LAND 400 Phase 2

Mounted Combat Reconnaissance Capability

LTCOL Chris McKendry
Capability Manager Representative
LAND 400-2 Resident Project Office – Germany
Armoured Vehicle Division

DSEI, London
10 September 2019

LAND 400 Program

- LAND 400 will acquire and introduce the mounted combat vehicle systems necessary to enable the Australian Defence Force's Combined Arms Fighting System.
- LAND 400 comprises four phases:
 - LAND 400 Phase 1 – Scoping study and requirements development (complete)
 - **LAND 400 Phase 2 – Mounted Combat Reconnaissance Capability**
 - **Comprising Combat Reconnaissance Vehicle (CRV)**
 - **Acquisition Contract signed with Rheinmetall Defence Australia on 09 Aug 18**
 - LAND 400 Phase 3 – Mounted Close Combat Capability
 - Comprising Infantry Fighting Vehicle (IFV) and Manoeuvre Support Vehicle (MSV)
 - Open Tender released in Aug 18; closed 1 Mar 19
 - LAND 400 Phase 4 – Capability Assurance Program

January 2017 – Risk Mitigation Activity
Puckapunyal Military Area

Rheinmetall Boxer CRV versus ASLAV-25

May 2017 – Risk Mitigation Activity
Mount Bundy Training Area

November 2016 – Risk Mitigation Activity
Monegeetta Proving Grounds

July 2017 – Risk Mitigation Activity
Graytown Proof and Experimental Establishment

LAND 400 Phase 2

Mounted Combat Reconnaissance Capability

- Two separate tranches of CRV deliveries:
 - Block I configuration:
 - Reconnaissance (CRV-RECON (BLOCK I))
 - Multi-Purpose Vehicle (CRV-MPV)
 - Block II configuration:
 - Reconnaissance (CRV-RECON (BLOCK II))
 - Command and Control (CRV-C2)
 - Joint Fires & Surveillance (CRV-JFS)
 - Repair (CRV-REP)
 - Recovery (CRV-REC)
 - Option for Ambulance (CRV-A)

Block I - Interim MCRC

- 25 x Block I CRV in two variants:
 - 12 x CRV-RECON (Block I) vehicles based upon the Risk Mitigation Activity (RMA) vehicle
 - 13 x CRV-MPV vehicles based upon the Royal Netherlands Army “GeNieGrouP” (GNGP) Engineer Vehicle
 - Interim Support Services (ISS) package for the Block I vehicles until the CRV support contract is in effect
 - Deployable capability to be in-service NLT end of 2020

Block II - Full MCRC

121 x Reconnaissance

10 x Recovery

15 x Command & Control
29 x Joint Fires Surveillance

11 x Repair

11 x Ambulance

20 x MM ISO Frames
(2 powered)

2 x Recovery MM

4 x Command & Control MM
5 x Joint Fires Surveillance MM

1 x Repair MM

OPTION
