

11 Days Ugandan Safari 2024

Visited countries

Uganda

Although Uganda is famous for The Mountain Gorillas and Chimpanzees it is also home to, The longest river in the world, the River Nile. The most powerful waterfalls in the world, Murchison Falls, The third largest lake in the world, Lake Victoria. Those natural wonders coupled with The Ruenzori Mountains in western Uganda and Mount Elgon in Eastern Uganda create an incredible habitat for animal and birds that is unrivalled in East Africa. However, we know that despite all those breathtaking attractions it is The People of Uganda that make this country the wonderful destination that it is.

Regions to discover

Central Uganda

The Central Region of Uganda is home to the two principal cities, Kampala which is the capital city and Entebbe. Although the distance between the two cities is only around 40kms the journey time is severely traffic dependant. This region of Uganda is characterised by hilly terrain with marshland valleys. Due to the curved shoreline of Lake Victoria, both cities are close to the Lake and can act as a gateway to the rest of Uganda's other principal cities to the east, west and north of Uganda. The region also acts as a good starting point for shorter weekend breaks to islands on Lake Victoria.

The Central Region is the historical seat of the Baganda Kingdom with the Kabakas Palace, Kisubi Royal Tombs and other Royal sites found here.

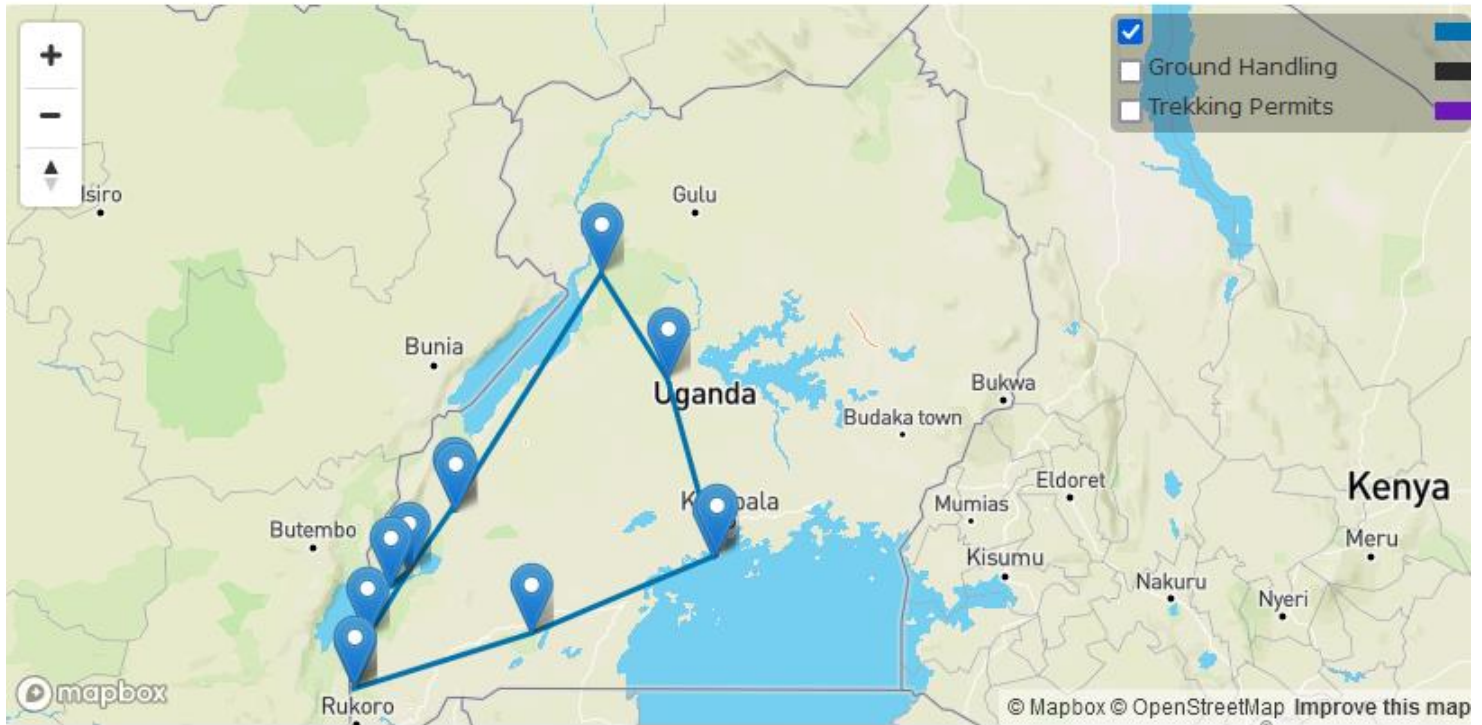

Western Uganda

The Western Region of Uganda houses the majority of the National Parks in Uganda. Lake Mburo, Mgahinga, Bwindi, Queen Elizabeth, Kibale, Rwenzori, Semiliki and Murchison all feature in this region. Due to the climate and altitude in Western Uganda, there are many Tea and Coffee plantations dotted over the landscape as well as stunning natural crater lakes and forests. But it doesn't stop there, Lake Bunyonyi, Lake Mutanda, Lake Edward, Lake George and Lake Albert are also found here, bringing with them an unrivalled beauty that can only be found in this region of Uganda.

The Kingdoms of Ankole, Bunyoro, Kigezi and Toro all hail from this part of Uganda.

Itinerary map

Day 1 : Entebbe Airport - Entebbe

Day 2 : Entebbe - Ziwa Rhino Sanctuary - Murchison Falls N.P

Day 3 : Murchison Falls N.P

Day 4 : Murchison Falls N.P - Kibale N.P

Day 5 : Kibale N.P - Bigodi Swamp - Kibale N.P

