

WHO

Commtact Ltd located in Yavne, Israel, specializes in advanced secured wireless communication solutions for manned and unmanned military applications. For over two decades, the company has been developing and manufacturing advanced and

reliable high-technology combat-proven products and systems with quick response capabilities and long-term stability, supported by excellent customer service.

WHAT

Commtact designs, develops, manufactures Line of Sight (LOS) and Non Line Of Sight (NLOS) communication solutions. Our proprietary technologies and mature line of products ensure seamless communication and high levels of network security, in different operational environments

including: RF Modules, Tracking Systems, Software and Firmware Packages, Integrated Digital and Analog Data Link Systems and special tailored wireless communication solutions for aerial, naval and ground applications.

WHY

Commtact's communications systems are used globally and have more than 500k operational hours. The variety of product lines and the flexible SDR (Software Defined Radio) offers our partners a full

end-to-end solution. On board video compression and unique modulation algorithms make our solutions secure and reliable.
