

INTEGRATING INNOVATION IN HEALTHCARE: MYTHS, REALITIES, AND BREAKTHROUGHS

Louis Shun
CIO, Gleneagles Hospital Hong Kong

A horizontal bar at the top of the image with a rainbow gradient, transitioning from red on the left to blue on the right.

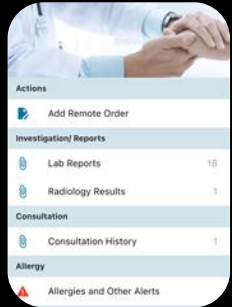

INTEGRATION IN 2025

A background of interlocking metal gears of various sizes, creating a complex mechanical pattern.

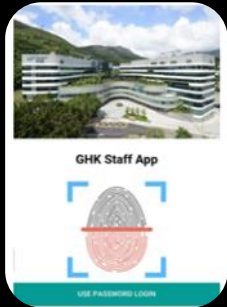

Technology is **not**
a barrier anymore

MYTH: INNOVATION DEPENDS ON TECHNOLOGY

REALITY: NOT NECESSARILY

Process change

Education

Standardization

MYTH: INNOVATION IS COSTLY

A man in a dark suit and white shirt is seated at a poker table with a blue felt top. He is looking down at two stacks of chips he is holding in his hands. The chips are blue and white patterned, and red and white patterned. The background is dark and out of focus, with some warm light sources visible. The top of the image has a decorative graphic with orange, yellow, and green wavy lines.

REALITY: IT'S RISKY, NOT COSTLY

Make bets, don't go all-in

MYTH:
OUR SYSTEM IS TOO OLD, TOO BIG

It's usually true...

But...

REALITY:
INNOVATE AROUND IT

MYTH: ___ IS GOING TO BE A GAME CHANGER

REALITY: PERHAPS, BUT WHEN?