Day 6 : Kibale N.P - Queen Elizabeth N.P -

Day 7 : Queen Elizabeth N.P - Ishasha Sector

Day 8 : Ishasha Sector - Bwindi N.P - Buhoma

Day 9 : Bwindi N.P - Buhoma

Day 10 : Bwindi N.P - Lake Mburo N. P

Day 11 : Lake Mburo N. P - Entebbe

Day 1:Entebbe Airport- Entebbe

Welcome to Uganda! On arrival, you will be met at the Airport by our Company representative who will escort you to your safari vehicle and will introduce you to your Driver who will also be your Guide and drive to your accommodation.

Your journey will be approx; 8Kms / 15min drive.

Overnight at Papyrus Guest House | Standard room

Day 2:Entebbe- Ziwa Rhino Sanctuary- Murchison Falls N.P

An early morning rise will enable you to begin your safari and head towards Murchison Falls National Park, traveling north to Ziwa Rhino Sanctuary which will be the first scheduled stop, your journey will be approx; 210km. 4hrs drive.

Lunch en-route

AFTERNOON ACTIVITY

Any trip towards north-east Uganda just wouldn't be complete without a visit to the Rhino Sanctuary at Ziwa. They provide trained rangers who will guide you through a Rhino Trekking expedition. You will have the opportunity to observe the rhinos at a very close and safe distance. While at the sanctuary you will also encounter a range of other wildlife species including Uganda kobs, reedbucks, oribis, hippos and crocodiles.

Ziwa Rhino Sanctuary is the only place in Uganda where you can see rhino in the wild. The sanctuary is part of the effort by Rhino Fund Uganda and Uganda Wildlife Authority to rebuild the Rhinoceros population in Uganda. Uganda was once home to thousands of rhino but prolonged civil war and poaching in the 1970s and 80 take its toll and in 1982, the last rhino living in the wild was killed. Rhinos are classified as threatened animals, with only 5 remaining species, two of which reside in Africa, and the other three in Asia. In 2005, 4 southern white rhinos were introduced from the Solio ranch in Kenya and an additional 2 from the Disney Animal Kingdom in Florida, USA. Today the sanctuary boasts 34 rhinos.

After Rhino walk will fresh memories of the experience, it will be time for lovely drive from Nakasongola to Murchison Falls National Park via Masindi town. The journey to the park entrance will take you through the beautiful Kaniyo Pabidi Forest until the Kichumbanyobo Gate.

Your journey will be approx; 130km. 2.5 hrs drive.

