## Remote-Controlled Water Rescue System

### FEATURES

- Remote-controlled
- Portable
- Foldable
- Fast Deployment
- Integrated charging box
- Handles to grab
- Heating function for patient from hypothermia
- Up to 1+3 people
- Automatic return

### SPECIFICATIONS

- Remote control range: up to 1,000 m
- Speed
  - Forward: up to 12 knots (unload) / 4 knots (load)
  - Reverse: 0.5 knots
- Running time: up to 60 min
- Capacity: up to 180kg (396lb)
- Weight: 30 kg
- Dimension (mm): 1000 x 550 x 300 (packed) /  
1900 x 700 x 300 (unpacked)
- Battery: 45Ah
- Power : 2800W
- Wind and wave resistance level: level 3 sea state
- Remote-Controller with up to 120 min running time and IP65 and direction/speed/distance/working status indicator
- Charger
  - Input 100-240V, 50/60Hz
  - Output:37.8V 3A

### APPLICATIONS

- Water rescue scenarios
