinder 2 and Off

DESCRIPTION	PART No.	PRICE Ea.
Universal	116200	£89.95

DEMAND VALVES

- On demand Oxygen or 50/50 Nitrous Oxide/Oxygen (Entonox®) system
- Practical features to avoid cross contamination which provides a good patient experience
- Full length handle
- 2-4m hose with BS Schrader probe
- Can be used with generic filter systems

- Can be supplied with either a dedicated pressure regulator (as shown) or with any international hose fitting to use with your own cylinder or wall supply
- 5 Year Warranty
- 5 Year Service Interval
- 10 Year Intended Life-span
- Fully compliant with BS 4272-2

GAS SPECIFIC SCHRADER | ADAPTERS

MEC provides a full range of Gas Specific Schrader adaptors for a permanent connection when it is required. Schrader adaptors have a non-interchangeability function and are available with a variety of thread and angled adaptors. Manufactured to ISO 9170-1.

- Gas specific connection with non-interchangeability
- Lightweight construction
- Designed for use with British Standard Probe connectors

PENDANTS | TERMINAL UNITS

The **MEC** Pendant Units are designed to fully comply with the requirements of ISO 9170-1. Features integral to the units include: non-interchangeability between probes, socket assembly terminal blocks, as well as quick release of the probe with single handed operation. The Pendants incorporate a secondary valve which facilitates ease of maintenance without interruption of the gas supply to the unit.

- 1m coloured gas specific anti-static hose
- British Standard NIST Probe + Nut
- British Standard gas specific pendant head
- (MRI version available, not as standard)
- Phthalate free
- Anti-Microbial

ANAESTHETIC GAS SCAVENGING SYSTEMS

The AGSS is designed to conform to ISO 80601-2-13 and is used for the extraction of waste and excess gases, from the patient breathing system into the central anaesthetic gas scavenging disposal system. This is a device that safely collects and removes exhaled nitrous oxide and other anaesthetic gases during the administration of anaesthesia or sedation. The device is recommended by: AAGBI to avoid occupational exposure to the gases.

12800001P

AGSS Receiving Systems

DESCRIPTION	PART No.	PRICE Ea.
Receiving System inc. 3m Disposal Hose	12800001P	£485.00
Receiving System inc. 4m Disposal Hose	12800004	£487.50
Receiving System inc. 5m Disposal Hose	12800000	£489.50

- Conforms to current British Standard
- MRI compatible
- Wall, Rail or Machine mounted
- Weighs 1Kg, size 80mm X 390mm
- Supplied with Disposal and Transfer Hoses
- Both Disposal Hose and Patient Inlet port swivel about 360° to ensure hose positioning and prevent occlusion
- 3m, 4m or 5m Disposal Hose
- 2.4m Transfer Hose
- Complete with Pressure Relief Valve

Annual Service and Pre-planned Maintenance Contracts Available

PURAIR SCAVENGING SYSTEMS

MEC provides a range of Gas Stand Alone Scavenging Systems for a variety of applications. Each system differs in its extraction rate with flow capacity matched to the needs of a specific environment.

132200

Purair 130

- Cost effective method of Anaesthetic Gas Scavenging without the need for remote pipework
- Simple to install and factory set flow rates, so no commissioning is required
- Extraction capacity is 130 litres/min
- Conforms to ISO 80601-2-13 and is used for the extraction of waste and excess gases

750000

Purair 750 Maternity AGSS

- Designed specifically for maternity delivery suites where the patient is self-administered analgesia for pain relief
- Extraction capacity is 750 litres/min
- Effectively removes waste anaesthetic gas before it pollutes the working environment
- Secondary function is that of local extract ventilation (LEV)

DESCRIPTION	PART No.	PRICE Ea.
Purair 130 AGSS Kit	132200	£1125.00

DESCRIPTION	PART No.	PRICE Ea.
Purair 750 Maternity AGSS	750000	£2335.00
Purair 750 Birthing Pool	750000B	£2535.00