Overnight at Pakuba Safari Lodge | Standard room

Murchison Falls National Park is Uganda's oldest, largest and best-known national park. It takes its name from the resplendent Murchison Falls that were themselves named in 1864, after the President of the British Royal Geographical Society, Sir Roderick Murchison. Murchison Falls National Park is located in the northern part of the Albertine Rift Valley where the massive Bunyoro escarpment meets the vast palm-dotted savannah of the extensive Acholi plain. It spreads inland from the shores of Lake Albert around the Victoria Nile, east to the Karuma Falls. The park was once called the Gulu and Bunyoro Game Reserve and was gazetted in 1952 to include the adjoining Karuma and Bugungu Wildlife Reserves.

Murchison Falls National Park is dissected from east to west by the Victoria (White) Nile, which at the Murchison falls forces its way through a narrow 7m gap in the

rocks to plunge 50ft into a gorge and flow onwards as the Albert Nile. The northern half of the park contains savannah and is inhabited by 80% of the entire park's animals including robust populations of Ugandan Kob, elephant, giraffe, buffalo, leopard and lion that roam the wooded savannah in hordes. Around 800 chimpanzees live in the Kaniyo Pabidi and Budongo Forests.

Day 3: Murchison Falls N.P

MORNING ACTIVITY

Game drives in Murchison Falls are incredible. The park is home to all of the Big 5 with the exception of the rhino. Also resident are the hippo, buffalo, giraffe as well as several antelope and monkey species. Most of the game viewing is done around the Buligi Game tracks in the northern sector of the park. The park also boasts the Nile - Lake Albert Delta which is home to a large number of birds including African fish eagles and the rare shoe-bill storks.

AFTERNOON ACTIVITY

After lunch, it will be time for a boat ride along the Nile to the foot of Murchison Falls, be sure to have your cameras ready for this one. Expect to see birds perched on tree branches ready to hunt, mammals drinking or cooling down in the river and reptiles basking in the sun on the river banks. One of the highlights of the boat ride is getting up close to Murchison Falls itself, allowing you to feel the awesome power and beauty that comes when the world's longest river is forced through a 7-meter gap before dropping 40 meters as it continues its journey to the Mediterranean Sea. This trip on the River Nile really harks back to the days of the intrepid explorers of days gone by and the best time to do the trip is at sundown.

Overnight at Pakuba Safari Lodge I Standard room

Day 4: Murchison Falls N.P- Kibale

MORNING ACTIVITY

No trip to the Murchison Falls area would be complete without a trip to The Boomu Women's Group! The Group was formed in 1999 in the village of Kihaguzi with aim of fighting poverty and creating more social and economic development. The Women now run a small scale accommodation facility that employs local people and is a source of income. During your visit to the Boomu Group, you will get to see the other activities that they run as part of their diversification to ensure a varied income base. These include handcrafts, weaving bedspreads as well as poultry farming and bee-keeping.

After breakfast you will head south westwards to Kibale via Hoima Town which acts as a midway stopping point between Murchison Falls National Park and Kibale Forest National Park. The drive is long but it will be a distant memory once the experience begins, your journey will be approx; 350km. 7hrs drive.

Lunch en-route

Overnight at Kibale Guest Cottages | Cottage

Kibale Forest National Park has two notable distinctions that make it a superb safari destination in Uganda. First, the park has one of the highest diversity and concentration of primates in any habitat in Africa – a record 13 species. Second, it is home to a prolific 320 bird species including four that have not been recorded in any other park in Uganda. Not surprisingly, the two key activities that are done in Kibale Forest National Park are Chimpanzee Trekking and Bird Watching. Kibale Forest National Park was gazetted as a forest reserve in 1932 and acquired National Park status in 1993. Today, it ranks among Africa's foremost research sites. Kibale Forest National Park is located in Southwestern Uganda stretches over 795sq. km of magnificent tropical rainforest interspersed with patches of grassland and swamp. It adjoins Queen Elizabeth National Park to the south to create a 180km-long migration corridor for wildlife between Ishasha in the remote southern corner of Queen Elizabeth National Park and Sebitoli in the north of Kibale.

