5 Star Review ★★★★★

"Very lightweight, very "cool" to wear. Allows fresh air through the fabric. The stay flat collar is perfect. This is by far the best polo short I have found. Very professional looking & feeling. I can see me ordering another 4 when I order again. I'm a big man, I got the largest size & I'm very happy with the fit. Nice to find a professional shirt in big sizes."

The Eclipse Epaulette™ - Designed by and exclusive to Niton. If you need to be identified you can attach slider epaulettes, but if you are undercover or off duty you can just hide the epaulettes. There is no need to have different clothes for different operations. To use epaulettes, just pull the epaulette loop from the hidden compartment on the shoulder and button it down. If you don't want the epaulettes on show, simply thread them back into the hidden compartment. A small Hook & Loop patch inside the compartment means the epaulette loops will stay hidden.

We understand that it's not always practical to carry your patrol vest when travelling to work or between jobs.

The Niton design team have used the same basic design of our hugely popular Niton 4 Pocket Vest, but made it transform from a convenient carry bag to a fully functioning patrol vest.

It's compact for easy storage, deployment and transportation. Ideal for security company's who have large teams of temporary staff, storage is far easier, and deployment is as simple as handing them the bag! Transformation to a fully functioning patrol vest takes under a minute!

Niton Tactical Transformer Vest

Designed to help take the weight of carrying your equipment off your waist and distribute it more evenly on the vest. Fully adjustable to accommodate additional clothing, body armour or winter jackets.

- Click on dock on each shoulder
- 50mm reflective tape at the waist & shoulder
- 3 bellowed pockets (170 x 130 x 50mm)
- 1 bellowed pocket with Hook & Loop ID strip
- Hook & Loop adjustments at the waist and shoulders
- Large Hook & Loop ID strip on the back & left chest
- Epaulette loops for button epaulettes
- 4 Belt loops

Sizes S-XL

Code NT32011

Major Incident teams can use the “Transformer” Vest too - store your basic major incident kit ready packed in one of the four large bellowed pockets, making it easily accessible and fast to deploy. The vast amount of room needed to store existing kit can be greatly reduced as the “Transformer” Vest can be filled, boxed and stored ready for fast and effective deployment.

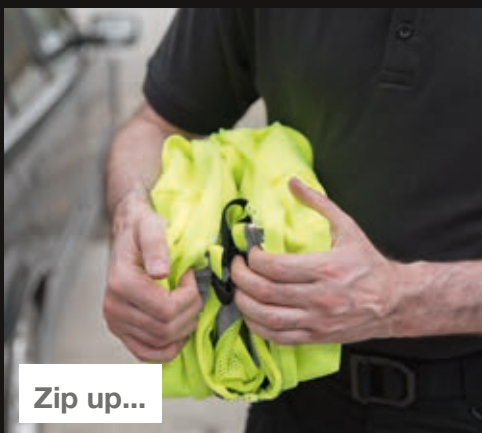

Why use a patrol vest... Officers have to carry lots of kit and carrying this weight around their waist is not always comfortable or practical - the “Transformer” vest will take the weight and evenly distributed over the body and shoulders, reducing the strain often associated with wearing a belt.

Store fully loaded with kit for instant deployment.

5 Star Review ★★★★★

"This product is very well made and is fully adjustable to fit snugly over your stab vest. There is plenty of space in the zip pockets for notebooks etc. I've found that my captor spray fits perfectly into it's pouch even still in the plastic pot.

Operationally I feel movement is easier, in and out of the car without getting tangled in the seat belt is a bonus and that everything you need is pretty much right in front of you!

All in all this product is perfect for anyone having problems with the utility belt and/or back complaints. I would recommend it to everyone and have already recommended it to some of my colleagues!"

HOW TO ATTACH MOLLE POUCHES CORRECTLY....

1. Line up the top of the pouch, with the MOLLE straps on the bag or platform.
2. Begin to weave the attaching straps through the webbing and back of the pouch. Continue until it is secured along the entire length.
3. Secure with popper. This weaving attachment system is extremely secure and will prevent the pouch from moving, even when fully loaded.

Guaranteed to fit... Friction Lock & Autolock®, with or without Hindi Cap or Wedge.

Fusion Baton Pouch With Dock

This baton pouch has been designed to accommodate different configurations of expandable batons, so you can use the same pouch whether your baton has a Hindi or similar grip, standard or safety tip, Autolock® or friction lock.

The opening has been wider so you can easily sheath the baton, even in a hurry. We then added a strap at the mid point which can be tightened to keep the baton secure.

- 3 different fastenings to accommodate batons with or without Hindi cap
- Adjustable strap for a secure hold
- Press stud fastening at the base so the baton can be sheathed fully extended

5 Star Review ★★★★★

"What I liked about this tough well designed carry on bag was the how easy it made getting kit out of it just before you sit down in the seat, being able to access all compartments with it standing upright made it a lot easier than other carry on luggage you have to lay flat to open. I will use this bag every time I travel from now on."

5 Star Review ★★★★★

"I've been using mine for 8 months for about 3 to 4 hours a day... This is a fantastic torch! It is small, compact and robust. It is capable of fully illuminating anything at 60 to 80 meters. I honestly cannot fault this brilliant piece of equipment. It has a really good battery life too and, its definitely eye- popping bright - no matter how much you want to... Don't look into the beam!!"

5 Star Review ★★★★★

"I brought this as a back up to my main flashlight. They are ideal small compact which pack a big punch. The best thing about them is that they operate with a CR123 or use the AA attachment and it operates from a AA battery.

There is 3 modes to these full half and strobe light. Handy clip to attach to your uniform or for writing in your notebook.

I honestly can not find any fault with this tactical flashlight which fits in the palm of your hand."

"I ordered this as a back up torch, but found I have used it the most! Handy size, sturdy belt clip, two power modes & flash capability have proved very useful. Clips anywhere, never without it now!"

5 Star Review ★★★★★

"Nothing fancy, just a simple, (very) bright torch. I would recommend this over the Maglite equivalent any day. There are no black spots, its heavy and sturdy enough for the job without being cumbersome. Very sleek, professional-looking design and very, very bright!"

Niton Tactical Patrol LED Torch

The Niton Tactical Patrol Torch is powerful, easy to operate and designed to withstand the rigours of patrol duty. The strength of the output and the beam means that there will be nowhere left to hide!

The Patrol Torch is incredibly bright which makes it ideal for search or patrol work, and is shock proof to withstand any incident you may encounter.

- The LED Cree bulb provides up to 220 lumens, with a range of 100m, while the anti reflective lens and aluminium reflector provide a continuous beam with no dark spots
- The simple on/off switch has been designed so that it is easy to find and operate, even with gloves on
- O Ring seals provide extra weather proofing, and the aluminium body has a knurled grip so you can keep a tight grip whatever the weather
- The crenelated head unit adds to the anti-roll design, so if you set it down - it will stay put
