

BELGIAN PAVILLION

Program

The Belgian Pavilion hosts **12 Belgian companies who work hard to design the energy systems of the future**. They showcase state of the art solutions of what is being made in Belgium.

At our Pavilion you experience how innovative Belgian companies work on the challenges of decentralisation, decarbonisation and digitalisation taking the democratisation of the energy sector into account.

Come and sense the strong collaboration that exists between partners of the industry, utilities, governments and R&D centres.

This Pavilion of Frontrunners is powered by

- Flanders Investment & Trade|FIT,
- Flux50|Energy cluster in Flanders,
- Agoria and
- AWEX
