

# TECHPOINT

*Together...we do even more*

Comprehensive solutions for  
electronics manufacturing

# Transforming **ELECTRONIC SUPPORT SERVICES...**

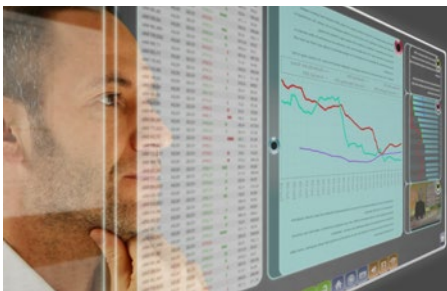

Imagine a team of top electronic engineering and manufacturing professionals with a passion for transforming electronic support services to the very best they can be.

Our aim is to offer a truly comprehensive solutions proposition, offering a complete innovative manufacturing solution for your business, whatever its shape, or its size.

As part of a Group that has grown organically and via acquisition, we have an unrivalled breadth of portfolio and skills, which means we can deliver solutions and services that work for your business.

**SAFE...**  
**SECURE...**  
**SUPPLY...**  
**DESIGN AND MANUFACTURE**

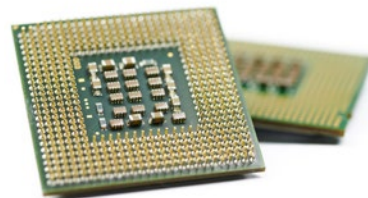

# Our specialist 'CENTRES OF EXCELLENCE'

The TechPoint brand comprises of four brands, and we have developed these into our 'Centres of Excellence'. Each brand is an expert in their individual fields.

Our aim is to offer a truly comprehensive solutions proposition, offering absolute value to your business, whatever its shape, or its size.

Being able to provide that complete end-to-end solution and having a partner that you can trust is what makes us different. We make doing business simple, at every stage. From initial concept and design, a strong secure supply chain, and all the way through each stage of the manufacturing process, our ethos also permeates into the strong aftermarket solutions we provide. That's not just simple... it's smarter too.

## TRUSTED... ...and PROVEN

[bela.co.uk](http://bela.co.uk)

- PCB design and assembly
- DFM support
- Fast track prototyping
- Small batch production
- Second stage conventional fit

[golledge.com](http://golledge.com)

- Frequency control components
- Technical testing
- FAE support
- Specialist product design support
- In-house RF engineering and consulting

[interconics.co.uk](http://interconics.co.uk)

- PCB assembly
- PCB design
- Technical and consultation services
- Automated 3D inspection (optical + X-ray)
- Medium batch production

[vanillaelectronics.com](http://vanillaelectronics.com)

- Critical sourcing components
- Supplier consolidation
- Bespoke kitting
- Alternative parts solutions
- Box build
- Robotic soldering

## OUR **MISSION**

Develop a technology leading Group supporting full customer product life cycle across the electronics industry.

## OUR **VISION**

Be a trusted provider of innovative solutions to the electronics industry.

## OUR **VALUES**

- Collaboration
- Integrity
- Accountability
- Commitment to quality

## OUR **STRATEGY**

Deliver innovative solutions to improve productivity, technical advancement and increase operating efficiency.

# This is **WHAT...** ...we **PROMISE**

We believe that when choosing an electronics support solutions partner, you're not only selecting a supplier, but rather a business partner that can work with you as your business changes and grows.

Our collaborative and personable teams work closely with our customers ensuring the very best customer experience and levels of service.

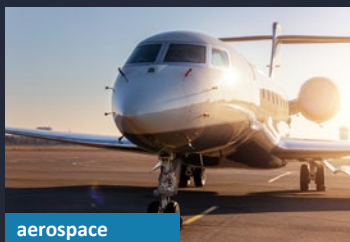

## TECHPOINT

# This is **WHERE...** ...we **WORK**

Our design and manufacturing solutions and our supply chain services are used in OEM and world class products across a range of different industries on a global basis. We also work with smaller independent businesses.

aerospace

audio

commercial

communications

defence

industrial

instrumentation

medical and Scientific

motorsport

offshore and subsea

smart and IoT

space

# Our **CORPORATE SOCIAL RESPONSIBILITY** philosophy

**The TechPoint Group** believes that its CSR philosophy should permeate into policies, work ethics and practices throughout the business. We are determined to be a good employer, neighbour, partner and supplier. We work with all our stakeholders to ensure that the impact we make on our world is for the better.

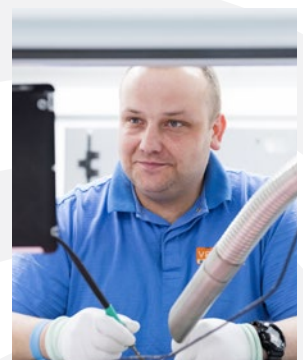

**The community** We actively participate in projects aimed at supporting our local community, particularly helping young people with reading. We're now supporting 5 schools local to where our 'Centres of Excellence' are based. This means through the Bookmark Reading Charity we'll be supplying at least 450 quality books, plus over 3600 Story Corner Magazines each year. We also encourage our staff throughout the Group to act as volunteers within the assigned schools.

**The environment** We believe we have a responsibility to identify, manage and minimise any negative impact as efficiently as possible. We look at the products we use and the products that we recommend to our customers. We also carefully look at our consumption of materials, encouraging recycling rather than disposal. In addition, we offer homeworking for our staff, limiting our carbon footprint where possible.

**Our customers** We regularly review our customer experiences through surveys, visits and phone calls and our quality systems are monitored as part of our monthly KPIs.

**Our suppliers** Our relationships with our suppliers are based on values of honesty, openness and integrity, and we choose suppliers that share our ethos. We also seek suppliers that have an ethical policy too.

**Our staff** We want to provide a workplace where our employees feel encouraged, inspired, valued, supported and connected. Our open plan offices helps promote communication, collaboration and team spirit. We have a structured in-house staff training programme, and all our staff are encouraged and funded to complete further education and training where necessary.