131800

Purair 80 AGSS

DESCRIPTION	PART No.	PRICE Ea.
Purair 80 AGSS	131800	£1550.00

- Designed as a stand alone scavenging unit for use with anaesthetic work stations that have an integrated patient air break
- Extraction capacity is 80 litres/min to current European flow rates
- Can be connected to a patient air break
- Occlusion and fault alarm

PERSONAL MONITORS

For staff exposure to waste anaesthetic gas: All prices include, hire of Personal Monitors, analysis after use (using the appropriate HSE recommended analysis method) and issue of a written report detailing the results compared against the relevant COSHH (Control Of Substances Hazardous to Health) Standards. **Anaesthetic Agents:** Choose from: Isoflurane, Enflurane, Halothane or Sevoflurane.

TEST EQUIPMENT

MEC Test Equipment allows you to regularly check that medical gas pipelines are operating correctly to HTM02-01 guidelines. A comprehensive range of sets are available to test and calibrate medical gas pressure, flow and vacuum, ensure terminal units are gas specific and that active anaesthetic gas scavenging systems are adjusted to provide optimal performance. Particulate matter testing with purging allows checking for particulate contamination within the pipeline as well as purging from terminal unit or NIST points. Included in the range are dew point meters to identify contamination of pipeline systems by moisture.

- Two Pressure Guns to measure all eight pressure gases
- Third Gun to check vacuum
- Designed to check and calibrate British Standard Terminal Units for safe pressure and flow rates
- In compliance with HTM02-01 and relevant European Standards and all preceding standards
- Strong and sturdy Peli Box Case

2005NP

Pressure and Flow Medical Gas Test Kit

DESCRIPTION	PART No.	PRICE Ea.
Pressure and Flow Medical Gas Test Set	2005NP	£2750.00

- Two Pressure Guns to measure all seven pressure gases
- Third Gun to check vacuum
- Designed to check and calibrate British Standard Terminal Units for safe pressure and flow rates
- Additional test probes can be purchased to test alternative outlet types
- In compliance with HTM02-01 and relevant European Standards and all preceding standards

- Gases include O₂, O₂/N₂O, N₂O, Air-4 Bar, Air-7 Bar, Vacuum
- Calibrated to BS 5682
- In compliance with HTM02-01 and relevant European Standards and all preceding standards

20170N

Female NIST Anti Confusion Test Set

DESCRIPTION	PART No.	PRICE Ea.
NIST Anti Confusion Test Set	20170N	£295.00

- Set of six or nine stainless steel gas specific NIST probes
- Gases include O₂, O₂/N₂O, N₂O, Air-4 Bar, Air-7 Bar, Vacuum
- Nine includes CO₂, N, HEO₂ (Carbon Dioxide, Nitrogen, Heliox)
- Calibrated and manufactured to current industry standards
- In compliance with HTM02-01 and relevant European Standards and all preceding standards

20170-9

Male NIST Anti Confusion Probes

DESCRIPTION	PART No.	PRICE Ea.
Male NIST Anti Confusion Probes x6	20170	£295.00
Male NIST Anti Confusion Probes x9	20170-9	£430.00

AEROALPHA

Aerotest Alpha Breathing Monitor

Monitor For Breathing Air Purity

DESCRIPTION	PART No.	PRICE Ea.
Aerotest Alpha Breathing Monitor	AEROALPHA	£1950.00

- All the necessary components in a single system
- Concentrations can be determined either individually or simultaneously
- In compliance with EN12-021 and relevant European Standards
- All components are housed ready for use in a handy carrying case
- Quick and easy to apply. In just five minutes, the Quick-Check indicates measurement results and provides information about the degree of contamination

TEST EQUIPMENT

- Polycarbonate filter holder 47mm
- 75/150Lpm flow rate jets
- Hydrophobic Membrane 47mm filter papers, 0.45(µm) pore size
- In compliance with HTM02-01 and relevant European Standards and all preceding standards

