SURVIVABILITY SOLUTIONS FOR TOMORROW'S BATTLEFIELD

www.cesarmour.co.uk

TECH & SPECS

TOUGH. LIGHT. FLEXIBLE.

- ✓ Ultra-lightweight composite armour enabling speed and manoeuvrability
- ✓ Engineered to provide optimal protection and withstand harsh conditions
- ✓ Multiple protection options using independently qualified ballistic systems
- ✓ Customised solutions for all operational requirements

ADVANCED ARMOUR FOR WORK AT THE SHARP END

Our complete range of shields is tested against the most robust operational criteria to ensure ballistic performance under even the toughest conditions. We designed our range of shields with mission flexibility in mind, with optional auxiliary equipment including visors, cameras, periscopes, flashlights and leg protection adding to tactical effectiveness.
