Please note that sampling will not be permitted without prior approval, if this is not adhered to you will have to stop sampling and may be asked to leave. unsure of a company. Our team all has the [@thebusinessshow.co.uk](https://thebusinessshow.co.uk) or [@bsmexpo.com](https://bsmexpo.com) domain, and all of our suppliers will be on our 'Suppliers List' page. Our official suppliers may contact you in the run up to the show to let you know about services they offer.

Security

We provide 24-hour security throughout the build-up, open days, and breakdown periods of the event. While all reasonable measures are taken to ensure the safety of the venue and exhibition areas, Show Management cannot accept responsibility for any loss, damage, or accident involving exhibitors' or contractors' property. A Security Office will be located onsite for the duration of the event.

Exhibitors are advised to take the following precautions:

- **Do not leave your stand unattended at any time.** Ensure that you have sufficient staff available so that your stand is always staffed during show opening hours. This is particularly important during build-up and breakdown periods and once materials have been delivered to your stand.
- **Secure valuable items.** We recommend hiring a lockable cabinet to store bags, mobile phones, laptops, handbags, and other valuables during the day. Even when staff are present, busy periods may make it difficult to notice if items are removed.
- Ensure you have appropriate insurance cover for your equipment and personal belongings.
- If you have any security concerns or queries, please speak with a Security Officer or the Event Organisers onsite.

Security During Breakdown

To minimise any security risk, exhibitors are strongly advised to dismantle, pack, and remove their goods from their stands as soon as possible after the show closes on the final day. Valuables should not be left unattended at any time during the breakdown period.

Shell Scheme Stands

Our Standard Shell Scheme is a modular stand system, constructed using poles and panels and can be built to any size and configuration. The shell scheme will include walls, fascia, nameboard and carpet. Please be aware that the system has a minimal ceiling grid. We will place limited ceiling beams on stands which lighting can be attached to in the normal way but advise that you contact us with exact requirements if placement is imperative to your display.

If you wish to attach materials to your shell scheme such as posters, graphics and / or material we suggest the use of doublesided Velcro or double-sided sticky pads. These options do not damage the panels of the stand. Please do not stick anything to the metal work. Any damage incurred will be charged for

For measurements of the Shell Scheme and fascia, click [here](#).