Day 5: Kibale N.P- Bigodi Swamp- Kibale

MORNING ACTIVITY

Your Chimpanzee Trekking experience has finally arrived! It begins at the Uganda Wildlife Authority HQ at Kayanchu Gate where your trekking group will head into the forest with a guide after a short briefing. About 1 hour before your group sets off an advance party of guides will have entered the forest to locate where the Chimpanzees spent the night. Once located the advance party send a radio message back to your trekking group so that you can navigate through the forest. During the trek, you will also get to see the different birds, animals and plant species within the forest. Once you locate the Chimpanzees you can only spend one hour with them this ensures that the Chimpanzees don't become accustomed to human contact.

AFTERNOON ACTIVITY

The Bigodi Wetland Sanctuary is a part of the Magombe Swamp just south of Kibale National Park. A visit to the sanctuary enables you to see rare mammals and birds, like the webbed feet sitatunga as the great blue turaco call this place home. However, if you aren't lucky enough to see them there are still plenty of other animals, including bush pigs, black and white colobus monkeys and over 200 species of birds that inhabit the swamp. The Bigodi Wetland Sanctuary is a community-based programme that supports local residents and encourages a healthy link between tourism and the community it affects.

Overnight at Kibale Guest Cottages | Cottage

Day 6: Kibale N.P- Queen Elizabeth

The excitement of Chimpanzee Trekking will probably still be with you as the safari continues to Queen Elizabeth National Park, entry will be via the northern sector famous for the Kasenyi Plains and Kazinga Channel.

Your journey will be approx; 150kms / 3hrs drive.

MORNING ACTIVITY

The Kataara Women's Poverty Alleviation Group was formed in 2005 to combat the problem of human-wildlife conflict in this particular area of Queen Elizabeth National Park. The group provides alternative income for Kataara families and an incentive to conserve Uganda's precious wildlife. There is a proud mixture of Banaynkore, Bakiga, Batoro and Banayruguru tribe, which is reflected in the artistic diversity of the products that are created developed and sold. The women believe in maximizing the use of natural materials grown locally, even the dyes for the baskets are created by boiling leaves from local herbs. A visit to the group will enable to find out more about how this incredible enterprise works and be inspired by the individual stories that the women have. There will also be a chance to support the group by purchasing reasonably priced crafts.

AFTERNOON ACTIVITY

One of the highlights of visiting Queen Elizabeth National Park is the boat ride along the Kazinga Channel. The boat ride is a round trip beginning at the Mweya Peninsula and lasting around 3 hours. The Channel is a 32-kilometre long natural channel that links Lake Edward and Lake George. The channel has one of the world's largest concentration of hippos, numerous Nile crocodiles, buffalo, elephants and a whole host of birds. including African fish eagles, kingfishers, Herons, storks and skimmers.

Overnight at Parkview Safari Lodge | Standard room

Queen Elizabeth National Park is the only one in Uganda crossed by the equator. To its north and south, the Ruwenzori and Virunga mountain ranges form a stunning backdrop. In the centre of the park is the Kazinga Channel connecting two Great Lakes, Edward and George, and the northern section of the park is dotted with serene crater lakes and bubbling hot springs that are carved into rolling green hills. Queen Elizabeth National Park is divided into 3 sectors: Mweya Peninsula the hub for tourist activity, Kyambura Gorge to the east of Mweya and Ishasha in the remote south-west. The Ishasha plains to the south-west, are famous for the tree-climbing lions and in the breathtaking Kyambura Gorge, habituated chimpanzees steal the show. The Mweya peninsula and the Kasenyi plains provide, visitors with the most chance of seeing game

Named in honour of the coronation of the reigning Queen Elizabeth of England in 1964, the park was initially gazetted as a reserve called Kazinga National Park. It is also a designated UNESCO Biosphere Reserve – a conservation area that is considered typical of the balanced relationship between people and nature.

Day 7: Queen Elizabeth N.P- Ishasha

MORNING ACTIVITY

A game drive in Kasenyi sector of Queen Elizabeth National Park is a great place to see view differing landscape and ecosystems in Uganda. The park is the oldest and the most visited in Uganda. This game drive will take place on the Kasenyi Plains which are in the north-east section of the park and but west of Lake George. Queen Elizabeth National Park is one of the most famous National Parks in Uganda and for good reason. There diverse landscape houses a wide range of animals, birds and plants which enables any visitor to partake in games drives in different locations of the park, a boat cruise along the Kazinga Channel where animals and birds line the banks of this waterway that stretches between two lakes and Chimpanzee Trek in Kyambura Gorge.

