

You own a classic,
don't make it history....

Protect Your Classic

RELIABLE Since 2016 Classic Tracker have provided a secure and reliable tracking service designed & configured specifically for classic vehicles.

SECURE Constant vehicle safety monitoring, alerting & live-tracking. Incident interaction with emergency services. Remote control vehicle immobilisation.

A three-wire, self-install tracker which uses GPS & GSM to establish and maintain the secure-status of your classic. In the event of any unauthorised movement or tampering, you receive an alert via app/SMS/email and have access to real-time information on an app or the web. Additionally, we provide the ability for you to remotely immobilise your car during a theft situation.

High Quality EU Manufactured Tracker

Classic Tracker - Standard WIRED