MYTH: AI CAN DO ___ EASILY

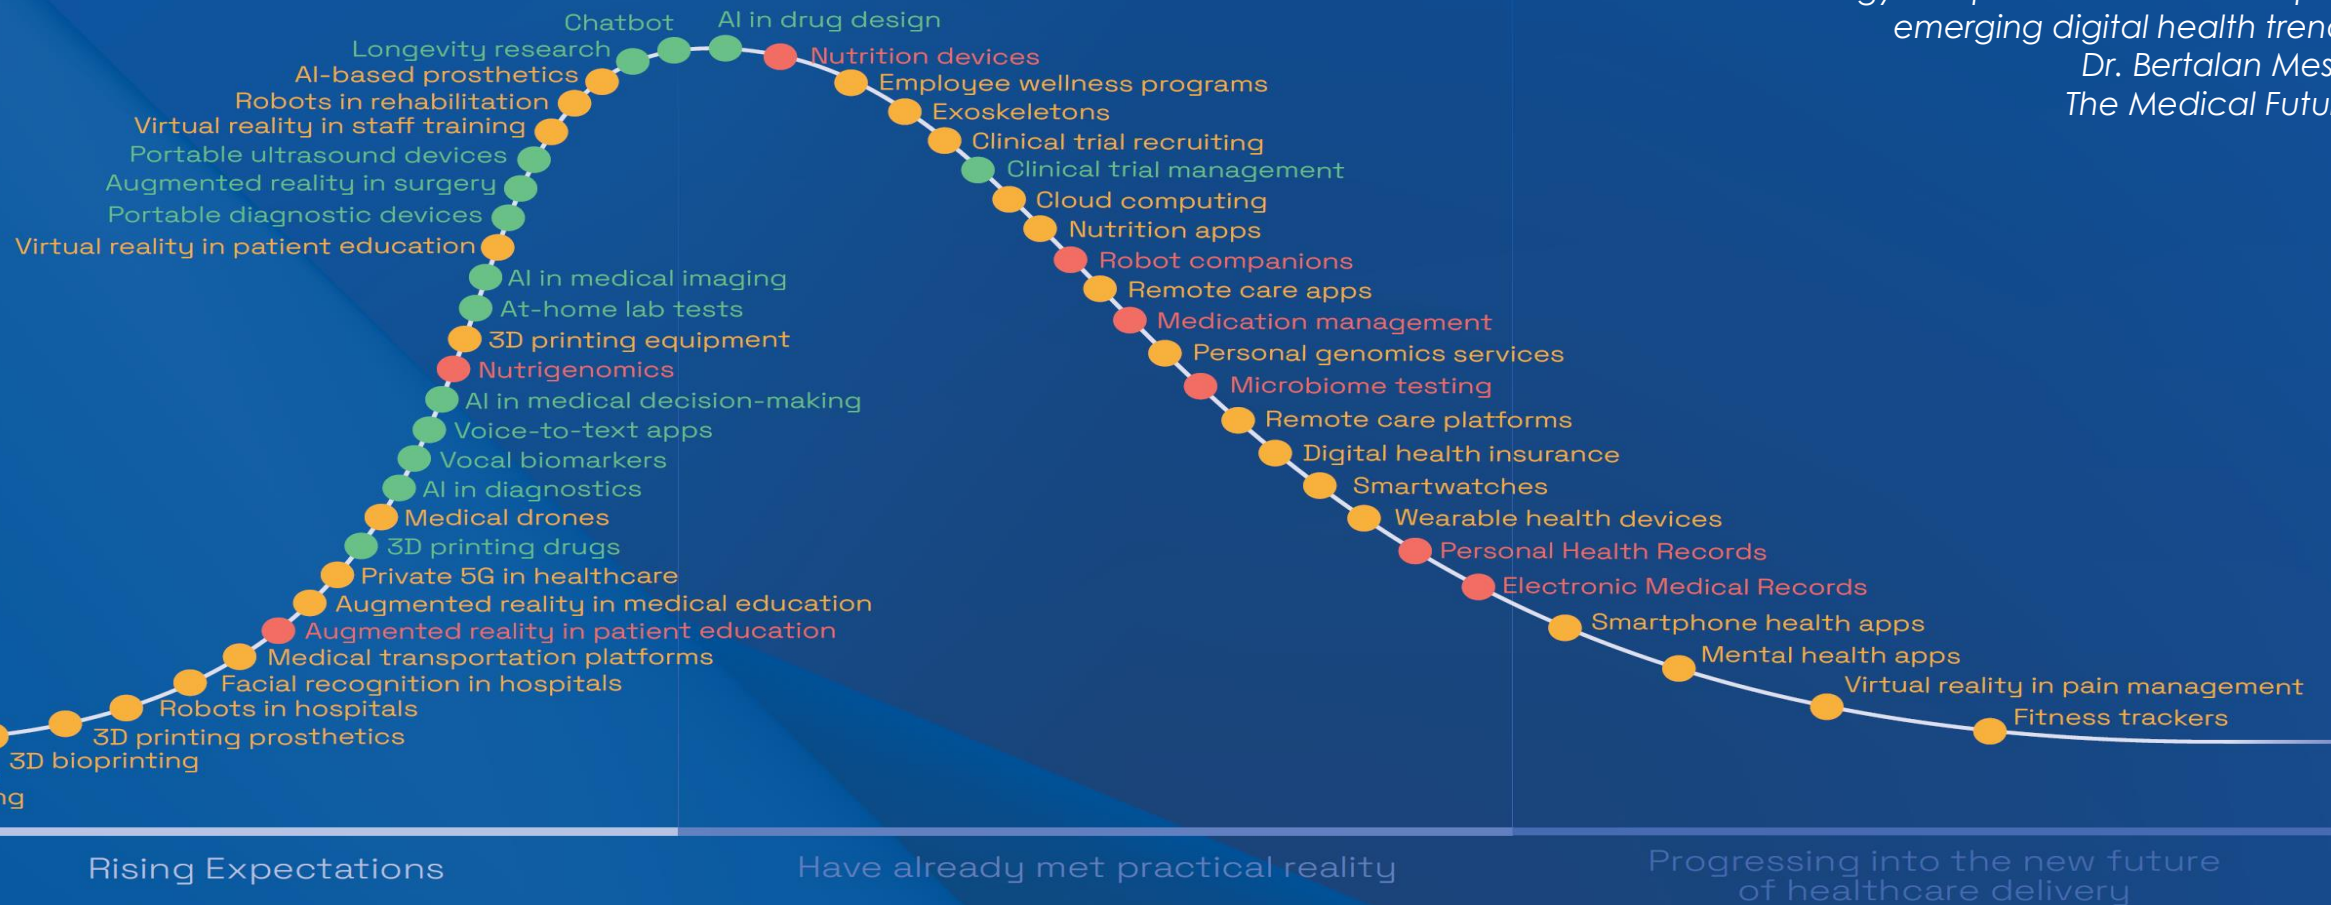

REALITY: SEAMLESSNESS IS KEY

BREAKTHROUGHS

EXPECTATIONS

LONG-TERM APPROACH, AGILE PLAN

NIMBLE & VENDOR NEUTRAL ARCHITECTURE

In Nimble Development, your team members are dancers who dance along a path, picking flowers when they see fit, planting trees in open spots, creating the product by typing their code.

A CULTURE OF EXPERIMENTATION

BUILD A SUPER TEAM

WHERE TO START?

THANK YOU!