Today you will transfer from the North Eastern sector of the park to the Southern sector also known as the Ishasha sector, there are a wide range of birds, mammals and plant life that you may be able to see enroute and all you have to do is sit back and enjoy the ride.

Your journey will be approx. 100km, 2hrs 30min drive.

AFTERNOON ACTIVITY

A game drive in the Ishasha sector gives you a chance to see the famous tree climbing lions that can be seen hanging out of large fig trees. No one really knows why lions in this area climb trees but there are many theories surrounding this behavior. However, lions are not the only animals to be found in the park. Large herds of Uganda Kob, Hippos, elephant and antelope also roam this part of the park making it an ideal place to view the wildlife at it's best.

Overnight at Enjojo Lodge | Cottage

Day 8: Ishasha Sector- Bwindi N.P-

It is time to leave Queen Elizabeth National Park and continue your journey towards Bwindi and the Gorillas, where the adventure of a lifetime awaits you! This section of the safari will see you enter the traditional area of Kigezi Kingdom which is the southern most Kingdom on Uganda,
Your journey will be approx; 70kms / 2hrs drive.

Overnight at Mahogany Springs Lodge | Luxury Banda

Bwindi Impenetrable National Park is most famously known as the home of half of the world's remaining mountain gorillas and is one of the most visited parks in Uganda. The park is a dense primaevial forest located in the remote southwest of Uganda, on the edge of the Albertine Rift Valley across from the DRC. The oldest and most biologically diverse rainforest in Africa, Bwindi Impenetrable National Park is a well-preserved slice of nature that has remained largely undisturbed to date. It is believed that Uganda's first people, the Batwa have inhabited this forest for 400,000 years, and many continue to do so.

The Park was first designated as Crown Forest Reserves in 1932; it changed name to Impenetrable Central Forest Reserve in 1964, and was finally designated as a national park and renamed Bwindi Impenetrable National Park in 1991. In 1994, it was designated as a UNESCO World Heritage Site. Bwindi means impenetrable a fitting description for the thick ground cover of ferns and vines and extensive bamboo and forest hardwoods that hinder direct access to the forest on foot. Bwindi Impenetrable National Park is a complex ecosystem within the forest that is inhabited by 120 mammal species of which 10 are primates, 346 bird species and over 200 butterfly species. Forest hogs, forest elephants and numerous primates roam beneath the thick canopy of trees. The park's afro-montane forest has more than 200 tree species, over 1,000 flowering plants and 100 species of fern, many of which cannot be found anywhere else in East Africa.

Still, Bwindi Impenetrable National Park remains best known for her gorillas, gorilla trekking and since 2016, gorilla habituation experiences. A gorilla encounter in Bwindi, where half of the worlds total gorilla population; about 400 gorillas live, is undoubtedly the absolute highlight of any trip to Uganda. The Park is run by the Uganda Wildlife Authority and is split into four sectors.

Day 9: Bwindi N.P- Buhoma

MORNING ACTIVITY

Your Gorilla Trekking experience is finally here, hope your camera is charged and you are ready for what lies ahead. An early start will see you transfer to the Park Headquarters for a briefing with the Uganda Wildlife Authority guides. An advance party of guides will have gone ahead into the forest to locate where the gorillas slept the previous night and will have begun to track their movements. These guides will communicate with your team via a walkie-talkie and the trek into the forest will begin.

Locating the Gorillas can take a few hours or the whole day depending on how far they have moved from the place they spent the previous night. For conservation purposes, the amount of time allowed with the Gorillas is 1 hour. As you trek through the forest you will appreciate why the forest is called impenetrable. There is also a multitude of other animals that you might encounter including antelopes and rare monkeys not to mention the beauty of the forest itself. Once you have completed the trek you will return to the lodge, for a well earned rest and time to reflect on a truly magical experience. After your trek there will be plenty of time to relax at your lodge or if you are up to it take a gentle exploratory stroll.