2002

Standard Particulate and Purging Kit

Standard Test Set

DESCRIPTION	PART No.	PRICE Ea.
Particulate and Purging Kit	2002	£895.00

- Stainless steel filter holder 47mm
- 75/150Lpm flow rate jets
- Hydrophobic Membrane 47mm filter papers, 0.45(µm) pore size
- NIST and Terminal Unit connectivity
- In compliance with HTM02-01 and relevant European Standards and all preceding standards

2001

Particulate and Purging Medical Gas Test Kit

Standard Test Set

DESCRIPTION	PART No.	PRICE Ea.
Particulate and Purging Kit	2001	£1995.00

- 1, 2 and 4 kPa Orifices
- Meets current industry standard
- Flow gauge with AGSS hose and probe for connectivity allowing for basic flow rate tests to BS 6834
- In compliance with HTM02-01 and relevant European Standards and all preceding standards

232005

AGSS Flow Rate Test Set

DESCRIPTION	PART No.	PRICE Ea.
AGSS Flow Rate Test Set	232005	£495.00

- A kit designed for test and commissioning of ambulance pipeline systems
- 0-10.5 Bar Pre Set Two Stage Regulator
- HTM02-01 Pressure Gun
- Test probes O2 and O2/N2O
- In compliance with HTM02-01 and relevant European Standards and all preceding standards

116205

Vehicle Pressure and Flow Test Set

DESCRIPTION	PART No.	PRICE Ea.
Vehicle Pressure and Flow Test Set	116205	£1065.00

200011

Pressure Drop Test Gun

Plus choice of Digital or Analogue Pressure Gauge

DESCRIPTION	PART No.	PRICE Ea.
Pressure Drop Test Gun (Digital Gauge) NIST	200011D	£470.00
Pressure Drop Test Gun (Analogue Gauge) NIST	200011	£92.50
Pressure Drop Test Gun (Digital Gauge) Probe	200011DP	£470.00
Pressure Drop Test Gun (Analogue Gauge) Probe	200011P	£92.50

- Measures pressure losses at NIST or Outlet Point
- Lockable valve to prevent tampering
- Ideal to test at AVSU and Manifold points
- 20054D Digital Pressure Gauge or Conventional Analogue Gauge

TEST EQUIPMENT

- For measuring pressure losses at either NIST or Outlet Point
- Lockable valve to prevent tampering
- Ideal to test at AVSU and Manifold points

2010

Standard Pressure Drop Test Kit

DESCRIPTION	PART No.	PRICE Ea.
Pressure Drop Test Kit with NIST Connections	2010	£425.00
Pressure Drop Test Kit with Probe Connections	2010P	£425.00

- For measuring pressure losses at either NIST or Outlet Point
- Lockable valve to prevent tampering
- Ideal to test at AVSU and Manifold points
- One or two 20054D Digital Pressure Gauge(s)

2011

Pressure Drop Test Kit

Plus choice of 1 or 2 Digital Pressure Gauge(s)

DESCRIPTION	PART No.	PRICE Ea.
Pressure Drop Test Kit (x1 Digital Gauge) NIST	2011	£825.00
Pressure Drop Test Kit (x2 Digital Gauges) NIST	2012	£1200.00
Pressure Drop Test Kit (x1 Digital Gauge) Probe	2011P	£825.00
Pressure Drop Test Kit (x2 Digital Gauges) Probe	2012P	£1200.00

- Designed to Pressure test up to 6 pendant hoses at once
- -1 – 30 Bar Digital Pressure Gauge installed on manifold
- 10 Bar Pressure Regulator
- Test hose to connect to Manifold from Regulator
- Non gas specific NIST's allowing any Pressure Gas or Vacuum hose to be connected
- Test certificate included

200850

Hose Pressure Test Rig

DESCRIPTION	PART No.	PRICE Ea.
Hose Pressure Test Rig	200850	£1995.00

New CO2 analyser specifically designed to monitor CO2 for the verification of incubators in research and pharmaceutical markets. Developed to be fast, simple to use and accurate.

