

# BODY ARMOR PLATES

SURVIVABILITY SOLUTIONS FOR TOMORROW'S BATTLEFIELD

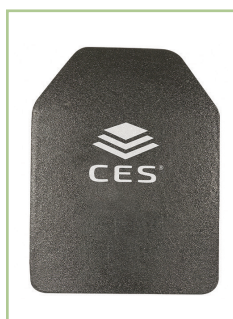

[www.cesarmour.co.uk](http://www.cesarmour.co.uk)

## TECH & SPECS

- ✓ Excellent shock and impact resistance
- ✓ Ultra-lightweight solutions with maximum protection and low trauma values
- ✓ NIJ 0101.04, NIJ 0101.06, VPAM, HOSDB and CAST protection standards
- ✓ Ergonomic shape provides comfort for all users
- ✓ Durable and reliable carrier finish
- ✓ Customised solutions for a range of different threat scenarios

Nothing matters more than the safety and security of your teams on the front line. Which is why our portfolio of high-end ballistic body armour has been designed, developed, manufactured and qualified to meet the most demanding and rigorous ballistic and non-ballistic standards.

Protecting against bullets, fragments and trauma, our plates are body conforming, lightweight and thin, with long-term stability and durability in service. Our plates are available in a range of cuts, weights and thicknesses to suit every mission, and can be customised to meet your specific operational requirements.

Weight		Threats	Multi-Hit	Shape
LEVEL III	0.9 kg - 1.45 kg	7,62x51mm M80 Nato Ball / 5,56x45mm m193	6 Shots	Multi Curve
LEVEL III+	0.9 kg - 1.45 kg	7,62x51mm M80 Nato Ball / 7,62x39mm PS Ball	6 Shots	Multi Curve
LEVEL III++	1.6 kg - 2.1 kg	5,56x45mm SS109 / 7,62x51mm M80 Nato Ball / 7,62x39mm PS Ball	6 Shots	Multi Curve
LEVEL IV	2.4kg - 3.3kg	7,62x39mm BZ / 7,62x54R B32 API / 30-06 M2 AP	1 Shots	Multi Curve
Ultra Light	0.73 kg	7,62mmx51mm M80 Nato Ball / 7,62mmx39mm PS Ball	6 Shots	Multi Curve

\*Stated weights based on a standard 250 x 300mm Insert
