

STANDARD SHELL SCHEME

Your Shell Scheme stand offers a smooth finish, clean lines and the opportunity to upgrade your stand cost-effectively. The standard Shell Scheme system is constructed using poles and panels and can be built to any size and configuration.

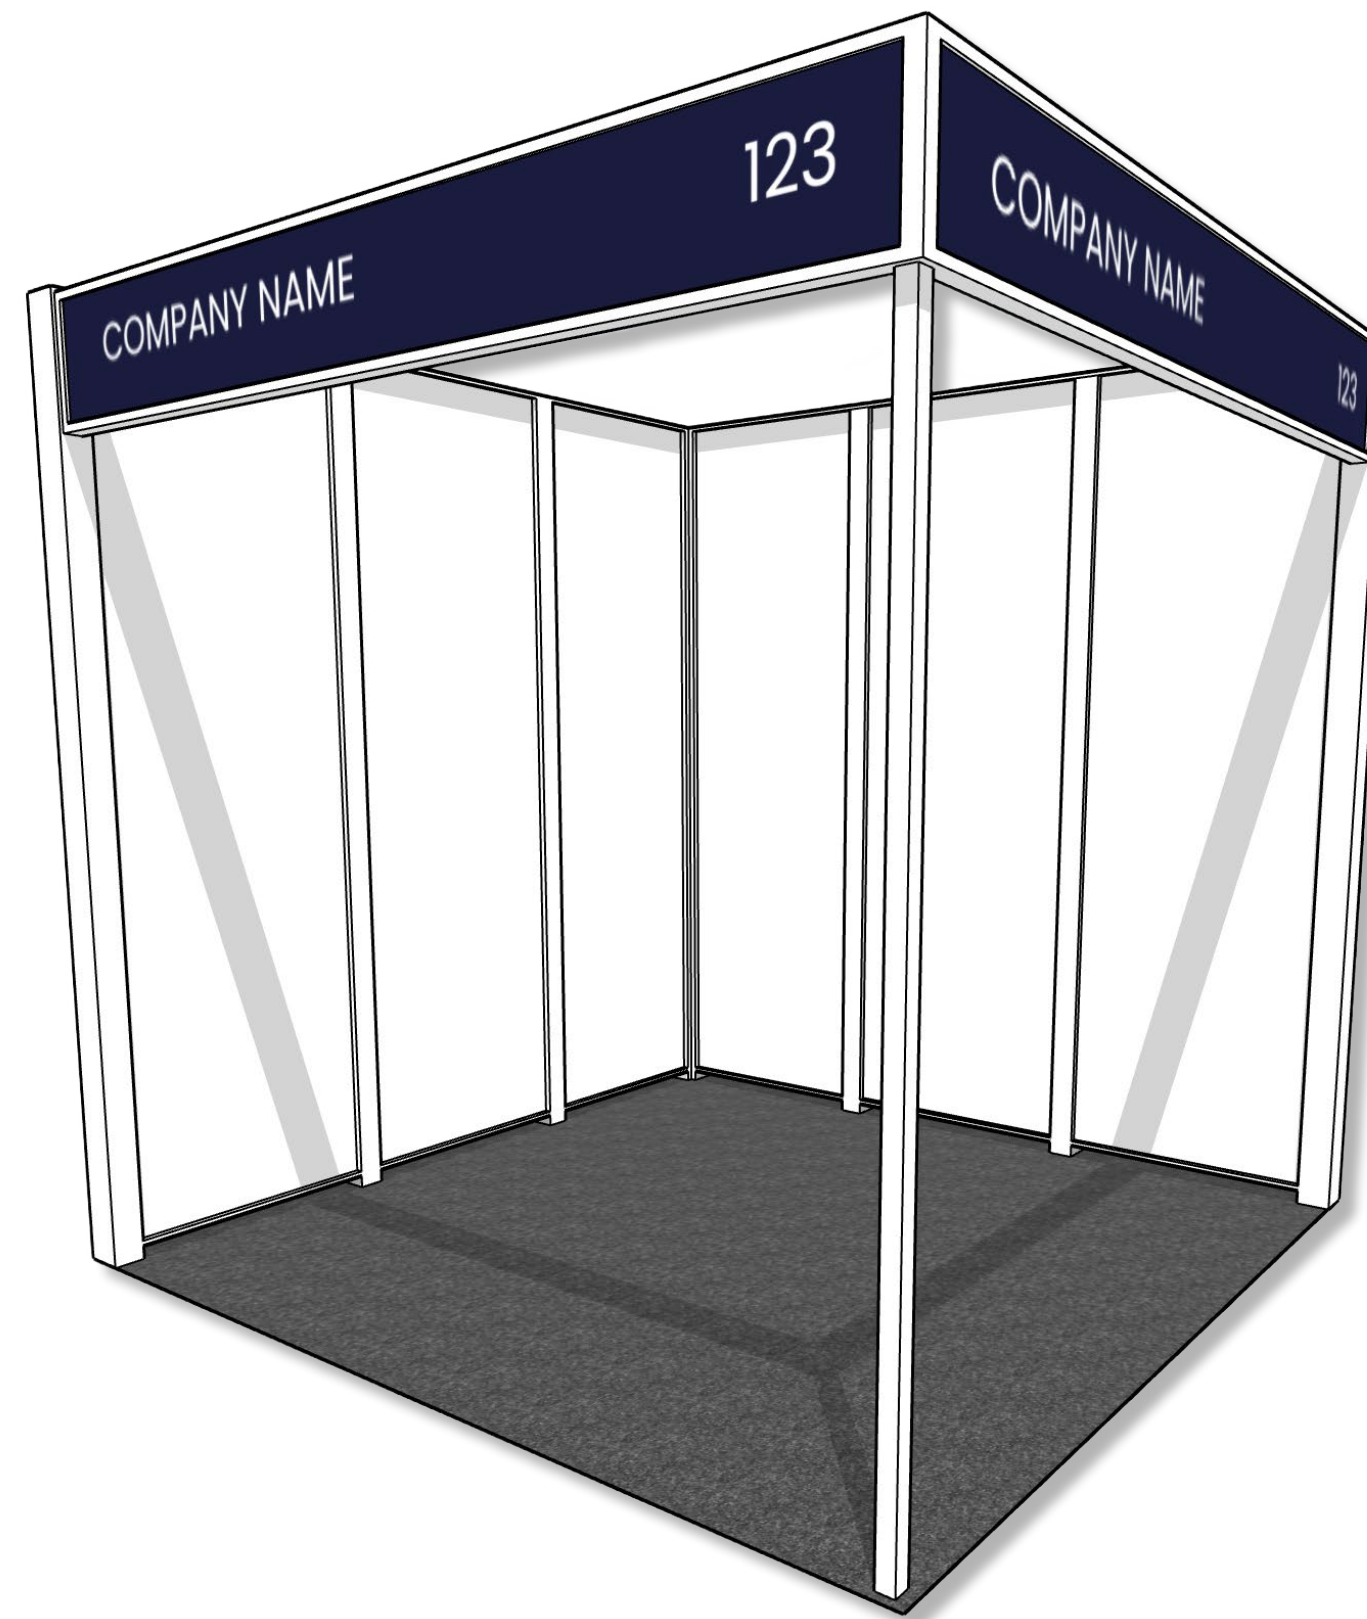

The shell scheme includes walls, fascia (framing around the top front of your stand), a colour nameboard with your company name printed, and grey carpet. Please be aware that the system has a minimal ceiling support grid.

Sunyau Expo will place limited ceiling beams on stands which lighting can be attached to in the normal way but advise that you contact Sunyau Expo directly with exact requirements if placement is imperative to your display.

Shell scheme specifications:

If you wish to attach materials to your shell scheme such as posters, graphics and / or material we suggest the use of double-sided Velcro or double-sided sticky pads.

These options do not damage the panels of the stand.

1m x 2.5m System Panel Dimension:

Please do not stick anything to the metal work. Any damage incurred will be charged for.

If you are unsure of weight limits or have any other questions regarding the Shell Scheme or any of our other services please do not hesitate to get in touch.