- Improved accuracy on CO2 readings
- Quick verification of CO2 incubator levels
- Time saving dual temperature probes
- Built-in gas moisture removal
- CO2 0-20%, O2 0-100%
- Dual temperature probes 0 to 50°C
- Humidity sensor 0-100%
- Large data storage and user friendly software and download

G100ANZ

Medi Gas Check G100

CO2 Incubator Analyser

DESCRIPTION	PART No.	PRICE Ea.
G100 Medi Gas Check	G100ANZ	£1595.00
Plus O2 Sensor	G100ANZ-O2	£1695.00

MEC Test Equipment demonstration videos available at mecmedical.com

TEST EQUIPMENT

Specifically designed for accurate measurement and verification of piped N2O, O2 and contaminants in hospitals. Measures four gases, N2O, O2, CO and CO2 within one analyser. Portable and user friendly.

- Easy user calibration
- Quick verification of gas quality
- User alarms
- Data storage with site and ID input
- Identify contamination with CO and CO2

G210ANZ

G210 Gas Analyser

Accurate quality assessment of N2O, O2, CO and CO2

DESCRIPTION	PART No.	PRICE Ea.
G210 Gas Analyser	G210ANZ	£4195.00
Analyser Regulator Kit incl. Gas Specific Probes	G210REG	£650.00
G210 Gas Analyser Calibration Kit	G210CAL	£485.00
G210 Software Package	G210DATA	£305.00
Carry Case	G210CASE	£100.00

G200 Gas Analyser for the accurate quality assessment of N2O. Cost effective monitor, easy to use portable system for dental departments or professionals using anaesthetic gases and surgeries.

- 0-1,000 ppm N2O
- Storage for 1,000 readings
- TWA calculated
- Leak detection
- Calculates EH40 occupational exposure limits
- Data download for graphing and reporting

G200ANZ

G200 Gas Analyser

Accurate quality assessment of N2O

DESCRIPTION	PART No.	PRICE Ea.
G200 Gas Analyser	G200ANZ	£2150.00
G200 Software Package	G200DATA	£295.00
Carry Case	G200CASE	£100.00

Instrument for testing medical, surgical and breathing-air systems (HTM02-01, Pharmacopeia and EN12021) up to 10 bar. Built-in electronic dewpoint meter, electrochemical oxygen cell and digital flowmeter. Tests CO, CO2, NOX, SO2, H2S and Polytest using Draeger chemical reagent tubes and oil using the Impactor. Colour touch screen menu driven display and rechargeable batteries. The unit also has a battery tray which accommodates 6 AA alkaline type batteries. In the event that the rechargeable batteries are not sufficiently recharged then you can continue to use the instrument with either the alkaline batteries or a mains power supply. Built in memory, downloadable to PC safe-air tester results software. Supplied as standard in PELI carrying case, also provided with:

- Duracell (AA) alkaline batteries
- Universal mains power adapter
- USB tester results download cable
- F2193 connection adaptor with CEJN plug
- Tube tip cutter
- Travel container
- Operating Manual

F4504

Multi-Air Tester

DESCRIPTION	PART No.	PRICE Ea.
Multi-Air Tester	F4504	£6650.00
20 Bar Regulator	F3005	£155.00

These cost effective detector tubes are able to offer quick, on the spot measurements of many gases and vapours using the manual pump.

- Accurate and reliable results
- Simple method of oil detection without the need of calibration
- Measurement of oil content and impurities in medical gases
- Compatible with all syringe type pumps
- In compliance with HTM02-01 and relevant European Standards and all preceding standards

DETPUMP

Gas Detection Tubes and Pump

For the detection of oils and impurities in medical gas

DESCRIPTION	PART No.	PRICE Ea.
Gas Detection Syringe Pump	DETPUMP	£299.00
GAS DETECTION TUBES		
CO	DETCO	£69.95
CO2	DETCO2	£69.95
H2O	DETH2O	£69.95
NO	DETNEX	£69.95
SO2	DETSO2	£69.95

TEST EQUIPMENT

The Medi-Gas Check Medi-Qube is supplied in two forms, one for use with Oxygen (O2) and is therefore O2 clean and another for Medical and Surgical Air and other non-flammable medical gases. Only the Medi-Gas Check Medi-Qube for O2 must be used with O2.

