

# AEROSPACE PLATFORMS

SURVIVABILITY SOLUTIONS FOR TOMORROW'S BATTLEFIELD

[www.cesarmour.co.uk](http://www.cesarmour.co.uk)

## TECH & SPECS

- ✓ Wing and exterior armour
- ✓ Ballistic protection solutions for fixed wing and rotary platforms
- ✓ Modular armour panels for easy installation and dismantling
- ✓ AS9100 and NADCAP certification
- ✓ 3D moulded and complex shapes with UHMWPE, Aramid and Carbon Fibre materials

### MODULAR ARMOUR SYSTEMS

- CABIN
- SIDE WALLS
- FLOOR
- RAMP

### COCKPIT, SEAT & WING ARMOUR SYSTEMS

At CES, our wing armour and exterior panels meet international standards and provide enhanced protection and survivability. Our armour can be designed in complex shapes with UHMWPE, Aramid and Carbon Fibre reinforced materials – and always with the highest quality manufacturing standards and on-time delivery.

### MODULAR SYSTEMS FOR FLOORS, CABINS, WALLS AND RAMPS

Backed by quality certification – from AS9100 to NADCAP – our customised lightweight ballistic protection solutions for aviation platforms are designed to protect interiors and exteriors alike. Our modular armour panels can provide additional protection to cabins, floors, walls and even ramps.
