Australian Association of  
Practice Management

excellence in healthcare management

# Practice Management

- Profession established, developed and recognised.  
Vital component for a successful healthcare Practice.
- Viable and Sustainable Practices = Billing models, personnel, healthy patients
- Provide Efficient and Effective healthcare management
- Finance | Billing
- Cultural leadership
- Governance | Data
- Working to top of scope

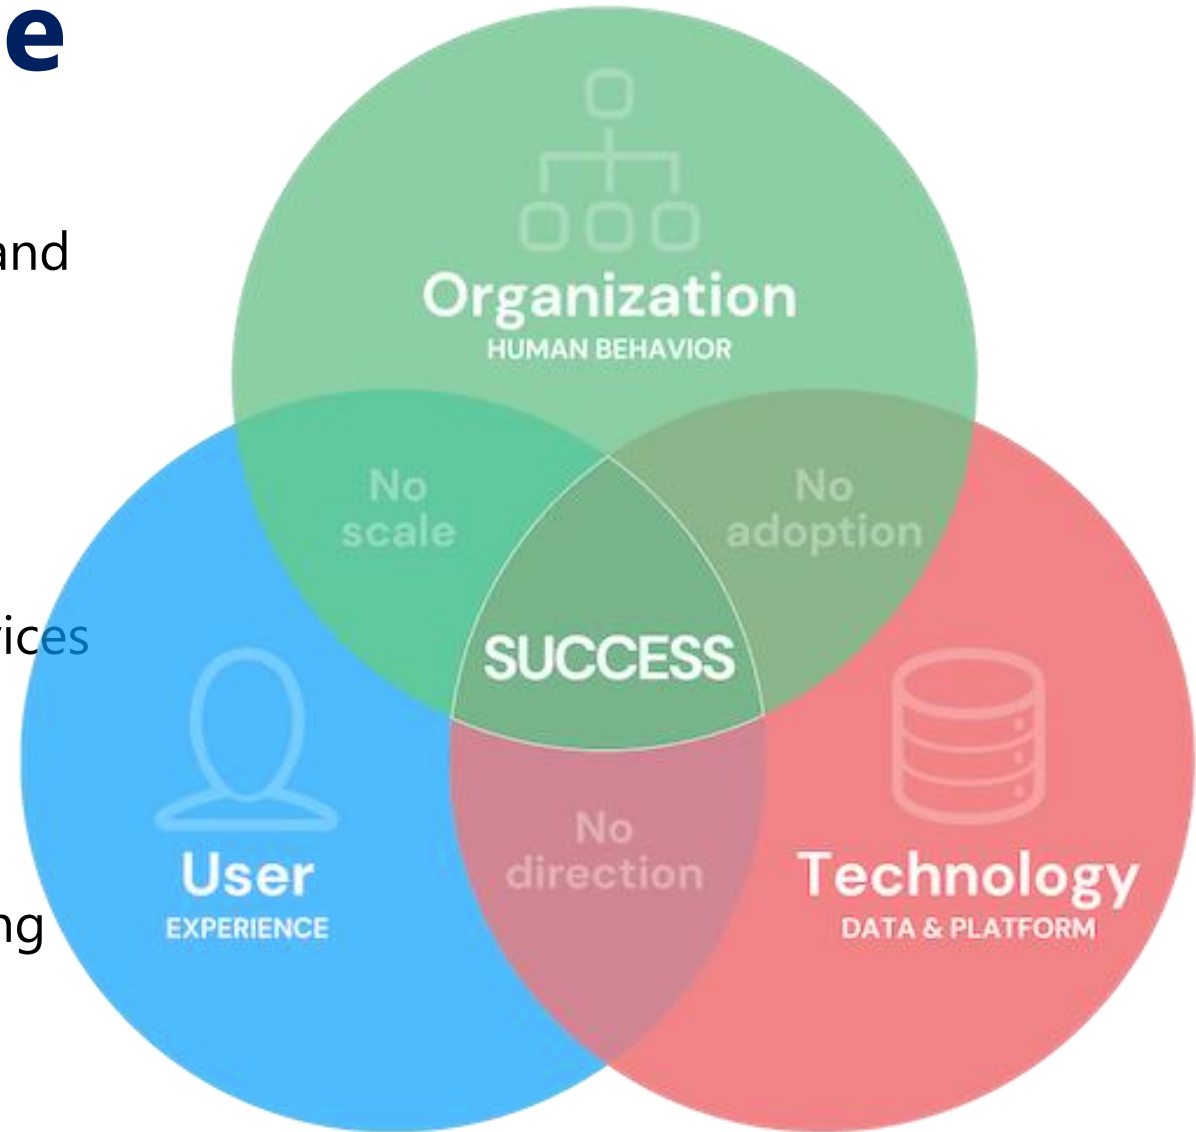

# Effective Healthcare Systems

- Accessibility, affordable care options and reduced barriers
- Patient centred care that leads to optimal patient outcomes
- Ensuring standards are met throughout the patient experience
- Integration of technology
- Analyse data and patient experience to identify areas of improvement
- Use practice data to improve patient satisfaction and retention
- Workforce leadership and collaboration

# Driving Business Value

- Streamline billing, patient record management and scheduling through technology
- Review operational elements to address inefficiencies.
- Increase or expand patient options, such as services or relationships with stakeholders
- Risk management
- Sustainability and viability through understanding and monitoring financial operations

# Thank you