AFTERNOON ACTIVITY

At Let's Go Travel we try and support the communities that we interact with as part of the business we run, with a view to minimising the impact we have on communities as well as ensuring that they too benefit from our operations. One such community in the Buhoma area of Bwindi is called Ride 4 a Woman. You will get to visit these incredible women and learn more about their story!

Overnight at Mahogany Springs Lodge | Luxury Banda

Day 10: Bwindi N.P- Lake Mburo N.

With your Gorilla Trekking experience still a vivid memory, it is time to leave the Gorillas and the Kigezi Kingdom all behind and head towards Lake Mburo National Park and into the heartland of the Ankole Kingdom. The drive is one of the most scenic in Uganda as you transition between the Impenetrable forest and into the Ankole grasslands, where the famous long-horned Ankole cattle graze, Your journey will be approx; 260km / 6hrs drive.

AFTERNOON ACTIVITY

One of the best activities to do in Lake Mburo is a scenic boat ride on the lake. This is one of the best ways to see the diverse wildlife that the Park has. The boat ride can be done at dawn or dusk depending on your safari itinerary and will normally take around 2 hours. All the rides begin at the Rwonyo jetty, it will not take you long before you begin to see large groups of hippos in the water as well as crocodiles and buffalo lining the banks of the lake. The lake is also famous for its bird life, from majestic fish eagles, colourful kingfishers, to hammerkops and their enormous nests.

Overnight at Rwakobo Rock Lodge | Cottage

Lake Mburo National Park may be one of Uganda's smallest parks, but it offers more than enough delights to give it a high ranking on the Uganda safari circuit. Lake Mburo National Park is located in Southwest Uganda and is used as a gateway to the National Parks in Western Uganda. It was first gazetted as a controlled hunting area in 1933, upgraded to a game reserve in 1963 and finally to a national park in 1983.

Lake Mburo National Park has the most extensive acacia woodland of any of Uganda's parks. Lake Mburo, the largest of the five lakes found inside the park is part of a 50km-long wetland system that is linked by swamps. Unique to Lake Mburo National Park is the availability of both horseback and quad bike safaris, which allow for closer viewing and exceptional photographs of the abundant plains game.

Lake Mburo National Park is the only park in Uganda where you can see Eland and Impala and also has the largest population of Zebras. Other animals of note are, topi, oribi, reedbuck, warthog, and the mighty buffalo. 15 Rothschild's Giraffe that was introduced from Murchison Falls National Park in 2015 adds to the diversity of the park, as do leopards, of which Lake Mburo has the highest concentration in Uganda.

The park is also famous for boat rides on Lake Mburo where you can see plenty of Hippos, as well as King Fishers, Fish Eagles, Crocodiles as well as rare birds such as the African Finfoot.

Day 11:Lake Mburo N. P-

MORNING ACTIVITY

A Game drive in Lake Mburo National Park are a perfect way to begin or end a Safari in Uganda. The park has a variety of wildlife that almost contradicts it's small size in comparison to the other parks in Uganda. The park doesn't have any large cats apart from leopards who are normally only seen at night Lake Mburo has a large variety of antelopes and Rothschild's giraffe have recently been reintroduced. However the highlights of the park have to be the Burchell's zebra and eland which are only found in two National Parks in Uganda.

After an incredible safari, it will be time to head back. During this final leg of the trip, you will leave the Ankole Kingdom and head back into the Buganda Kingdom, heading eastwards towards Entebbe. There are not many places in the world that have the wide range of wildlife, nature and culture. We hope you took loads of great photos and had a wonderful experience that will live with you for a long time, your journey will be approx; 270km. 6hrs drive

Lunch en-route

As your time in Uganda has come to an end, we truly hope you have had a memorable experience that you will remember for many years to come. Have a safe onward journey and we hope that Uganda will always be close to your hearts!

Hotels & Lodges

Papyrus Guest House

Entebbe

Category: Hotel 3*

<https://papyrusguesthouse.com/>

Papyrus Guesthouse Entebbe is a charming bed & breakfast accommodation with nine individually decorated en-suite bedrooms. Ideally located in suburb of Entebbe town set in beautiful gardens.