- Fast, accurate and reliable results
- Quickest method of oil detection
- Measurement of oil content and impurities in medical gases
- Calibrated for use with Draeger polytest detector tubes and the new oil impactor

MEDI-QUBE

Medi-Qube

For the detection of oils and impurities in medical gas

DESCRIPTION	PART No.	PRICE Ea.
Medi-Qube (All Gases EXCEPT O2)	MEDI-QUBE	£845.00
Medi-Qube (O2 ONLY)	MEDI-QUBE02	£945.00
Poly Test Oil Impactors	DETPOLY	£99.00

SERVOMEX

SERVOMEX MiniHD (5200)

Rugged Portable Gas Analyser

DESCRIPTION	PART No.	PRICE Ea.
SERVOMEX MiniHD (5200) Rugged Portable Gas Analyser	SERVOMEX	£5995.00
SERVOMEX Case	SERVO-CASE	£450.00
SERVOMEX Bag	SERVO-BAG	£125.00

- Compact, reliable and easy to use with long life and minimal running costs
- Non-depleting paramagnetic or infrared measurement technology ensures the unit is always ready for use
- Fast, accurate, reliable and component specific, with confidence that observed values are credible and not due to background interference
- Robust, IP65 case with protective overmoulding
- Customer pre-tested software and long life Li-ion rechargeable batteries for maximum ease of use
- Two versions available: Internally pumped or "AFCD" version for pressurised samples
- Avoids the problems associated with electrochemical or other less robust methods of analysis

- Repeatedly fast measurements at low pressure from less than 15 minutes for t95 to -60°C
- Higher pressure measurements possible – up to 350 bar
- Long battery life: up to 48 hours of typical use between charges
- Intuitive application kits allow quick and straightforward connection to your sample point
- Durable, yet easy to handle and operate: designed for use in industrial environments
- 4-20mA external device input for transmitter calibration and validation
- Lightweight: less than 1.5kg
- 13 point traceable calibration certificate

DEWP2

MDM 300

Advanced Dew-point Hygrometer

DESCRIPTION	PART No.	PRICE Ea.
Advanced Dew-point Hygrometer	DEWP2	£3495.00
Advanced Dew-point Easi Fit Sampling Kit	DEWPMSPL	£950.00

- Wide measurement range
- Simple operation
- Integral sampling system
- Rugged industrial case
- ±2°Cdp accuracy
- Traceable to National Standards
- Powered by rechargeable battery
- Lowest cost of ownership due to minimal maintenance

DEWP

Easidew Portable

Easidew Portable Dew-point Hygrometer

DESCRIPTION	PART No.	PRICE Ea.
Easidew Portable Dew-point Hygrometer	DEWP	£2500.00

TEST EQUIPMENT

20054D

Digital Pressure Gauge

DESCRIPTION	PART No.	PRICE Ea.
Gauge	20054D	£435.00
Rubber Boot	20054DB	£17.50
Case	20054DC	£32.50
Universal Probe with 7/16"-20 UNF	007916UNF	£55.50

- -1 to 30 bar pressure range
- Accuracy RT (room temperature) <0.1% FS
- Total Error Band (0...50°C) <0.2% FS
- 1000 hours continuous operation
- Pressure connection 7/16"-20 UNF (1/4" adaptor included)

29000

Pneumatic Hand Pump Kit

Pressure/vacuum levels (small volumes)

DESCRIPTION	PART No.	PRICE Ea.
Pneumatic Hand Pump Kit	29000	£995.00

- With 3/8" BSP Parallel Female Connection
- A portable dual source of vacuum and pressure
- Volume control for fine adjustment
- Adjustable stroke for varying maximum pressure output (pressure protection)
- Quick fit connectors
- BSP or NPT adaptor set
- Full seal kit supplied

119901

Rechargeable Crimping Tool

With Carrying Case, 240V Charger and 18V Li-ion Battery

DESCRIPTION	PART No.	PRICE Ea.
Crimping Tool	119901	£2150.00

- Easy to use
- For use with Ferrule 4131
- Supplied with MEC jaw set
- Certified suitable for manufacturing a compliant crimp when used with MEC hose and hose components
- Battery condition indicator
- One handed operation and release
- Head rotates for ease of access
- Tested to requirements of ISO 5359

TEST EQUIPMENT ACCESSORIES AND SPARES

24820012/10

British Standard Universal Probes

With Flow Rate Jets

MEC provides a range of calibrated Flow Rate test probes for checking flow rates of Terminal Units to current British Standards to meet the needs and requirements of HTM02-01.

