

ABOUT US

Launched in 2008, PRI TrainingSM offers professional development programs and managed learning resources to improve the quality of personnel, products and processes through public and onsite courses and memberships. Many courses have been translated into multiple languages to meet customer need and represent a diverse offering of technical specializations.

PRI Training is managed by the not-for-profit Performance Review Institute® (PRI), which also administers the Nadcap audit and accreditation program for the global aerospace industry.

INSTRUCTORS

PRI Training courses are taught by subject matter experts and qualified leaders in Quality. An average instructor has more than 15 years of experience in the quality industry and an established background in the subject matter they teach. Onsite instructors are specifically selected for each client based on the following criteria:

- **Subject matter expertise**
- **Industries served**
- **Languages spoken**
- **Experience with specific audience levels**

A TRAINING STYLE THAT WORKS FOR YOU

Hosted Training

Companies host training session at their company facility with enrollment open to other companies

Virtual Training

Live training sessions that use interactive web technology
