DIY fixings: what to know before you go

We're all about reuse and recycle, which means your exhibition stand will go on to have a long and happy life exhibiting for many years to come. It can't do that if it's damaged (they have feelings too, you know).

Please, don't hurt us!

Only Human Built approved fixings and methods to be used (advice and items available for sale at the service desk)

🚫 Don't make any holes in us

🚫 Don't paint us

🚫 Don't hang anything from our ceiling

Please keep these pointers in mind when you're planning your display because we'll have to charge any repair back to you if we find them injured in the line of duty! And remember: if you need any help making your display, get in touch before you reach for your tool box.