- Stainless steel one piece probes
- Calibrated jets
- Engraved body with flow rate and outlet pressure
- Jets set at 400kPa (350LPM Jet set at 700kPa)

DESCRIPTION	PART No.	PRICE Ea.
10LPM Jet	24820012/10	£59.95
15LPM Jet	24820012/15	£59.95
20LPM Jet	24820012/20	£59.95
40LPM Jet	24820012/40	£59.95
50LPM Jet	24820012/50	£59.95
80LPM Jet	24820012/80	£59.95
100LPM Jet	24820012/100	£59.95
150LPM Jet	24820012/150	£59.95
200LPM Jet	24820012/200	£59.95
350LPM Jet	24820012/350	£59.95

007

Remote Universal Probe Body

PART No.	PRICE Ea.
007	£6.75

Air Plant

MEC provides a full range of Air plant systems from Simplex to Quadruplex. Plants can be designed with different capacities, physical sizes with a choice of screw, reciprocating and scroll compressors.

- Fully Compliant to HTM 02-01
- Available in a full range of variations
- All interconnecting pipe-work and wiring is supplied
- Fail Safe control system in the event of power loss
- Integral Alarm System Interface indicator
- All plants are tested and certified and are covered by a full warranty

Vacuum Plant

MEC provides a full range of Vacuum plant systems from Simplex to Quadruplex.

- Fully Compliant to HTM 02-01/ HTM 2022
- Available in a full range of variations
- All interconnecting pipework and wiring is supplied
- Fail Safe control system in the event of power loss
- Control panel is fitted with highly visible indicators and gauges
- Integral Alarm System Interface indicator
- All plants are tested and certified and are covered by a full warranty

Manifolds

MEC provides a complete range of manifold systems including Automatic, Emergency Reserve, Emergency Standby and Double Tail Pipe.

- Fully Compliant to HTM 02-01
- Available in a full range of variations
- Supplied with pre-set regulators and pressure sensors
- Highly visible readouts for cylinder content and pipeline pressure
- Both safety relief and isolation valves
- Available for wall mounting or free standing floor mounted variants

A.V.S.U - Area Valve Service unit

- Fully Compliant to HTM 02-01
- Fitted with BS EN 739 NIST connectors
- Fitted with a laser grooved Safe Break window
- Removable door for quick easy access, with reversible door hinges
- Sealed shut off NIST valves
- Standard pipework in 22mm and 28mm
- Each valve is supplied with blanking facility
- Every A.V.S.U is pressure tested with the valves tested for tightness

Lockable Line Valves

All valves are designed for maximum life with requiring minimum maintenance.

- Fully Compliant to HTM 02-01
- Lockable in both open and closed positions
- Pressure tested
- Tested for tightness
- A complete tamper proof locking device can be incorporated
- Solenoid Line Valves Available which are electrically operated and fully comply with HTM 02-01
- NIST Lockable Line Valves, each is supplied with blanking facilities

Zone Service Unit

MEC provides Architectural equipment that is designed for maximum life without compromising on quality as well as being cost effective and requiring minimal maintenance.

- Fully Compliant to HTM 02-01
- Available in Surface and Part recessed format
- Available from one to six gases
- Fitted with BS EN 739 NIST connectors
- Includes all internal pipework and stubbed
- Shire alarm panels fitted and tested, Connections outside of the Enclosure for easy fitting
- Pipework soldered using Inert Gas Jointing
- Pressure Sensors fitted with minimum leak facility
- Other Alarms and colours available
