## Smart Drone Lighting System

### FEATURES

- Remote-controlled + Control Panel
- Portable
- Easy to Transport and Store
- Fast Deployment
- Radio Connection
- Multiple Power Supply Options
  - Built-in lithium battery
  - Backup lithium battery
  - Electricity
  - Generator

### SPECIFICATIONS

- Light power :400 W/600W (With 4 LED Lights)
- Brightness: 100,000 lumen
- Illuminate range: about 8,000m<sup>2</sup>
- Weight:20kg
- Weight of flight unit: 1170g(With LED Group)
- Dimension: 290 x 290 x 203 (mm)
- Maximum height: 50 m( Optimal lighting height 20-30 m)
- Wind resistance: Class 7(Maximum wind speed: 17.2m/s)
- Rain-proof: class 10(24.5L/Min)
- Working Environment temperature :-20~70°C
- Maximum Working altitude:5200m

### APPLICATIONS

- Fire service
- Any night rescues or events lighting
