

The A38 Jump Starter

It'll jump start your vehicle and charge your personal devices. It's compact, light and fits neatly into the palm of your hand.

A good jump starter will give you power anywhere, anytime. It is one of the most important pieces of emergency tools you can carry in your vehicle or pocket.

- With 4 battery cells the output can reach 16 volts to start vehicles up to 30 times!
- Supports wireless charging at 10W for mobile phones etc
- Supports fast charge to recharge your vehicle refrigerator, fan etc
- Built in LED flashlight for indoors, outdoors and emergency lighting
